Hasty Departure After
Final SessionFurther Advice From U. S.
on Hague Proposal
ReceivedU. S. Not Likely to Partici-
pate Until Scope of Meet-
ing is Better Understood

GENOA, May 18. (By the Associated Press.)—The non-aggression pact was adopted unanimously at a plenary meeting of the political sub-commission of the Genoa conference today. The pact was not signed, but was adopted in the form of a resolution, each state pledging itself to respect it. All delegations attended the session except those of France, Belgium and Germany.

The delegates made solemn affirmation that they would recommend the pact to their governments and it seems likely it will be ratified generally as adopted today.

The final plenary session was fixed for tomorrow morning, and the conference will probably be concluded at noon. The British have ordered a special train and other delegations are planning for a hasty departure.

Further Advice From United States
GENOA, May 18. (By the Associated Press.)—Continued to Page 4HOOVER ACTS TO HALT
COAL PRICE BOOSTING

WASHINGTON, May 18.—Secretary Hoover asked and obtained today the approval of the leading operators of non-union bituminous coal fields for a government plan of getting the coal industry by voluntary action to put a stop point on increase of coal prices during the period of the existing coal strike.

The plan which was approved by about 40 operators who met with Mr. Hoover calls for the creation of a committee of operators with government and consumers' representatives working on it in each district where coal is being produced, through which all orders for coal will be cleared. A similar general committee will be set up in Washington and Mr. Hoover assured the coal operators that he had Attorney General Daugherty's opinion that such non-operative action to reduce and hold down prices in the public interest, would be legal.

OPPOSITION TO TRANSFER ORDER
EXPECTED AT COUNCIL MEETING

Order Transferring \$21,400 From Overlay Surplus to Care for Maintenance of Auditorium and Pay Salary of Registrar of City Employment Bureau Coming Up This Evening—City Solicitor Does Not Approve of White Way Extension

Opposition to an order transferring \$21,400 from overlay surplus to appropriations to care for the maintenance of the Memorial Auditorium and to pay the salary of the registrar of the city employment bureau, will develop at tonight's meeting of the city council to such an extent that it is believed it will not be adopted.

In connection with this order is an opinion from City Solicitor Edward J. Tierney, sent today to City Clerk Stephen Flynn, in which he approves of the \$21,400 order, but does not approve of another order for \$1200 for the extension of the White Way lighting system in Gerhart street from Summer street to Thomas E. Mann square.

In this opinion Mr. Tierney states: "Continued to Page 4"

MORE KILLINGS
IN BELFAST

At Least Four Men Killed
and Many Wounded in
Firing Today

Police and Soldiers Battle
Gunmen—Concerted At-
tack on Police Barracks

BELFAST, May 18. (By the Associated Press.)—A wild night of firing in the Marrowbone district of Belfast, with police and soldiers battling gunmen, was followed by further shooting today as the working people were on their way to the shops. At least four men are dead as a result of these disorders, and several others wounded, some seriously.

A concerted attack was made upon the Musgrave street police barracks. Seven men in police uniforms knocked at the front gate. When the guard asked "Who's there?" the reply came "Police on duty." The gate was opened and the party entered. The invaders closed the door and ordered the guards to throw their hands up.

Two of the police showed fight and were wounded by members of the attacking party, who rushed upstairs to a room in which arms were stored, firing at the guard on duty. Help came at this juncture, however, and the raiders fled.

Constable Collins, who was wounded in the fighting, died this morning. The condition of Constable McKewen, the other defender wounded, is not serious.

Two on Train Car Killed
BELFAST, Ireland, May 18. (By the Associated Press.)—Two men sitting on the top deck of a tram car were shot dead from behind by two others, as the car was nearing the center of the city today. The assassins escaped.

William McKnight was shot in the abdomen while on his way to work, and is in a critical condition. Robert Beattie was wounded in the arm.

SO. END Y.M.C.A. GAME POSTPONED
Tonight's South End Y.M.C.A. game has been postponed on account of the weather conditions prevailing throughout the day. The game will be played on the next open date after the Y.M.C.A. of C. tie has been disposed of.

Prisoners in English and Welsh prisons numbered about 11,800 in March, 1922, as compared with 17,800 in March, 1924.

Fire Swept Historic Hospital
of Santo Spirito on Banks
of Tiber

One of the Most Ancient and
Picturesque Charitable In-
stitutions in Rome

Pavement Collapsed Burying
20 of the Chronic Patients
Access Impossible

ROME, May 18. (By the Associated Press.)—Fire swept the historic hospital of Santo Spirito, one of the most ancient and picturesque charitable institutions in Rome, early today. Collapse of the pavement isolated the chronic ward. Sixteen bodies had been extracted from the burning ruins at 7:30 o'clock. The institution accommodates nearly 8000 inmates, and includes a hospital, lunatic asylum, foundling home and a refuge for aged and infirm persons.

The fire broke out shortly before 10 o'clock.

GOLD-STAR MOTHERS

Gold Medals for Lowell Mothers
Who Gave Their Sons
Over There

Lowell's 140 or more gold-star mothers, mothers who gave their sons that democracy might not fade from the earth, will receive from the city of Lowell a medal of solid gold, fittingly inscribed and emblematic of the supreme sacrifice made by them and paid for in full by their boys upon the battlefields of the world war.

Already a tentative design for the medal has been submitted to a local jeweler by Mayor George H. Brown, working in conjunction with Lowell post of the American Legion.

The design is said to be only tentative, for it is subject to alteration should some suggestion be made that would tend to add to its beauty and significance, but as it stands it embraces the heartfelt appreciation and sympathy of a grateful city.

At the top of the medal is a gold star, on which will be inscribed the name of the boy. Hung from this bar will be a gold star, with the wording thereon, "Gold Star Mother." A ribbon drops from the star to the lower part of the medal, which is round in shape and will have on its face the city seal and motto. On its reverse side will be the words:

"Presented to Mother by the City of Lowell, for Her Boy, Who Paid the Supreme Sacrifice to God and Country."

The mayor said today that he estimated that the medals would cost not more than \$1500 and when finished and ready for presentation, a resolution would be passed by the city government to be spread upon the records of the city clerk and that each medal would be accompanied by a letter, from the city to each mother.

"Eventually, the mayor said, he hoped the city would take steps to prepare a suitable mark of appreciation and recognition for presentation to every lowell man and woman who served in the war, but for the present, financial conditions would allow only the remembrance of the gold-star mothers."

NEW YORK, May 18.—Hootleggers are so thick along the waterfront, that the Atlantic Fruit Co. has had to hire a squad of ex-pugilists to guard its pier from the swarms who meet every ship in the hope of robbing it.

This became known today when "Gunboat" Smith led his squad into action against several motorboat loads who sped up to the dock just as the Princess May, in-bound from Jamaica, made fast.

Smith said that the hootleggers, displaying bankrolls, called on members of the crew to produce liquor. Smith's party floored four of them who had climbed onto the pier, put to flight the rest of the landing party and then, jumping into a skiff, drove off the motor boats.

Two shots were fired by the hootleggers, Smith said.

Superintendent Public Buildings Re-
fuses Permits for Erection of
10-Footers in Highlands

As the result of many complaints that now have crystallized into concerted opposition, Supt. Francis A. Connor, of the buildings department, has refused two permits for the erection of 10-footers, so called, in the Highlands residential district, one to be located at the corner of Wilder and Westford streets, and the other at the corner of Branch and Loring streets.

While there is no law under which the superintendent may act in refus-

LOWELL CASES IN THE
SUPERIOR COURT

Several local men charged with the violation of the liquor laws and who were found guilty in the first district court, but who appealed the findings, paid fines in the criminal session of superior court held in Cambridge today.

Included in the list of cases was the famous Demetrius Papacostas case and a finding of guilty by a jury gave local enforcement forces much satisfaction. The Papacostas case dates back to March. At that time it caused much discussion in local circles. The case in question involved a raid on a near-beer saloon in 511 Market street. It is alleged that when Papacostas saw the liquor squad sweeping down on him, he dumped the contents of a bottle, but a drafter in which were several gallons of water. Regardless of this fact the raiders filled a bottle with the contents of the drafter. Examination of the liquid showed it to contain .31 per cent alcohol. When the case came up in lower court the defense offered the argument that the liquid in the drafter contained alcohol as the result of rinsing beer glasses in it. Papacostas was found guilty and fined following the hearing in local court. Through counsel he appealed to the superior court.

The case has been scheduled for trial several times but each time it has been postponed for some reason or another. It finally came to trial before Judge Frederick Lawton and a jury yesterday. Papacostas was found guilty. The case was continued one week for sentence.

Three other liquor cases were tried this morning. George Blake, charged with illegal keeping of a saloon, was found guilty and fined \$100 which he paid. He was tried in the local court on Mar. 23, pleaded not guilty, was found guilty by the court and fined \$100. During

the depression of business in local textile mills has been responsible for at least 400 families leaving Lowell during the past three months. According to information given out today by Leon Gagne, an expressman with a place of business in Hill street, Mr. Gagne states that during the past three months he has moved to the railroad station the furniture and other personal effects of about 25 families and he says several other local furniture movers have also been kept busy going to the railroad station with loads of furniture.

Mr. Gagne stated that most of the families are going back to Canada, their native land, while others are settling on farms in Vermont. Three local families have responded to the call of the colonization agents and have settled down on farms in western Canada. During the past week, however, says Mr. Gagne, there has been a lot of up and numerous families who had engaged him to move their furniture to the railroad station have cancelled their order as they feel that activities in the cotton mills will be resumed before long. From Manchester, N. H., comes the information that hundreds of families have left the Queen city during the past few months and have returned to Canada. The reason for the exodus being the textile strike.

Justice Pierce Is Exonerated
BOSTON, May 18.—Petitioners for the removal from the supreme court bench of Justice Edward P. Pierce were given leave to withdraw today by a special legislative committee which investigated the charges. The committee's action was unanimous. It was alleged that Judge Pierce conspired to obstruct justice and accepted gratuities.

Daugherty to Meet Steel Heads
WASHINGTON, May 18.—Attorney General Daugherty today invited representatives of the eight steel companies named in the senate resolution directing an inquiry into a proposed merger of independent companies to meet him Saturday, to discuss their plans for the proposed merger.

Negotiations For Funding War Debts
WASHINGTON, May 18.—Negotiations may be conducted simultaneously with France and Great Britain for the funding of the war debts of those nations to the United States, it was said today at the treasury.

GIRL TRIES SUICIDE IN
COURTHOUSE

LAWRENCE, May 18.—Impostor a size of \$50 upon Francis Landers of Haverhill, after Landers had pleaded nolo to a charge of improper conduct with a 15-year-old girl, Judge A. S. Cox in the superior criminal court warned Landers that his next appearance before the court would be a trip to jail and added: "In all cases such as this that I have ever tried, I have never believed that the girl was solely to blame; I believe that if all the women in the world were locked up in jail some of you men would break in to get at them."

The girl in the case, Marie Catana of Haverhill, was also before the court on a complaint charging her with being stubborn and disobedient and after the court had sentenced her to Lancaster she broke away from court officers while in the detention room, and tried to throw herself from a second-story window of the court house. She was prevented, however, by Janitor Robert Otto, who caught her just as her legs were disappearing through the window.

CONCERT PROGRAM
AT NORMAL SCHOOL

Students of the Lowell Normal school and many of their friends enjoyed a rarely excellent concert program yesterday afternoon. Miss Carmela Ippolito, violinist and Mr. Henry J. Clancy, tenor, were the principals, and rendered instrumental and vocal numbers in a delightful manner.

Miss Ippolito began with three excellent selections: "Allegro," "Orientale," "Serenade Espagnole," by Sammartini, Cesar Cui and Chamisso-Kreisler, respectively, and interpreted the various movements therein charmingly. Her second offering was Mendelssohn's Concerto, Op. 64, in A major, which she played with splendid results. She closed with Saint-Saens Rondo, Capriccioso, Op. 28, and was accorded generous applause.

Mr. Clancy sang four folk songs, "Phyllis Has Such Charming Graces," and "Oh! No John," from the English, "Mary of Araby," from the Scotch, and "Molly Brannigan" from the Irish, much to the delight of his audience, and on his second appearance gave "Una Nuttira Lagrima," from Donizetti's "Elisir d'Amore," a very beautiful tenor solo. His last group was of three excellent numbers, offering striking contrasts, Ausonia's "I Have a Dream," McGuire's "Duna" and "Alvares," "La Parolida."

Miss Ippolito was accompanied at the piano by Miss Ruth Boulger, and Mr. George Wellington acted as accompanist for Mr. Clancy.

MISERABLE FOR
TWO YEARS"Fruit-a-Lives" Restored Her
Strength and Vitality

MOOREVILLE, CARROLL CO., N. H. "I was all run down and work was burdensome, owing to indigestion, and gas on my stomach which caused me to belch a good deal. My heart seemed to be affected.

"It was two years ago that I was in this condition and began the use of 'Fruit-a-Lives,' which proved the very remedy I required. I was freed of the indigestion, which I attributed to my heart, and I can conscientiously recommend 'Fruit-a-Lives' as the great Fruit Medicine."

GERMAN COMING TO U. S.
ON MEXICAN DEBT

NEW YORK, May 18.—(By the Associated Press)—Paul von Schawbach, junior member of the famous German banking firm of S. Bleichroeder & Co. will represent German investment interests at the international conference here next month on the refunding of the Mexican national debt. It was learned here last night. This will be the first international financial meeting since the peace conference at which both Germans and American private investment interests have been represented.

The German banker will sail from England on the steamship Olympia May 24 with Thomas W. Lamont, who has been holding preliminary conferences with European bankers in London, and delegations from the British and French groups.

Mr. Lamont, the members of the British and French delegations and Mr. von Schawbach will begin conferences here about June 1 with Adolfo de la Huerta, Mexican secretary of the treasury, to devise plans for adjusting Mexico's national debt, which is estimated at approximately \$700,000,000.

This debt has been accumulating since 1914 when Mexico stopped interest payments on virtually all of its foreign-owned securities. It is estimated that more than one-half of this indebtedness was floated abroad and a large percentage of the original European offering was of the French and British groups. The international committee was organized in February, 1918. It consisted of 10 American members, five British and five French. Since then one American has withdrawn, two have been added, and representation has been given on the French and British groups to Swiss, Belgian and Dutch interests. This combination, with the Germans, represents virtually all the foreign holders of Mexican securities.

It is known that Germany unloaded a large amount of its Mexican bonds in the Paris, London and New York markets in the few weeks preceding the war. Vast quantities also were disposed of during the war, through neutral countries.

Despite its extensive pre-war and war liquidation of these securities, Germany's holding up of Mexican bonds still is believed to be quite large.

POSED AS MAN

Woman Deceived Another
Into "Marriage"

DES MOINES, Iowa, May 18.—After living a year and a half with a woman posing as a "husband," afraid to reveal the deception, Mrs. Janet Simmons yesterday caused the arrest of Mrs. Irene Gaul. Mrs. Simmons said Mrs. Gaul, dressed as a man and employed as a restaurant cook, courted her and continued the deception after their marriage.

She said she learned three weeks later her "husband" was a woman.

TICKER IMPROVEMENTS

New Service Expected to Bring Record of Transactions on Floor

NEW YORK, May 18.—(By the Associated Press.)—An almost instantaneous record of transactions on the floor of the New York stock exchange is expected to result from improvements in the official ticker. The new service will start soon.

Elimination of present delays, which range from 10 to 20 minutes in an active market, is expected by exchange

Pimples, blackheads and boils—fresh yeast rids you of them

It is well known that pimples and blackheads (acne) and boils are often caused by errors of diet.

Fleischmann's Yeast is now being recommended for these embarrassing and painful skin troubles because fresh yeast corrects the errors of diet which cause them.

The surgeon of one important New York hospital states: "I have used yeast extensively and found it invaluable in curing boils."

When 17 cases of pimples were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia the results were remarkable. A typical case was a young man who had suffered from pimples for three years. He ate three cakes of Fleischmann's Yeast daily. In five weeks the eruption had cleared completely.

If you are troubled with pimples or boils, begin at once to correct them by eating 2 or 3 cakes of Fleischmann's fresh yeast daily before or between meals. Remember! It is Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer for Fleischmann's Yeast.

Says Rheumatism Leaves You Forever

James H. Allen, of Congress avenue, Rochester, N. Y., once a rheumatic cripple, who discovered ALLENRIU and with it banished every trace of uric acid and every sign of rheumatism from his body, says that every drug-guaranteed full pint bottle of ALLENRIU to show the way to complete recovery or money back.

It relieved at once and immediately after you start to take ALLENRIU the good work begins. It sores out uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels. Even in cases where suffering has been pitiable and painful all traces of this dread disease disappear in a few days. Down, Druggist, can supply you.—Adv.

Warms Against Use of German Electric Irons

(Lowell Sun, May 16, 1922)

A warning was issued today by Chief Edward F. Saunders of the fire department against the use of electric irons of inferior grade recently received in this country from Germany. These irons are of such flimsy and unsuitable construction that their use is hazardous in the extreme, according to the chief, and their use is a constant menace.

"Not long ago," Chief Saunders said today, "a shipment of 180,000 German-made electric flatirons was unloaded at New York, according to information I have received from the national board of fire underwriters. The irons were purchased abroad at a low price and are being retailed for \$1 apiece through stores; handling cheap merchandise of various kinds.

"The irons are not accompanied by stands, which introduce an additional hazard. It is the irons themselves, however, that present the chief danger. They are flimsily constructed and since their period of service is extremely brief, they are expensive at any price. The flexible cord attached to them is sub-standard, being No. 32 gauge, whereas No. 16 is prescribed by underwriters as a minimum requirement. Furthermore, the insulation is inferior and will not stand much usage. The plug is of a wooden type, long ago discarded in the United States.

"An engineer who tested four of these irons found that not one lasted long enough to undergo the complete tests, which it was planned to carry out, the heating element breaking down in from three to 25 minutes. The mica insulation in the interior of the irons in small pieces and insufficient to prevent contact with some parts of the appliance.

"In two of the irons there were short circuits due to the poor assembly, which resulted in the blowing of fuses on the circuit employed. Owing to the scant insulation, there is considerable likelihood of shock when the irons are employed in the neighborhood of plumbing fixtures.

"From this data it is evident that the irons not only introduce a serious danger into the homes where they have been brought, but that they also represent a complete waste of money. I want to warn the public the shun these German devices and stick to the approved makes of American irons."

HOUSE WIRING IS OUR SPECIALTY

We heartily approve Chief Saunders in his warning to the public of Lowell against a certain type of German-made electric flatiron, and we believe that the chief of the fire department could have gone a step farther by condemning other makes of electrical goods that are being manufactured in foreign countries and that are now flooding the American market.

We carry a full line of electrical appliances and supplies, but there is not one article on display at our store or in our immense stock in our store-rooms that does not bear the trade-mark of an American concern. That is one of the reasons our "satisfaction or money back" guarantee goes with every article that leaves our store. We believe in handling nothing but goods made in America, for our ambition is to serve the public and serve it right.

We carry an extensive line of electric flatirons that are up to the standard, having passed the test of expert engineers, and we guarantee every iron for quality, service and durability.

WE LEAD, OTHERS FOLLOW

We have carried out our part of the 100 house-wiring contracts taken in during our last campaign, and we are soon to start another campaign that will open the eyes of the public of Lowell. Watch for our advertisements on HOUSE WIRING.

Miss Hudnut Who Was Married to Valentino in Mexico Starts East

LOS ANGELES, Cal., May 18.—Winifred Hudnut, known professionally as Natacha Rambova, who was married last Saturday at Mexico to the actor, Valentino, is expected to start for New York today.

A number of persons accompanied her to the railroad station last night. In the group, according to Pomona picture firms, was Valentino, who bade her farewell.

Thomas McClelland, deputy district attorney, who has been investigating the marriage of Valentino to Miss Hudnut, is quoted as stating he will present to Thomas Lee Woolwine, trial attorney, a report that Valentino is fit to be prosecuted for bigamy "if he is in California or if he ever returns to this state."

Jean Acker, motion picture actress, from whom Valentino obtained an interlocutory decree of divorce last January, and who, according to judges of the superior court, remains his legal wife until a final decree is entered, is scheduled to tell the district attorney what she knows of the matter today.

The report was current here today that the departure of Miss Hudnut for New York, a manufacturer of perfumes, followed an agreement with Valentino that they would live apart until his divorce had become final and then would be remarried.

CONFERENCE A "CLING"

Vanderlip Sends Review of Genoa Meeting—European Banks Insolvent

WASHINGTON, May 18.—Most central banks in Europe are today "in varying degrees of insolvency," Frank A. Vanderlip, New York banker, declared in a review of the Genoa conference sent to the convention of the chamber of commerce of the United States. The plan for a conference at London of such banks therefore promised little of immediate result, he added, and their proposed co-operation in the solution of Europe's financial difficulties would be "difficult to realize."

Describing the Genoa conference as

RESINOL

Soothing and Healing Promotes Skin Health

FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There is no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

PEACE IN HANDS OF RURAL COMMUNITIES

CLEVELAND, May 18.—Addressing the delegates of the American Branch of the World Alliance for International Friendship through the Churches on "World Agriculture and Country Life," Kenyon L. Butterfield, president of the Massachusetts College of Agriculture at Amherst, yesterday said permanent peace and the forging of the ties of friendship among nations rested largely in the hands of the people of rural communities and the tillers of the soil.

"Two-thirds of the world's population live in rural communities," he said, "yet, for the last 20 years, the farmer has been neglected or exploited and has had little or no representation in the great world movements. Today the American farmer is powerful and strongly organized and there is a sense of world solidarity creeping in among the farmers for the first time in the world's history."

THIEVES RIFLED METHUEN GARAGE

The local police have been notified by the Methuen police to be on the lookout for thieves who last night broke into and ransacked a garage in that town. Included in the loot is a batch of auto tires and inner tubes.

a "clique" which was circumscribed in the type of "dissension" which it might discuss, Mr. Vanderlip recommended that the United States enter the proposed London financial meeting, but only with an understanding that "our Federal Reserve system be kept free from alien commitments."

"Owing to the prohibition of discussing more important subjects," he said, "the immediate economic significance of Russia has been absurdly emphasized. Under the most favorable agreement conceivable with Russia, that country would not be able to make any important contribution to Europe for several years. An agreement with Russia which obtained will for a long time only furnish an opportunity to send goods on credit. Little or no Russian production can be returned in exchange for several years."

PLAGUE OF LOCUSTS HITS SOUTH RUSSIA

MOSCOW, May 18.—(By the Associated Press.)—A plague of locusts, promising greater destruction than that of last year, has developed in the Caucasus, Baku, Kuban and the Crimea. It is a serious blow to South Russia's hopes for successful crops and the peasants have mobilized to fight the pest with kerosene. Airplanes have been used to drop poisonous bombs in the breeding areas.

Part of the equipment of the Cincinnati fire department is an immense coffee pot on an automobile from which hot coffee is constantly served to the firemen.

King Louis XIII of France adopted a title containing 12 letters, and always chose the 13th of the month for taking any important step.

Vermont Auditor Reports Shortage

BURLINGTON, Vt., May 18.—A shortage in the appropriations for the department of administration and justice of the state of Vermont was made today by State Auditor Benjamin Gates, who, in a statement declared that no salaries for the months of May and June of this year could be paid until July 1, when the appropriation for the next fiscal year would become available. About \$35,000 of next year's money will be necessary to make up the deficit. The cause of the shortage is ascribed to the large increase in state expenses.

DENIAL BY MINISTER
MUTILATION OF CARDS
ON MAIL BOXES

Not Unfrosted, But Removed
Because of Campaign
Against Vice, He Says

DENVER, Colo., May 18.—The Rev. C. Richmond, former minister of St. Paul's Episcopal church in Evanson, Wyo., today denied the published statement that he had been unfrosted by Bishop Thomas of the Episcopal church in Wyoming.

In speaking of the happenings before he left Evanson, Wyo., Mr. Richmond said that he had been so active in reform work and in fighting the liquor and gambling interests that he had been assaulted and mobbed and that he had been requested to give up his parish by these interests, and to leave Evanson. He also said that because of his work and bitter utterances against the violations of the law, Bishop Thomas finally had requested him to give up his church at Evanson.

There is a great difference between being unfrosted and vacating a pastorate, he declared.

Mr. Richmond was removed from the pastorate because of the strength of the fight that I put into my campaign against vice. I know of no place where it has been considered a sin for a minister to fight the vices of drinking and gambling.

Mr. Richmond said he had come to Denver with the intention of making his home here.

NATURALIZATION CLASS

There was a large attendance at the naturalization class conducted in St. Joseph's college hall in Merrimack street evening under the auspices of the naturalization committee of this city. David A. Parthenais, president of the committee, was in charge of the class and after the regular instructions he informed his "pupils" that classes will be conducted once a week until after the examinations, which will determine whether or not the aspirants are fit to become full-fledged citizens of this country and this may be several weeks. The committee is doing excellent work in the naturalization movement and resident Parthenais stated that very few of those who attend the classes are refused citizenship by the court, or as a rule a candidate is not permitted to file his papers with the court unless he is well posted and ready to answer any and all questions when put through the final test. The committee is composed of representatives of the N.A.C., Centralville Social club, Paw-Jacketville Social club and Citizens-Americans club.

A Douglas fir tree cut in British Columbia was found to be 429 years old.

Acting Postmaster Xavier A. Dellaia, in written communication to Supt. Winfred C. MacBryna, of the police department, has requested the co-operation of the local police in aiding the postal authorities in their drive against the reported mutilation and disturbance of time cards on mail boxes. It is evidently the work of children who do not realize the inconvenience resulting from their misdeeds, as well as the embarrassment accorded the postal officials from the repeated calls for replacement of the cards.

It might be well for parents to caution their children against such unwarranted destruction, as the offense is punishable by a severe federal penalty.

WHOLESALE PRICES

WASHINGTON, May 18.—The average level of wholesale commodity prices in April showed distinctly no change from March, according to a report today by the bureau of labor statistics of the department of labor.

Farm products, foodstuffs and clothing showed a decrease of less than one per cent. from March, as did building materials, house furnishing goods and commodities listed under miscellaneous. These were offset in the general index, however, by an increase of slightly more than 2 per cent. in the wholesale prices of fuel and lighting materials and metal and metal products.

SALVATION ARMY DRIVE

The executive committee and prospective solicitors of the coming Salvation Army drive will meet Friday evening in the rooms of the chamber of commerce, where final plans and details for the drive will be discussed.

BETTER CAR SERVICE

Commutors on the North Billerica division of the street railway will be pleased to learn of the additional cars that have been placed on this line. Extra cars will precede those on the regular schedule at 4.37, 5.07 and 5.37.

Take 16 Bodies From Ruins

Continued
midnight in the laundry. At first it seemed insignificant, but it spread rapidly to the neighboring wards, each containing 30 chronic sufferers or infirm patients, who were seized with panic.

Nurses and doctors quickly cleared the bed-ridden from one ward and in the next ward, three of the patients crawled out. Neighboring firemen rushed to the scene, but at their arrival the electricity were extinguished, adding to the horror.

As the immense wooden beams of the hospital fell, there was a heavy grinding noise and the pavement collapsed, burying 20 of the chronic patients and making access to the wards impossible.

Carbineers, royal guards, nurses and doctors made heroic efforts to save the unfortunates, rushing through the smoke and fire and bringing out 12, all of whom, however, were dead from suffocation. Several of the rescue parties were injured. The two wards were destroyed but the firemen succeeded in saving the rest of the buildings.

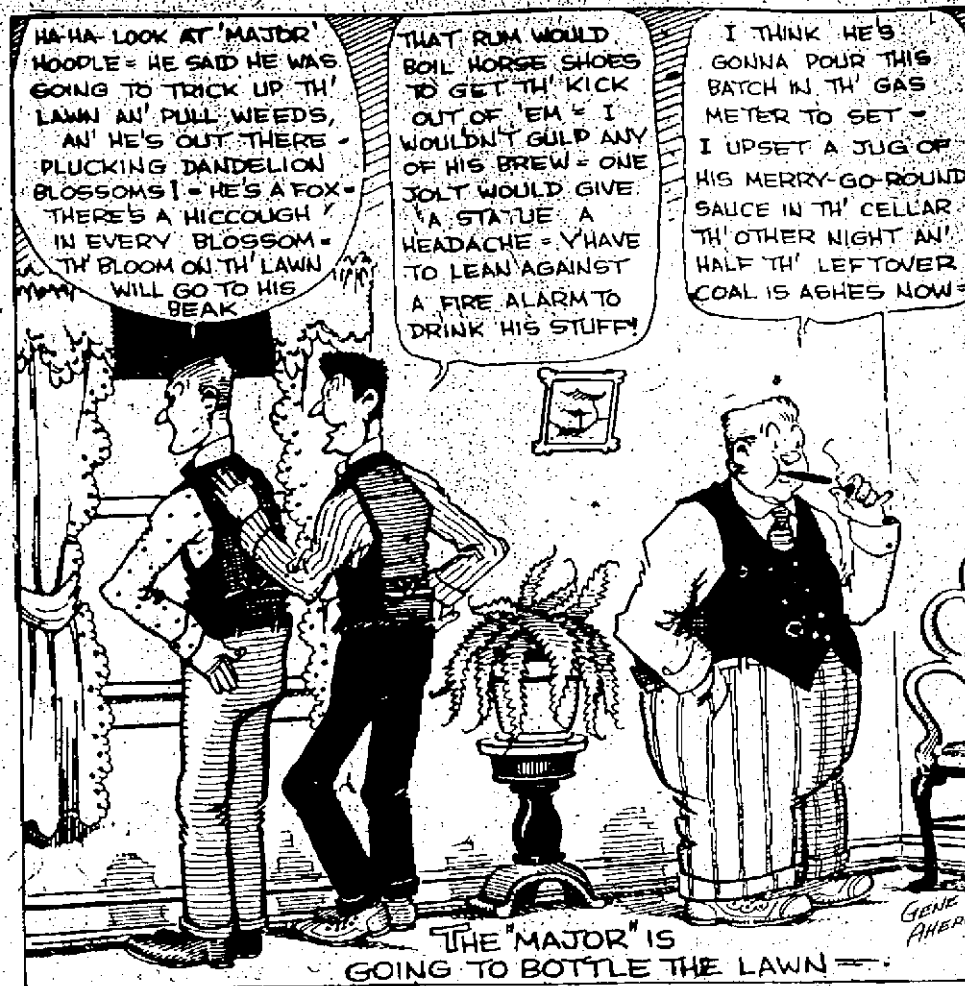

The mayor and the prefect hurried to the scene and assisted in calming the terror-stricken patients who were saved, and who lay on the floors waiting to be moved to the surrounding institutions.

Sixteen bodies already have been recovered. Four other patients were badly burned, and one dangerously injured.

The hospital of Santo Spirito is situated on the bank of the River Tiber, not far from the Vatican grounds. It was founded by Pope Innocent III. in the 13th century, enlarged by Innocent IV. in the next, and rebuilt under Sixtus IV. in the 15th century.

The altar in the hospital chapel was designed by Andrea Palladio, and is reputed to be the only work of this artist in Rome.

Fish make good "film performers" when properly trained.

THE MAJOR' IS GOING TO BOTTLE THE LAWN.

Horatio Bottomley on Trial in London

LONDON, May 18.—(By the Associated Press)—The Old Bailey was packed today when the trial of Horatio Bottomley, member of parliament and former publisher of John Bull, was begun on charges of fraudulently converting funds of the Victory Bond club, a war-time organization of which he was the founder and president. Mr. Bottomley who is his own attorney, pleaded not guilty. The jury included two women.

FOR A CONSTIPATED CHILD

A small dose of Dr. Caldwell's Syrup Pepsin will bring quick relief.

MOTHER, when one of the children is constipated are you going to give the first laxative within reach? It is dangerous to do so. Some have been known to rupture the intestines of little children. Don't be beguiled by the outside sugary appearance. Look into the formula. Calomel is seldom necessary; salts, minerals, coal tar, never!

Unlike these, Dr. Caldwell's Syrup Pepsin is admirable for children, as it is for grown people, too. Mothers have been giving it to children for 30 years. They know it does not gripe, and is free from narcotics. The formula is on every package, and you can see it is vegetable, just a combination of Egyptian Senna and other laxative herbs with pepsin. Use it yourself and you

will find it is not necessary to take it every day, nor to increase the dose, and that it is pleasant to the taste. Bottles can be had at all drug stores, and the cost is only about a cent a dose. Have no hesitancy giving it to a baby in arms. It is absolutely safe.

Half-Ounce Bottle Free

Free escape constipation, so even if you do not require a laxative at this moment let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 314 Washington St., Monticello, N.Y. Write me today.

100 PER CENT WATERPROOF

"Neponset" is not merely waterproof on top and bottom, but is guaranteed 100% waterproof all the way through. Water cannot fade the handsome "Neponset" colors—it will not dim the artistic "Neponset" patterns—neither will water soak in and injure it in any way. Once you put this famous floor covering down, it's bound to please and last for years.

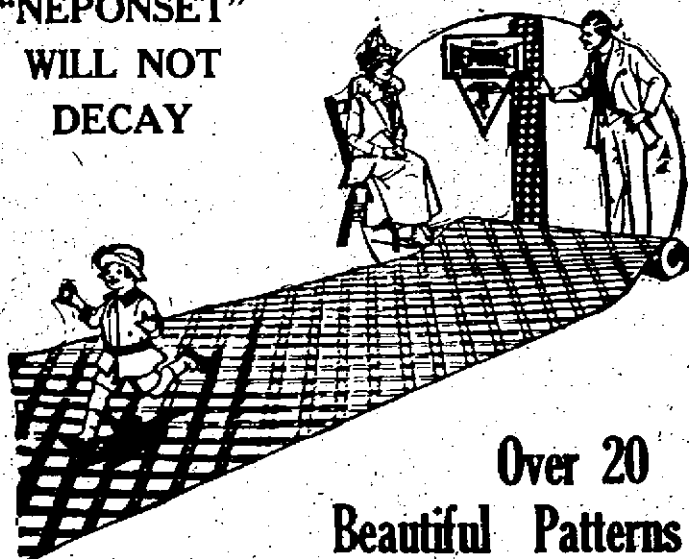

OVER TWENTY BEAUTIFUL PATTERNS

The newest and most desirable produced are in this immense quantity of 3000 yards we have purchased for this great sale. Many of them just off the press. There are Wood, Tile, Matting, Block, and Allover Designs, in strikingly clear color combinations. In fact a design and color suitable for every room in the house. Patterns that you will be proud to have on your floors.

"NEPONSET" WILL NOT DECAY

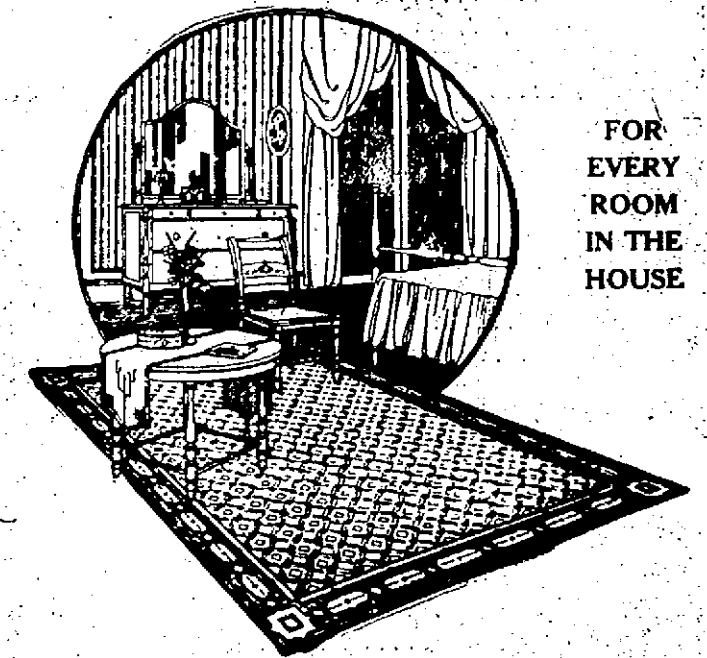

Because it is 100% waterproof there need be no fear of it rotting or decaying, as most moderate priced floor coverings do. This we positively guarantee. It is thick, durable and absolutely sanitary, easily kept clean, and can be mopped as often as desired without the slightest injury. In all respects it is the one great modern floor covering for your home.

STEADY INCREASE IN PINCHOT LEAD

Wife Says it Was the Women Who Brought About "Victory"

Declares Women Vote Entirely on Principle—Spare Nothing to Land Right Man

PHILADELPHIA, May 15.—A steady increase in his lead of Attorney General George E. Aker for the republican nomination for governor of Pennsylvania was maintained today by Clifford Pinchot, former state forester, who was prominent in the progressive party movements led by Theodore Roosevelt in 1912 and 1914. Pinchot jumped into the lead early last night. With 426 districts missing, Pinchot early today had a lead of 7639, the unofficial vote in the 7508 districts reporting giving him a total of 435,142 against 437,803 for Aker.

After, according to the unofficial returns, carried only seven of the 67 counties in the state, in addition to Philadelphia and Allegheny, the latter his home county.

Supporters of the attorney general have conceded Pinchot's nomination and estimates of his margin of victory run from 10,000 to 20,000.

Pinchot women's committees were organized in nearly all the larger cities and many of them toured the state in his behalf. Mrs. Pinchot, in a statement today, said it was the women who had brought about the "victory."

"One thing has been very noticeable," she said. "The women work entirely on principle. If they think a certain candidate the right one and a man who stands for the proper ideals, they will spare nothing to make him successful. The men cling to party and ties of friendship, but the women have proved by their

whole-hearted support that they believe in clean and honest government."

United States Senator George Wharton Pepper had a walkover in the only other contest in the republican party, defeating Congressman-at-large William J. Burke for the nomination for the unexpired term of the late Senator Penrose by a big majority. Returns from 6235 districts, out of 7974, gave Pepper a majority of more than 211,000.

Four of the 30 republican members of the Pennsylvania congressional delegation apparently were defeated. Several women were nominated for the state legislature, to be voted for next November, both by republicans and democrats. Two women were nominated by the democrats for representatives in congress.

Latest Returns

PHILADELPHIA, May 15.—Returns from 7648 districts out of 7934 election districts in Pennsylvania in Tuesday's primary so far tabulated show a majority of 5027 for Clifford Pinchot, for the republican gubernatorial nomination over Attorney-General George E. Aker.

With 391 districts missing, Pinchot's total was 436,980, and Aker's 438,355.

Opposition to Order Continued

that he does not hold that street lighting is either extraordinary or unforeseen and therefore, money for such an extension cannot be taken from the overlay surplus account. He adds that lighting extensions should have been in the minds of the councilors when the budget was passed. The opinion does not comment or touch upon the \$21,400 order, other than to approve of it.

The opinion states further that if a supplementary budget is voted by the council, the expenditure of \$1500 for lighting extension may be provided for therein.

President Patrick J. Hagley of the council said today that he will vigorously oppose the \$21,400 order at tonight's meeting on the grounds that it is not sound finance.

The question is bound to arise at the meeting and it will be asked by Councilor Frederick Saxton of ward 4, why a street lighting extension is not an "extraordinary and unforeseen" as the salary of a labor bureau registrar, or

money for the maintenance of the auditorium.

The council tonight will have before it for acceptance an order to accept and lay out Brookings street. An act has remained in the office of the city clerk for seven days it is now ready for final action.

Representatives of the school department and the high school building commission will be present at the meeting to discuss ways and means of making necessary repairs in the old high school building. No repair work has been done in the school for some time and considerable renovation is needed before the entire plant is open next fall.

STREET WORK DELAYED

Holdup in Asphalt and Asphaltic Concrete Upsets Street Work Plans

That the delay occurring in relation to the award of a contract for supplying the street department with sheet asphalt and asphaltic concrete has upset street work planned for this summer in no little degree, was the substance of a statement made today by City Engineer Stephen Kearney, when asked as to the probable time asphalt paving might be begun.

Further discussion of the contract will occur at a meeting of the board of public service set for late this afternoon, but whether or not final action is taken and the contract awarded either to the Plant Engineering company or the Birmingham Construction company, at least five or six additional weeks will elapse before a mixing plant is installed and the contracting company is ready to begin the work of actually laying asphalt.

The city engineer had hoped to be able to get an early start this summer on three or four much needed asphalt jobs, such as Westford street, but inasmuch as nothing definite in regard to the contract has transpired, he has been forced to mark time and the result may be that the program originally planned will have to be curtailed.

The ideal condition in asphaltic jobs

is to do the excavating work and the foundation at least a month before the asphalt is laid, for once a mixing plant gets under way the surface is laid very rapidly and, therefore, it is necessary that considerable of a head start should be given the men who do the excavating and build the foundation.

Conference Ends Tomorrow

Press.—Sir Edward Giff announced on behalf of the British delegation this afternoon that further advances had been received from the United States government that it did not seem likely the United States would participate in the Hague meeting at least until the hope of the meeting was better understood.

Asked to explain the British delegates' statement, Richard Washburn Child, the American ambassador, told the correspondent he had conferred with Foreign Minister Seymour of war, Prime Minister Lloyd George being present and had amplified the American position concerning the Hague meeting already explained in the note of Secretary of State Hughes. The object, said the ambassador, was more fully to explain the attitude of the United States in order to make it clear beyond the possibility of a doubt.

May Again Invite United States

GENOA, May 18 (by the Associated Press).—Final ratification of the plans for a meeting of experts at the Hague to consider Russian questions was expected today at a meeting of the full political committee, which includes delegates of all the countries represented here. A plenary session of the conference will be held tomorrow after which adjournment probably will be taken.

The process verbal providing for dual commissions at the Hague after approval today will be sent to the United States government, probably with a letter again extending an invitation for American participation. Amendments would make the preliminary pact of non-aggression apply to the eight republics allied with Russia, thus extending the scope of the treaty to Asia in that it would include the far eastern republics.

Those who predicted big immediate achievement here in the way of re-

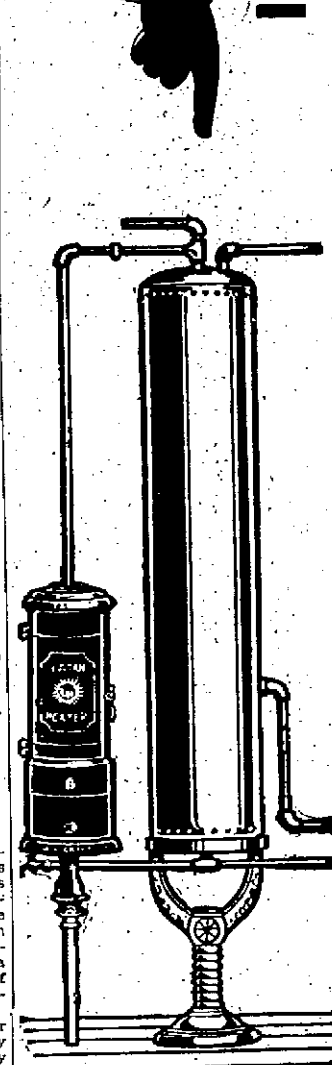

SEARCH FOR SLAYER OF AGED MANCHESTER MAN

MANCHESTER, N. H., May 18.—Abraham Ramadan, 78, died early this morning from the effects of two shots fired in his back by Housha Hardin, proprietor of a Turkish coffee house in this city, while the aged man was sipping coffee in his establishment. Police are still conducting a search for Hardin, who walked out of the back door of the building immediately after the shooting.

No motive has been established for the shooting. According to the story Ramadan told his friends as he lay on his deathbed in a local hospital, he had always considered Hardin his friend. There had been no quarrel over money between them, he said. A police dragnet has been spread over all New Hampshire and into Lawrence and Haverhill, Mass. in order to prevent Hardin's escape.

"You Can Do It Better With Gas"

Lowell Gas Users Know a Real Bargain

Ten days ago, we announced a sale of Vulcan Water Heaters at a greatly reduced price. The response was immediate. Our appliance store has indeed been a busy place every day.

We are offering just 500 Heaters at the reduced price and they are going rapidly.

**VULCAN WATER HEATER SET
UP IN YOUR HOME FOR..... 75c**

(Balance in small monthly payments)

We furnish and install the Heater in your home, complete, ready for use—including gas piping, water piping, flue connection—and you enjoy its many conveniences while paying for it.

Delays are dangerous. Do not wait too long if you want real convenience in your home.

Act Now and Procure One of These Vulcans at a Price That Will Not Be Duplicated for Some Time to Come.

FULLER FOR GOVERNOR IF ALLEN RUNS

BOSTON, May 18.—When Attorney-General J. Weston Allen makes formal announcement of his candidacy for the republican nomination for governor against Gov. Cox, probably within the next few weeks, Lieut.-Gov. Alvan T. Fuller is expected to declare himself a candidate for the same office.

The unwillingness of Fuller to wait around in the office of lieutenant-governor for four more years, until Allen would have completed his second term, it is stated, is responsible for the decision which friends of Fuller say he has reached.

The only possibility of averting the Fuller candidacy, when Allen files his hat formally into the ring, is that the attorney-general shall make a solemn public announcement that he will be a candidate for only one term.

Those who are supposed to be close to Atty. Gen. Allen are confident that he will make this announcement soon and that he will not consent to any limitations upon his style of campaign or the number of terms he will seek. In fact, Allen and Fuller, in their political campaigns have received the nucleus of their strength from what political leaders are accustomed to call the "church vote," the entry of both men would complicate the already much-muddled situation to such an extent that no one would attempt to figure the result in advance.

Fuller's position to date has been that he will seek re-nomination and re-election as lieutenant-governor. He

has taken the ground that Gov. Cox is entitled to a second term and is ready to wait until two more years have elapsed before urging his own gubernatorial ambitions.

But the office of lieutenant-governor is not attractive to Fuller. He is not inclined to sit in the little office in the rear of the executive suite, a few hours each week, for four years, while Atty. Gen. Allen or anybody else runs away with the highest political honors in the state.

Having taken the position that he will support Gov. Cox for re-election, Fuller is likely to be consistent and express his willingness to wait the length of the whatever may happen in the republican primaries next September. Therefore, if Allen wants to try to be governor and is willing, before making the try, to declare in public his intention not to seek a re-nomination and re-election in 1924, Fuller will probably continue as a candidate for lieutenant-governor.

RECEPTION AND BALL BY MISS PERRIN

The annual reception and ball, given by Miss L. B. Perrin to her pupils last evening in Associate hall was one of the prettiest and most enjoyable parties of the season. Throughout the costumes were beautiful in design and colorings and the fancy dances were exceptionally well executed under Miss Perrin's direction.

A grand march was led by Raymond McKee and Miss Harriet Flannery; Raymond Ricard and Miss Estelle Miller and Leslie Rawling and Miss Florence Chippendale. A long fancy dance program was followed by general dancing that continued until midnight. The matrons were Mrs. E. W. Chippendale, Mrs. H. T. Hadley, Mrs. M. H. Swift, Mrs. J. W. McKee, Mrs. F. Rawling, Mrs. E. J. Tierney, Mrs. S. C. Brissett and Mrs. W. S. Bean. The ushers were Raymond McKee, Paul Sullivan, Thomas McGlone, Ernest McCardle, Raymond Ricard, Walter Muzzey, Earl Brissett and Milton Hadley. Master Eugene Saunders and Master Robert Muzzey were flower pages.

KING AND QUEEN AT DAUGHTER'S BEDSIDE

ATHENS, May 18.—King Ferdinand and Queen Marie of Rumania have arrived at the bedside of their daughter, Princess Elizabeth, wife of Crown Prince George, who is seriously ill. The princess is reported as slightly improved.

SPECIAL TOWN MEETING

A special town meeting for the voters of Chelmsford will be held this evening in the Centre town hall. The warrant contains 19 articles and the amount asked for in the various articles is about \$15,000. Some of the articles are as follows: \$2400 for the Vocational school; \$5000 for the Cotton road work; the purchase of a truck for the highway department; \$1200 for gravel for raising the grade of car tracks at West Chelmsford; to take action on the erection of a granite monument on the common at North Chelmsford in memory of the men who gave their lives in the world war. Trucks will bring the voters to the Centre, leaving West Chelmsford and Woods Corner at 7.15, then via North Chelmsford to the Centre. A truck will also leave East and South Chelmsford at 7.45.

A PRETTY COMPLEXION

If the complexion is clear, soft and smooth, free from all skin discolorations such as freckles, tan and brown blotches, you possess the most valuable asset of beauty. You should, therefore, strive to retain this charm by giving the skin daily attention and care.

Beauty Bleach has been used successfully by those who wish to keep the skin in perfect condition. This cold cream skin beautifier will not injure the most delicate skin texture nor will it grow hard. At all toilet counters 50c the jar.

Clip and mail this to Plough, Memphis, Tenn., for complimentary Beauty and Dream Readings.

SUMMER CAMP FOR SUBNORMAL CHILDREN

Dr. Francis A. Finnegan, director of hygiene in the public schools, met with the Lowell Tuberculosis council this afternoon at chamber of commerce headquarters, at 4 o'clock, relative to the project of establishing a summer camp for physically subnormal children. The meeting was merely for the purpose of discussing the matter with no view of taking definite action.

It is felt by Dr. Finnegan and members of the tuberculosis council that such a camp would be very desirable and would do the young unfortunate a world of good, probably restoring them to perfect health. The proposition must be thoroughly investigated however, before definite action can be taken.

Death Valley, Cal., now produces 20,000,000 pounds of talcum powder a year.

Weiss' Anniversary SHOE SALE

The Bargain Event of the Season

This will be a sale that will be remembered. Do not confound this with the ordinary run of so-called "sales"—where you are very often offered "seconds," "rejects" or inferior goods—at apparently low prices. We shall offer you, during this sale, our REGULAR STOCKS, which means, in every case, value, style, quality, guarantee, etc. Our price will, in every instance, make you wonder how we do it. Prices will be lower than in 1914.

Sale Starts Friday, May 19th 9 o'clock

Come to this sale. Get high grade, first quality shoes for the price of cheap ones. We want this to be a gala week and it will be for the shoe buying public of this and surrounding towns. Do not put off coming—do not wait—but get here opening morning. Just Follow the Crowd.

Long Distance Love Upsets V. V.'s Honeymoon with Heiress

MRS. LIOROFF MOUROMSKY, VONSIATSKY, WHO CLAIMS TO BE THE LEGAL WIFE OF ANASTASE VONSIATSKY-VONSIATSKOY (BELOW), WHO RECENTLY MARRIED THE FORMER MRS. MARION BEAM STEPHENS, CHICAGO HEIRESS (LOWER LEFT).

By N.E.A. Service
PHILADELPHIA, May 15.—Long distance love has stirred up a lot of trouble for "V. V."

A wife in Philadelphia and another in Paris—she says she's his wife—are just one too many to suit the Russian Orthodox church.

Burning love letters and a marriage license written in Russian have been turned over to the authorities to prove that Anastase Vonsiatzky-Vonsiatzky's legal wife isn't Mrs. Marion Beam Stephens, V. V.'s Chicago heiress to \$40,000,000 whom he married in New York a few months ago.

The claimant is Mrs. Lioroff Mouromsky Vonsiatzky, now in Paris. She married V. V. when he was an anti-Bolshevik officer in Yalta, Crimea, in 1920, according to the documents she turned over to the American embassy in Paris.

"We have received a certified copy of the marriage license issued at Yalta," said Father Lisenkovsky, secretary of the consistory of the Russian Orthodox church, New York.

It is intimated that V. V.'s marriage to Mrs. Stephens will be declared void by the church without waiting for a cablegram from Father Vladimirsky, the priest who is said to have married V. V. to the Russian girl.

The latter produced in Paris some passionate love letters beginning "My dearly beloved wife," "My adored child" and "My little Lioroff." She claims V. V. wrote these letters to her from here last year.

V. V.'s wedding to Mrs. Stephens created a stir in society last winter. The Chicago widow is some years his senior and in spite of her great wealth went to live with him in a cottage at Ridley Park, driving him to and from his work in the Baldwin Locomotive Works.

Conference Ends Tomorrow

Continued

storing Russia and Europe, point, in addition to the Hague conference, to the forthcoming meetings of international bankers and banks of issue at Paris and London and the preliminary non-aggression pact as notable victories.

Moreover, they maintain that great moral good has been accomplished for Europe by the assembly and intercommunion here of representatives of 32 nations, the greatest reunion in its way in the history of Europe.

The real nature of Europe's problems has been determined and the first

contact has occurred between the upholders of the communistic doctrine of soviet Russia and the believers in the long-established economic system prevailing in the other countries.

A road has been cut, it is believed, for further useful conferences of the European peoples, perhaps in conjunction with the Americans, whereby the economic reconstruction of the world may be achieved and international disputes settled by congresses instead of by cannon.

WASHINGTON, May 15.—Any question of the recognition by the United States of the Russian soviet government lies beyond the time when restoration of productivity in Russia shall have been set in motion by that country itself, according to an authoritative and plainly spoken outline of the attitude of the American government obtained yesterday. Refusal to participate both in the Geneva conference and in the proposed commission for consideration of Russian affairs at The Hague, it was added, was based on the conviction that such a restoration could not be hoped for under the terms outlined in the Russian memorandum of May 11 at Geneva.

In the meantime, it was explained, the United States is ready to embark with other powers on any purely scientific investigation of conditions in Russia, with a view to recommendations as to steps necessary before the commercial, financial and industrial revival of that country; but it will have no part in any such deliberations which even imply a recognition of the soviet regime and would thus tend to

"perpetuate delusions" among the Russian people.

Agreement For Peace

GENOA, May 15 (by the Associated Press).—The agreement for a truce, or temporary pact, on non-aggression, decided upon by the political and sub-commission of the Geneva conference, subject to final ratification by the full conference, contains six clauses—summarized as follows:

Clause I—Provides for the appointment of a commission by the powers to examine again the divergences existing between the soviet government and other governments and with a view to meeting a Russian commission having the same mandate.

Clause II—Not later than June 30 the names of the powers represented on the non-Russian commission and the names of the members of this commission will be transmitted to the soviet government, and reciprocally the names of the members of the Russian commission will be communicated to the other governments.

Clause III—The questions to be treated by these commissions will comprise debts, private properties and credits.

Clause IV—The members of the two commissions must be at the Hague on June 25.

Clause V—The two commissions will strive to reach joint resolutions on the questions mentioned in Clause III.

Clause VI—To permit the commissions to work peacefully, and also to re-establish mutual confidence, the soviet government and its allied republics, on the one side, and the other governments, on the other, pledge themselves to abstain from any act of aggression and subversive propaganda. The pledge for abstaining from any act of aggression will be based upon the present status quo, and will remain in force for a period of four months after the conclusion of the work of the commissions.

The pledge concerning propaganda will oblige the governments not to interfere in any way in the internal affairs of other states, and not to assist financially or by any other means political organizations in other countries and will oblige them to suppress in their territory any attempt to commit acts of violence in other states or aiming to disturb the territorial or political status quo.

GOVERNMENT WILL BUILD NO MORE SHIPS

WASHINGTON, May 15.—The government will build no more ships, Chairman Lasker of the Shipping board declared in an address today before the convention of the chamber of commerce of the United States. President Harding has placed before congress a program of legislation that undertakes to overcome the difficulties now facing private operation of ships, he added, and unless that legislation is enacted the art of shipbuilding in America will wither and die.

Mr. Lasker said that the proposed ship subsidy legislation, admittedly consisted of "artificial means to meet the situation" but it is only through the temporary use of artificial means that the situation can be permanently saved, and this administration declares its belief that the adoption of the program it proposes will save the situation and make America potent in its own rights on the seas. "America must have a merchant marine comparable with that of Great Britain, he said, if it is to have a naval power potentially equal to that of Great Britain."

"If all the naval ships in the world were scrapped," he declared, "Great Britain through her preponderant merchant marine, would be more supreme on the seas than she could ever hope to be otherwise. Certain types of merchant ships are as essential to the operation of a navy in times of war as the capital ships of the navy itself. In these types America is admittedly deficient compared with Great Britain at a ratio of almost 5 to 1 in favor of the latter. And there can be no thought or hope of the United States keeping a naval parity with Great Britain unless we create merchant marine power to equalize this difference."

Mr. Lasker said his experience as chairman of the Shipping board had convinced him that government ownership or operation of ships "is a poison ivy in the garden of industry."

KILLS HIMSELF AFTER CHATS WITH REX BEACH FIRING AT TRIO

ASHLAND, N. H., May 18.—After having fired shots at his wife, his brother-in-law and his brother-in-law, George Miller, a farmer, who resided two miles from the village of Wentworth, near here, he fired on a stump with the muzzle at his heart and pulled the trigger. His body was found today by neighbors.

While suffering temporarily from insanity, it was said, Mr. Tuesday attempted to shoot his wife. His mother-in-law, Mrs. Edward Ramadell, struck down the muzzle of the rifle and the bullet went wide. The angered man then fired at his mother-in-law, wounding her slightly in the hand. Kenneth Ramadell, Mrs. Miller's brother, fled from the house and Ella fired at him, but missed.

Ellis then ran to the woods at the back of his farm and shot himself to death. He is survived by his widow and four children.

Miss Kate Wagon, age 33, of Bartlesville, Okla., has the distinction of being the only full-blooded American Indian girl assistant secretary of a chamber of commerce.

HOW TO GAIN STRENGTH

"I was always tired and nervous," says Mrs. Fred Lane, of No. 17 Ann street, Orange-Crush, N. H., "and suffered from severe headaches and dizzy spells. I had no appetite and my digestion was so weak that what little I did eat caused me distress. I was very thin and pale and my hands were always cold. At times I would have spells when I seemed to be numb all over. I had no ambition and all my friends remarked how drawn and pale I looked."

"One day I read about Dr. Williams' Pink Pills and within two weeks after I began taking them I could see a decided improvement in my condition. I have gained greatly in weight and strength, my color is good and I have a good appetite and digestion. I am not nervous and the headaches are all gone. I know that Dr. Williams' Pink Pills did me lots of good and I am glad to recommend them."

Your own druggist sells Dr. Williams' Pink Pills. Price 50 cents. Adv.

CHATS WITH REX BEACH ABOUT OUT-OF-DOORS

By MORRIS ACKERMAN
I never went on a fishing trip or a hunting trip in my life that was so possible, "thrill" didn't present itself.

In fact, I don't know a single angler or hunter who hasn't experienced his greatest thrill.

These thrills are either actual or fancied, sometimes humorous, at other times tragic.

Ex-Beach got his "thrill" while on "location" for his motion picture, "The Iron Trail."

"It was on the Copper River in Alaska," says Beach. "For five days I rode a horse and myself lined a small boat, up the river, with a small party of three miles we had to pass in the face of the glaciers."

"Twice on the trip chunks as big as the Flatiron building dropped off in a single column below us—glory be they did not drop from above us."

"It was just like going up a street of skyscrapers where at any second one of them might fall on you. When one of these chunks fell loose you could hear it for miles. Following the crash, pieces of ice were hurled clear over, on the opposite shore and the subsequent waves would have sunk a battleship."

"On the way back we passed those three miles of glaciers in 10 minutes. The trip that had taken us five days of hard labor to make up the river we covered in five hours going down."

"The 10 minutes we spent in hurrying down this wild stream past those active masses of ice, I unhesitatingly claim my greatest thrill."

Rex Beach is a very modest man. Like most of us, he is about as rugged a two-fisted, rough-and-tumble he-man as one would care to meet. He has had more than the average number of "abnormal tremors" in the respiratory or circulatory systems, but if you are looking for an out-and-out "tremor," he recommends this one:

A shoe factory, employing American shoe-making machinery has recently been established in Oporto, Portugal, and ships on American lines are being made.

ENTERTAINMENT AT HIGHLAND CHURCH

The "One-Better" a group of young people of the Highland Congregational church presented the "one-act" comedy, "A Regiment of Two," in the church vestry last evening. The performance, under the direction of Mr. Donald Stewart, was a creditable given, each member of the cast performing in a manner most pleasing to the large audience. The cast:

Lena, a German maid, Pauline Angier, Arthur Sewall, a theatrical warrior, Karl Marshall, Grace Sewall, his wife, Helen Sawyer, Ira Wilton, his father-in-law, David Lamberton, Cornelius Murphy, a plumber.

Harry Brethworth, Arthur, a friend of the war, Henry Ryder, Laura Wilton, daughter of Ira, Marion Howard, Eliza Wilton, Ira's sister, half-sister, Reginald Dudley, an English fortune hunter, James Moore, Jim Bucknow, known as the "warrior," Elliott MacLean.

Before the play and between the acts Mr. Karl Marshall and Mr. William Elzel entertained with selections on the piano and violin, respectively, the latter being accompanied by Miss Clara Kenton.

URGES STRIKE OF AUTOISTS

DANIELSON, Conn., May 18.—John D. Bassett of this city has an idea that should appeal to thousands of automobilists, whether they have the courage to adopt it or no. The idea is a state-wide, nation-wide if possible, strike of motorists against the steadily advancing retail prices of gasoline.

"It is all very simple. Put your car in the garage and leave it there for a month. If that does not bring results, leave it there for another month. If the upward of \$4,000,000 pleasure car owners in the United States would do this for 30 to 90 days, Bassett believes that a real dent would be made in the present retail price of gasoline, of which there is a record amount in reserve—upward of 854,000,000 gallons."

TEXTILE ABANDONS UPSTREAM DAY

"Upstream day," heretofore an annual event on the student calendar at the Lowell Textile school, has been abandoned this year by a vote of the student body taken this week. The observance, carried out for many years, was scheduled to be held today.

WHIST PARTY AND DANCE AT GIRLS' CITY CLUB

The Ladies of Charity of St. John's hospital, an organization which has conducted many beautiful and elaborate events for the institution's benefit for a number of years, held a very successful and enjoyable whist party and dance at the quarters of the Girls' City club last evening, with about 400 in attendance.

About 100 tables of whist started play shortly after 8 o'clock, with Patrick Kane assisting the whist committee and Dr. Joseph Janzen was floor director of the dance which concluded the evening's entertainment.

The prize winners in the whist competition were as follows:

Women's first prize, a silk umbrella donated by the A. G. Pollard store, Miss Rose Gosselin; second, needlework donated by Alice Faneuf, won by Mrs. J. A. Foley; third, a vase donated by the Bon Marche, won by Miss Maria Atcham; fourth, cut glass, donated by Miss Harriett Hamblett, won by Miss Doris Handley; fifth, cuffs and collar set, donated by Miss Wilfred Haggerty, won by Mrs. J. J. Campbell; sixth, a picture donated by Miss Mary Sharkey, won by Mrs. J. J. Walsh, and seventh, Mrs. Hugh McOsker, Men's first, a smoking set donated by the Gagnon Co., Paul Foley; second, a box of cigars donated by the United Cigar Stores, Jeremiah Connors, and third, a box of cigars donated by Sister Mary Claire, won by V. McCarthy.

A drawing for three prizes followed the whist tournament, with the following result: First, a pocketbook donated by the Devine store, won by Miss M. Hanley, Girls' club; second prize, rosary beads donated by Arthur D. Prince, won by Miss M. Leonard, 191 Pleasant street; and third, a valuable pin donated by Henry P. Reaney, won by Miss Christine Lowery, 56 Sherman street.

General dancing followed the drawing. The committee on arrangements, to which all credit is due for the affair's success, follows: Chairman, Mrs. Gerald Cahill, Mrs. James H. Flood, Mrs. Richard S. Donoghue, Mrs. George Barrie, Mrs. Daniel Henry, Mrs. Hugh Mullin and Mrs. Martin Maher. The following also co-operated with the committee in making the affair a success: Lowell Aeris of Bagley, Lowell Knights of Columbus, League of Catholic Women, Mrs. Elina McQuendo, Frank Richard and James McKenna.

WANT PARKWAY ON RIVER BANK

The Centralville Improvement association, with Thomas P. Garvey presiding, met last night in the vestry of the Centralville M. E. church, and among other business transacted, a committee was appointed to present to the city council a petition for a parkway along the river bank on First street. The committee appointed consists of E. A. Wilson, W. A. Larkin and John P. Mahoney, who will immediately take up the proposition with the city council.

EASY TO WEAR IN RESTFUL HOURS

CORINNE GRIFFITH

For her restful hours Corinne Griffith, Vilagosa star, selects a Chinese suit of old blue, profusely decorated with Oriental embroidery in vivid colors. Chinese slippers, also embroidered, complete the costume.

Was Corinne ever more charming to behold?

The tune "Marching Through Georgia" is the national anthem of Cambodia, the French protectorate lying west of Indo-China.

CHELMSFORD NEWS

Mrs. Eben T. Adams entertained the ladies of the Chelmsford Centre Congregational society at her home on the North road yesterday afternoon. A brief business meeting was held during which the name of the organization was changed to "The Women's Association of the Central Congrega-

tional Church." A social hour was enjoyed during which entertainment numbers were given and luncheon was served. The hostess being assisted in receiving by Mrs. Ralph P. Adams, Mrs. Kirkby, Mrs. Walter Bullock and Mrs. William E. Adams.

GREENS DRUG STORE

Third Great Week-End Special

TODAY AND SATURDAY

To prove to you what they will do

For Women Who Are Too Thin
For Men Who Are Run-Down and Emaciated
For Everyone Who Desires to Gain Greater Strength, Energy and Endurance

A regular \$1.00 package of Genuine Yeast Vitamine Tablets Absolutely free with every package of Nuxated Iron Tablets

IMPORTANT NOTICE: Don't take Vitamines unless you want to increase your weight. Vitamine Tablets (one of the most remarkable scientific discoveries of recent years) are simply wonderful for women who are scrawny and angular in appearance and men who are thin and emaciated and everyone who wants something to help increase weight and put on flesh.

Where it is simply desired to gain greater strength, energy and endurance and increase the firmness of your flesh and tissues, we recommend that you take Nuxated Iron only. By helping to create millions of new red blood corpuscles, Nuxated iron greatly helps weak, nervous and run-down people often in two weeks' time.

Call at once for your free \$1.00 package of Genuine Yeast Vitamine Tablets together with bottle of Nuxated Iron.

Two for the Price of One

Here are the Prize Winners in the Orange-CRUSH Picture-naming Contest

BELOW are listed the names of those who sent in prize-winning titles for the Orange-Crush Picture, reproduced above. The prizes were awarded by a committee selected from well-known citizens of this community. The contest was a great success. Many splendid suggestions were received, and our only regret is that we could not give a prize to everybody who entered the Contest. It was a real task to carefully examine the great number of good titles submitted and then to decide which were entitled to prizes. To all who favored us with suggestions we express our hearty thanks and appreciation. We ask that you continue your interest in Orange-Crush, Lemon-Crush and Lime-Crush; and for our part we pledge that the quality, purity and deliciousness of these drinks will always be maintained. Following are the winners:

YOUNG WIFE INVOLVED IN SLAYING OF HUSBAND

This is Mrs. Bertie S. Cobb, 18-year-old widow of Beckham Cobb, student at A. and M. college, Stillwater, Okla., with her baby, Beckham, Jr. The husband, a former soldier, was shot and killed, police declare, by Earl E. Gordon, another government student at the same institution, whose picture is inset. Gordon is 26. According to the story told by Gordon's attorney, Cobb told Gordon he was going to shoot him unless he got out of town, and when Cobb later announced that he was going to carry out his threat, Gordon shot first. Mrs. Cobb says Gordon had insulted her on the street and she had told her husband. Cobb's parents live in Birmingham, Ala.

NO STRIKES OR FAMINE

Sec. Hoover at Work on Plan
to Stabilize Coal Industry
of Country

Would Involve Huge Storage
System in Summer for
Winter Consumption

BY HARRY B. HUNT
WASHINGTON, May 18.—Elimination of seasonal activity in the coal industry, by providing storage facilities for industries and districts of large consumption and for territory far removed from sources of production, may be urged as a result of studies now being made under the direction of Secretary of Commerce Hoover.

These investigations are in the hands of F. R. Wadleigh, mining engineer and fuel expert, whom Hoover has placed at the head of the department's coal division.

"Not until a safe and practical method of coal storage is established, will the economic factors involved be taken up," says Wadleigh.

"A questionnaire has been sent to some 200 of the largest users of coal, who burn probably 75 per cent of the

industrial coal consumed in this country. Their individual experiments in storing coal and the economy and efficiency of the methods followed, will furnish a starting point for our work."

Danger of Fire

"The problem involved in coal stor-

FRANCIS R. WADLEIGH

age is not so much the loss in fuel value, in storage as the danger of

spontaneous combustion in large masses of coal piled above ground.

"Certain types of coal," Wadleigh says, "like lignite, for example, slack very rapidly when exposed to the air. Others, as Pocahontas and the better grades of bituminous, lose very little in heating efficiency."

"Under-water storage as has been provided by the Duquesne Light Company of Pittsburgh; the Western Electric company, the Illinois Traction company, and a few other large users, is regarded as perhaps the best. The cost of this method, however, makes its general adoption difficult. The best method of storage available to the great majority of large users is the first question we have set ourselves to establish."

"The theory is that a system of storage would enable large stocks of coal to be placed in reserve during the customary season of slack demand, thus serving three purposes:

One. It would stabilize production.

Two. It would offer year-round employment to miners.

Three. It would enable railroads to transport long-haul coal under favorable conditions, freeing them to handle short-haul coal during winter.

Industries which might most advantageously build up coal stocks during periods of low domestic consumption include electric utilities, coal gas plants, by-product and steel plants, and railroads.

Freight Differential

All of these already have facilities for limited storage. With an economical and safe method established, they might be induced to multiply the amount of their storage stocks.

Secretary Hoover suggests that storage by large users, particularly the metallurgical industries, might be stimulated if a differential in freight

rates on coal were allowed during the months of normally low demand.

It is unlikely any recommendations will be made by Hoover in time to affect the volume of coal stored this year.

What Hoover is demanding of the men conducting the study is not a hasty report, but a report on the basis of which the government, coal operators, miners and users of coal may be able to pull together to solve conditions, such as have contributed to the present coal strike.

EXAMINATIONS FOR VARIOUS POSITIONS

The United States civil service commission announces a stenographer and typist examination for filling various positions in the local government offices of New England, such as in the

various custom houses, navy yards, internal revenue offices, etc. This examination will be held on June 24, 1922, and will probably be the last stenographer and typist examination held for a year. Persons who desire to obtain stenographic or typist positions in the local federal service should not fail to enter this examination.

Applications and full information concerning the examination may be obtained from the local secretary at any first or second class post office in New England or the secretary of the first civil service district, Boston 9, with whom application should be filed in time for him to arrange for the examination of the applicant.

At Chichen-Itza, in Yucatan, where there is a sacred sinking well, all sorts of beautiful sacrifices have been found embedded in the mud.

Do you drink "SALADA"

OR JUST TEA?

There's a distinct difference in favor of
"Salada"

This is No. 3 of a series of Rinso endorsements from the
leading washing machine manufacturers of this country

Why the makers of the well-known Laun-Dry-Ette recommend Rinso

THE LAUNDRYETTE MANUFACTURING CO.
190 EAST 122ND STREET
CLEVELAND

LAUN-DRY-ETTE

Lever Bros. Co.,
Cambridge, Mass.

Gentlemen:

Our washing experts have found Rinso so satisfactory that we are glad to recommend its use in the Laun-Dry-Ette.

A soap that does not dissolve completely often makes greasy deposits on the clothes. We found no little soapy particles floating around in the water in our tests with Rinso as we did with some of the other soaps.

Rinso dissolves to the last grain in boiling water, making a soap solution of even strength. This solution gives a quick, heavy suds that break down the dirt. This quality in a soap is appreciated by every washing machine manufacturer; for it prepares the way for the efficient operation of the machine.

Twelve minutes was the average operating period with Rinso and not a single article had to be hand-rubbed.

Our analysis of Rinso shows that it contains nothing harmful to the Laun-Dry-Ette. This indicated, of course, that it would not injure any of the pieces washed with it. Our practical washing tests proved this to our complete satisfaction.

Very truly yours,

THE LAUNDRYETTE
MANUFACTURING COMPANY

W. H. Harmer
President

However your washing is done

The same qualities that make Rinso an ideal soap in any washing machine make it the best soap you can use whatever way you do the family wash.

LONG before the first Laun-Dry-Ette was put on the market seven years ago the manufacturers of this famous machine started making soap tests.

They knew that their machine could be mechanically perfect—yet not give perfect satisfaction if the wrong kind of soaps were used.

Today after months of searching tests with many soaps they are recommending Rinso in the Laun-Dry-Ette.

Tests made by other great manufacturers

The same exhaustive tests have been made by the leading washing machine makers throughout the country. All are endorsing Rinso without qualification.

Rinso is made of pure cleansing materials so perfectly balanced that it is taking the place of bar soap at every step of the family wash.

When you put your clothes to soak Dissolve Rinso in boiling water—use enough to get big lasting suds. Then, let your clothes soak an hour or more—overnight if you like—(colored clothes only half an hour). Soaking in big, lasting lukewarm Rinso suds softens the dirt.

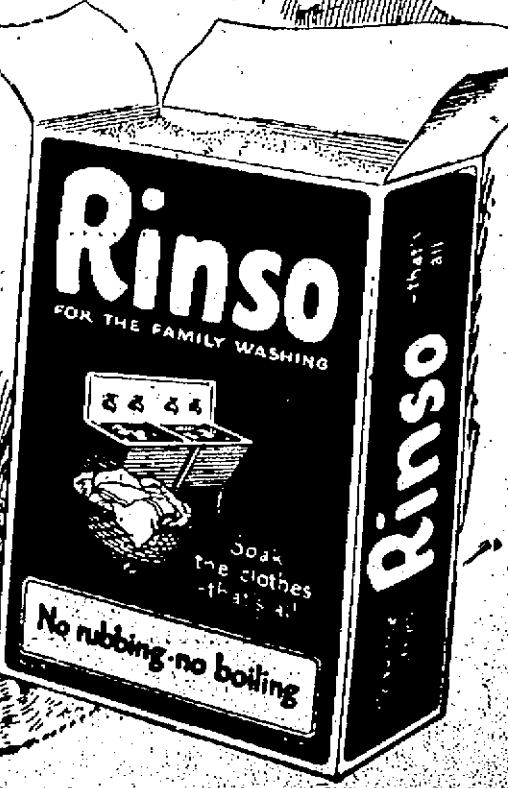

In any washing machine

Use enough Rinso solution to make a heavy suds. Operate your machine from 10 to 15 minutes. Rinso is the ideal soap for machine washing.

If you boil

Boiling isn't necessary, but if you like to boil your white cottons, pour enough Rinso solution in the boiler to give you the suds you like.

Rinso is made by the largest soap makers in the world. Sold everywhere. It comes in two sizes—the regular size and the big new package. Get Rinso today—at grocery and department stores. Lever Bros. Co., Cambridge, Mass.

ADVERTISING IN THE SKY POSSIBLE

By N.E.A. Service
NEW YORK, May 18.—Elmer A. Sperry, inventor, says he can plaster posters and placards all over the sky! And he'll do it, too, if he can find enough advertisers who want to boost their wares in that way.

The stunt can be accomplished, Sperry says, by the use of a powerful searchlight that will illuminate the sky with rays that can be seen 140 miles.

Sperry's held the secret for 30 years. "At the world's fair in 1888 I threw a picture of President Grover Cleveland on the sky," he says.

"One day, while I was away an enterprising advertising agent bribed one of my men to project the name of a popular soap in the same way. That was the start of sky advertising."

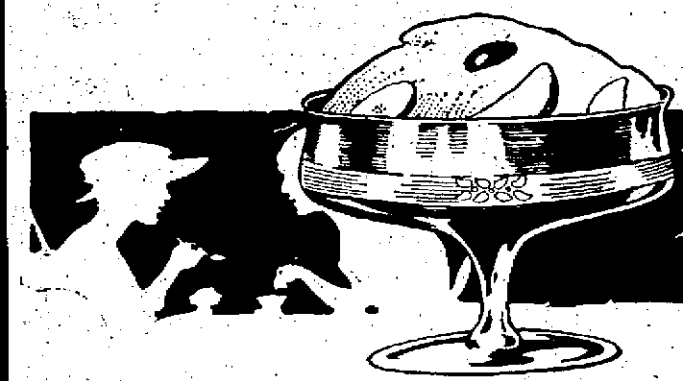

BICYCLIST IS SERIOUSLY INJURED

Alphonse Carrigan, a resident of this city, was painfully injured last evening at about 10 o'clock. While riding his bicycle on the Pawtucket boulevard, he was struck and knocked down by an automobile operated by Arthur Girouard of 479 Moody street. Girouard claims that he was blinded by the glare of a machine coming from the opposite direction and was unable to see the cyclist until it was too late to avoid the accident. Carrigan was taken to the Lowell General hospital, where it was stated his injuries are not considered serious.

Borden's Evaporated Milk

Buy the brand on which
you can rely. Every batch
that leaves the condens-
eries is given an extra,
final laboratory test to in-
sure purity and quality.

It's pure country milk
with the cream left in.

So Easy to Serve!

WISE housewives serve Jersey Ice Cream for dessert instead of pastries, during the hot weather. Served plain or in many delicious combinations with fruits, it is far more nourishing and appetizing. And so much easier to get!

Remember: this pure cream is a nourishing food in itself—and plan your meal accordingly. Sold in bulk or in the convenient "Tripl-Seal" bricks.

Radiographs

Radio Fans May Enjoy the Memorial Day Racing Classic

By N.E.A. Service
INDIANAPOLIS, May 18.—Radio fans who delight in sports!

Get ready to tune in. Memorial Day, on station WOH, broadcasting from Indianapolis on the 360-meter wave length.

If you do, you will enjoy the 10th annual 500-mile motor racing classic at the Indianapolis Speedway almost as well as the racing fans in the grandstand. You will hear all they hear—even the pop-pop of the motor exhausts as they speed around the track.

Arrangements Made

T. F. Myers, secretary and general manager of the Speedway, has made all arrangements for the radio service with the Hatfield Electric company of this city. The central location of station WOH makes it possible, if the day is clear, for radio enthusiasts the country over to hear its program.

Get your receiving set in tune with WOH early, for promptly at 9.30 the program will start. It will begin with a band concert by perhaps the largest aggregation of players heard by radio-phones.

It will consist of 40 bands massed into one organization of 1000 pieces. For a half hour before the race, this band will play before the grandstand and its music will be broadcast to all the radio fans listening in.

From 10 o'clock on, when the race begins WOH which broadcast the progress of the contestants at half-hour intervals, important incidents will be related.

Bombs by Radio

Bombs signaling progress in preparations to start the battle between 32 drivers for the \$100,000 prize money will also be heard by radio. The start of the race, even the cheering of the crowds as the cars get under way will be heard hundreds of miles from the track.

Throughout the day the bulletin radio service will continue until about 6 o'clock, when the finish of the event is expected. Following the race, a complete review of the classic and African natives work in pairs pulling passenger carts.

names of the ten prize winners will be broadcast.

WIRELESS NEW? ASK THE CHIEF

Chief Sherman Channing Hawk wouldn't give the present generation credit for inventing the wireless meth-

od of communication. For he can recall the time when his ancestors used a wireless system of signaling. Only they broadcast signals from beacon fires. However, the Indian chief likes to listen in on modern radio.

RADIO PRIMER

Counterpoise—One or more wires stretched beneath the aerial and insulated from the earth. It is used in radio transmission and reception when a good connection is not available. Aircraft use a counterpoise because of their inability to ground their radio sets.

African natives work in pairs pulling passenger carts.

How To Get Best Results From Your Radio Set

By R. L. DUNCAN,

Director, Radio Institute of America
If you want to get the most out of your receiving set, take this tip or two!

Never try to share your aerial with another fellow. It won't work. He will be detuning your set and you will be detuning his. This applies to both outdoor and indoor antennas.

If you have to share the aerial, divide the time of operation. Disconnect one set while the other's in use. Don't expect too much of your indoor loop or frame aerial. As previously explained, this is only for use in case you have a good radio frequency amplifier or have a set near a broadcasting station.

Don't think because the aerial is inside the house, that you can shut out reception by closing the doors and windows. Either, upon which the electromagnetic waves travel, permeates all substances, excepting possibly iron and steel, just as easily as it does air.

If you want to shut out reception, throw your switch and disconnect your set from the antenna circuit.

Source of Annoyance

We speak of the detector tube as oscillating when it is so regulated to receive signals at a maximum audibility. In this oscillating it throws off a small amount of energy which leaks through the receiving set into the aerial.

These signals, thrown off by the aerial, will be heard by those nearby who may be tuning in to the same wave length. This is great source of annoyance and requires skill in tuning to avoid it.

Tuning In

The problem of tuning in to the best advantage is one that each fan will have to work out for himself—by simply varying his dials until he discovers the selective spots.

You may see a set receiving very satisfactorily at a friend's home or in a store and note the position of its dials. But if you try to make exact-

ly the same arrangement on your own set, it may not work at all.

It all depends on the location of the receiving station, the height and length of the aerial, the length of the lead-in and the size of the wire used.

No rules can be laid down for specific tunings. It is mostly up to the operator himself.

Tickler

The plate variometer or "tickler" is the one part of the set that requires the most attention and skill in handling on account of its regenerative principle.

But with a little practice one can soon learn just where each variation is needed, and a maximum of efficiency in reception is enjoyed.

CARD. O'CONNELL TO ATTEND DEDICATION

The dedication of the new chapel in St. Patrick's cemetery on Memorial day will, unless something unforeseen happens, be dignified by the presence of His Eminence, Cardinal O'Connell, who will celebrate the mass at 10 o'clock that morning which will solemnify the dedication of the chapel and the vault beneath.

The work of building this chapel, conceived and personally supervised by Monsignor O'Brien, P.M., of St. Patrick's church, has been under way for more than a year. The Rt. Rev. Monsignor also planned its dedication, and has also secured the promise of Cardinal O'Connell to attend.

The chapel is practically completed now, as a visit to the cemetery a few weeks ago showed the interior in readiness for the ceremony of dedication with a little grading and finishing work to be done on the grounds which surround it.

A prolonged spell of east winds means an increase in the cases of congestion, influenza, rheumatism, lumbago and swollen hands.

Berton Braley's Daily Poem

THE FLAPPER

She isn't afraid of the old Tabooes,
Of dead conventions and ancient views,
She faces the world with a pearly grin
And a confident tilt to her dimpled chin;
And the old heads wag and the old tongues clatter,
But she doesn't care for the stuff they chatter,
She knows her actions are being fayed
But not for a minute is she afraid!

She isn't afraid of the shapes of wrath,
The frowning idols that line her path,
Her eyes are open, and though she makes
Mistakes enough—they are her mistakes
And not the blunders of "older heads"
Filled full of cautions and doubts and dreads;
Not always wisely her game is played
But never a moment is she afraid!

She shocks the elders with joyous verve
Until they quiver in every nerve,
But altogether I think the kid
Will do as well as her parents did;
Better perhaps, for we must confess
Her elders bungled things, more or less;
Under the banners of youth arrayed
She faces the universe—unafraid!

(Copyright, 1922, The Lowell Sun)

AMUSEMENT NOTES

(By Theatrical Press Agent)

MERRIMACK SQUARE THEATRE

Large numbers of spectators will undoubtedly witness the excellent double-feature bill which Manager Nelson has arranged for Thursday, Friday and Saturday at the Merrimack Square theatre. The leading features are: "Babe Daniels in 'Nancy From Nowhere,' a story presenting the better star in an entirely new role, and 'A Tale of Two Cities,' Governor Morley's most noted story. Coming Monday: 'Bought and Sold,' with Jack Holt and Agnes Ayres.

D. F. KEITH'S THEATRE

In the Wilton Sisters, Rose and Mae, who are featured specially at the D. F. Keith theatre, this week, are two of the best known entertainers on the American vaudeville stage. Their work is a constant delight throughout. Clean as a whistle, attractive in everything they do, and perfect in their work, it is small wonder that the sisters are the great attractions they have proved to be. A real novelty of

the week's bill is provided by the Choy Ling Poo troupe of Chinese jugglers and wonderworkers. They close their act by swinging by their queues from ropes suspended in the air. It is a real novelty. James Mullen and Anna Francis provide comedy enough for several acts, while Devere and Rogers have one of the prettiest acts of the whole season. The remainder of the bill consists of: Lew and Paul Murdock, dancers; May Miller & Co., in a musical act and Gress & Santoro, physical culturists.

THE STRAND

Triscilla Dean opens up in "Wild Honey" the Universal-Jewel special at The Strand today. It's a story adapted from Cynthia Stockley's popular novel of the same name and is classed as the most thrilling melodrama. Miss Dean has ever appeared in—and that is saying much in view of her recent successes. The biggest of the many thrills in "Wild Honey" is based on the destructive flood and a series of brilliant rescues. The flood scenes show a pent-up river unleashed to sweep down a narrow canyon and through a valley filled with settlers. The tur-

lence of the water, and its destructive power are shown with realism never before attained on the screen. Triscilla is shown in the midst of it, battling and struggling her way to safety with her usual courage and dash. A capable cast is seen in support of the star.

HOUSE BURNED NEAR LAKEVIEW PARK

A seven-room house and its contents located on Tolson road near Lakeview park and owned by Arthur Malloski, were destroyed by fire yesterday afternoon. When the blaze was discovered an alarm was sent in and the Navy Yard and Centre companies of the Draught department responded, but the efforts of the men to save the building were fruitless.

MISS ALICE D. GOODMAN

ARE YOU A SUFFERER?

Young Women and Those of Middle Age Should Learn From This What Is Best for Them

Irona, N. Y.—"It is with pleasure that I acknowledge the good I have derived from the use of Dr. Pierce's medicine. I suffered terribly from pain, especially in my right side. I heard of Dr. Pierce's medicine, and took a few bottles each of the Favorite Prescription and the Golden Medical Discovery, also a few vials of the Pleasant Pellets, and I feel no more pain—am entirely cured."—Miss Alice D. Goodman, Buffalo, N. Y.—Adv.

If you suffer, you should go at once to your neighborhood drug store and obtain this Prescription of Dr. Pierce's in tablets or liquid form. Write for free medical advice, or send 10 cents for trial package of tablets to Dr. Pierce's Invalids Hotel in Buffalo, N. Y.—Adv.

GOV. COX SIGNS LIQUOR ENFORCEMENT BILL

BOSTON, May 18.—Governor Cox yesterday signed the bill to make the state liquor law enforcement provisions comply with those of the Volstead act, passed by congress.

The approval of the governor was given after a hearing, at which justices of the inferior courts objected to the provision that they should be required to hear evidence in applications for warrants instead of the

clerks of courts, who are allowed to issue warrants in certain cases now.

The governor said he did not believe the act should be jeopardized on account of the objections of the justices and that from information he had received from members of the committee on legal affairs, which heard the bill, he was satisfied that the provision is necessary to protect all parties who may be affected by the new enforcement law.

DECORATIVE. Candelsticks of wrought iron are highly decorative. They are most effective in a room where the Italian influence dominates.

BIG STILL BOILING IN WAREHOUSE

BOSTON, May 18.—A raid last evening on the fourth floor of the building at 2162 Washington street, supposed to be used as a storage warehouse, revealed 40 gals. of liquor and 2800 gals. of mash. The police of Dudley street police station, who made the raids under Sergeant Dickinson, arrested George Ryerson, 25 years old, of 185 West Newton street, on a charge of violating the prohibition law and making an unlawful sale.

WHERE QUARTER MILLION IN LOOT FROM N. Y. BANK WAS FOUND

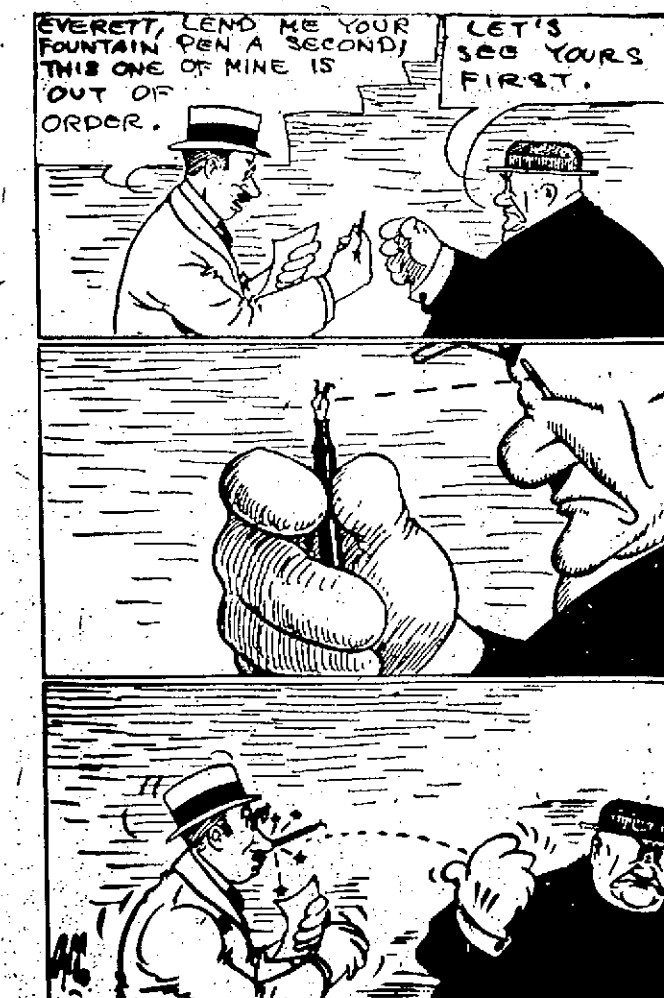

The First National Bank of St. Augustine, Fla., where detectives report they found \$140,000 in bonds alleged to have been stolen from the Chase National Bank, New York. The bonds were deposited without the knowledge of the Florida bank officials in a safety deposit box rented in the name of J. W. Hollis. Inset is photo on passport found in box. Detectives say it is that of John Vardeman, now under arrest.

PEGGY LOVES DOG THAT JACK BOUGHT

Peggy Joyce caressing "Clodwig von Shondorf" when she arrived on the Mauretania. "Clodwig" was purchased by Jack Dempsey in Berlin.

EVERETT TRUE

WATCHES MORE THAN 100,000 ACCOUNTS

WASHINGTON, May 17.—Uncle Sam keeps more than 100,000 separate accounts, one for each government fund. It's easy enough to draw a warrant against a fund, but if the warrant's to be any good there must be money in the fund to pay it from.

The man who watches all these balances is Frank H. Bogardus of Kansas, O.

He is chief of the bookkeeping division of the comptroller general's office in Washington. He knows all about federal funds. He keeps financial tally for several thousand legally authorized United States disbursing agents, at home and abroad. He makes due record of receipts as well as expenditures. Every item carried in the

government budget is checked through his office.

Before his present appointment, Bogardus was secretary to Congressman Clint Cole, of President Harding's home district. He is also an Ohio republican central committeeman.

FIRE IN TEWKSBURY

A threatening blaze in a house at Stevens' corner, Tewksbury, late yesterday afternoon, was responsible for a call to the local fire department. The fire was placed under control soon after the Lowell men arrived. A telephone alarm was sent in at 5:25 o'clock for a slight blaze at 642 Lakeview avenue. At 5:30 o'clock a telephone call was received for a slight blaze under the flooring of the Alken street bridge, and at 7 o'clock a telephone alarm was sent in for a fire on the Fair grounds dump.

Kellogg's SHREDDED KRUMBLES

The Spirit that wins!

Give children Kellogg's delicious whole-wheat KRUMBLES and they'll thrive and grow big, strong, healthy bodies! For, KRUMBLES—with the full, enticing flavor of whole wheat for the first time in food history—contain every food element the body demands for complete nourishment! You could live indefinitely on KRUMBLES and whole milk!

You can't afford to let your children grow into puny men and women! You must give their food the proper consideration. Keep them away from the devitalized, soft foods that we eat today! Give children a perfectly balanced diet! See that they eat KRUMBLES at least once daily—and results will prove astonishing!

Men and women workers should eat KRUMBLES to renew their strength! KRUMBLES provide food that sustains the aged as nothing else can!

KRUMBLES are sold by all grocers!

The only whole-wheat food with a delicious flavor!

Think!
You can redecorate your faded walls for about two dollars a room with Muralite—

MURALITE is easy to mix. All you need is hot water. Then you can apply it quickly with a good wide brush. For easier than baking a cake! Try Muralite one room this week, just to prove it.

CHEERFUL surroundings have a big influence on health and happiness.

Muralite is a wall and ceiling finish. Easily applied by anyone. It is odorless, sanitary and durable.

Muralite comes in deep, rich colors, and soft, light tints, giving beautiful, harmonious, and truly artistic effects.

Get enough Muralite to do over just one room—the cost will be less than two dollars.

Determine now to make your home attractive at a small expense.

TEXACO MOTOR OIL

Clean, clear, full-bodied.

Watch the golden color when it is poured into your motor. It's unmistakable.

Results are unmistakable, too: Complete absence of hard carbon—no knocks, no pre-ignition, no loss of compression, but clean spark-plugs, regular firing and surplus power.

Light, medium, heavy and extra-heavy, it fits all cars and all conditions.

Drain out all the old oil in your crank-case. Refill with Texaco Motor Oil, and start out with a car that will deliver all the power and life its maker built into it.

DID you ever stop to think that even the most patient and sweet-tempered of folks are inclined to show a curious impatience at meal times?

All of us, at such times, occasionally feel—like the old song—"I want what I want when I want it." And that is the policy on which the Waldorf service is founded—good, clean food, with quick, satisfying service, served with the sauce of courtesy.

If, by any chance, you have met or should meet with a discourtesy at the hands of a Waldorf employe, tell us at once. And let us apologize for him. He is casting a slight upon the efforts of his brothers in the Waldorf who are daily trying, with human patience, to give you good-natured, willing service under all circumstances.

Waldorf System Incorporated

WIDOW KILLED BY EX-FARM HAND

Mrs. Benedict Slain and Her Widowed Daughter Wounded

Slayer Then Walked by Store and Told of Crime and Then Fled to Woods

SOUTH KENT, Conn., May 17.—Mrs. Flora L. Benedict, a widow, was shot and killed by a former farmhand, Sidney Ward, at her home here today. Ward also wounded Mrs. Benedict's widowed daughter, Mrs. Cora Pulgo. Ward, after the shooting, walked to the nearby farm of Ralph Rowland, casually remarked that he had killed "somebody" and disappeared in the woods with his rifle. A constable's party is searching the woods for him. Mrs. Page was not seriously injured. She stated that Ward shot Mrs. Benedict in the yard. Mrs. Page heard the two talking, then a shot. Ward then went in the house and attempted to enter Mrs. Page's room. She fought with Ward, pushing him out, whereupon he disappeared. Mrs. Page went to the yard and found Mrs. Benedict's body. While she was talking with William Farrell, another farm hand, a shot was fired, striking her in the arm. Ward had fired from behind a nearby tree. He then ran for the woods. It was said that Ward had not worked on the Benedict farm recently because Mrs. Benedict had objected to his frequent intoxication. It was also stated by neighbors that Ward had expressed jealousy of the continued employment of Farrell by Mrs. Benedict.

COOK BREAKFAST OR HEAT BOTTLE IN BED

ATLANTIC CITY, N. J., May 17.—Those who hate to get out of bed in the morning needn't do it. The latest thing in beds, described today at the National Electric Light association convention has attachments for "heat pads, lights, a fan and for a quilt to cook breakfast or heat baby's bottle. In case baby has to be walked, to sleep in the middle of the night, papa or mamma can turn on a light under the springs which illuminates only the floor, so that they can see their way clear of tacks and toys without disturbing other sleepers or entertaining the neighbors.

ALLEGED LEADER OF BANDITS ARRAIGNED

BOSTON, May 17.—Frank Tarantella, alleged leader of a gang of bandits which had its headquarters at Wilmington, was arraigned in the East Boston district today. His case was continued until May 26. The police of Boston and surrounding cities had been on the lookout for Tarantella since his escape during a camp nearly two weeks ago, which resulted in the recovery of loot valued at several thousand dollars, and led to investigation of the possibility of a connection between the bandit band and the assassin of Ralph W. Brewster, Winchester station agent. Two alleged members of the gang were captured at that time. Tarantella evaded capture until last night when he was taken in East Boston after a fight.

BRIEF BUT IMPORTANT WIRE DESPATCHES

CHARLESTOWN, W. Va., May 17.—(By the Associated Press.) The state today rested its case against William Sizant on a charge of treason. The defense at once moved to compel the state to elect which overt act it relied upon to sustain a conviction. MARLIN, Tex., May 17.—Four dead or missing was the latest estimate today of casualties in the collapse of a bridge across the Brazos river near here yesterday. Persons reported missing last night had all been accounted for today. It was believed. SANDWICH, England, May 17.—(By the Associated Press.) Mrs. W. A. Gavin of New York, holder of the Metropolitan championship title, was eliminated from the ladies' open golf championship play here today by Miss M. Cox of Royal St. Davids, two and one.

OAKVILLE, Ont., May 17.—Twenty-eight show hunters and hunters belonging to H. C. Cox and Sir Adam Beck, were burned to death today in a fire that destroyed Hugh Wilson's training arena. SPRINGFIELD, May 17.—Robert O. Morris, aged 76, today completed his 50th year in the office of clerk of courts of Hampden county, a record believed to be almost, if not quite unequalled in Massachusetts court annals.

MANCHESTER, N. H., May 17.—Samuel P. Alain, 30, a native of Manchester, was held in \$3000 bonds in municipal court this morning on charges of raising one dollar bills to notes of higher denomination. Alain's arrest, according to the police, clears up the mystery surrounding the origin of raised bills which have flooded Manchester for several weeks. HANGOR, Mo., May 17.—Frank H. Hackett of Woodford, was elected grand chancellor of the Grand Lodge, Knights of Pythias, at the golden anniversary convention of the order here today.

NEW YORK, May 17.—The hearing of testimony in the Stillman divorce case is over. The lawyers now have twenty days to submit briefs and then the case goes to Referee Daniel J. Gleason for decision.

Washington state provided 50,338 men to all branches of service in the world war.

BODIES FOUND LOCKED TOGETHER IN RIVER

LEWISTON, Me., May 17.—Shortly before noon today Sheriff Fern S. Stacey of Androscoggin county recovered the bodies of Ricka Hinkley, 12, and Raul Pilon, 10, respectively, of Livermore, who disappeared Sunday night, from the waters of Bartlett pond. They were locked together by the grip of the girl upon the man's shoulder. It is believed that the girl fell from the boat in which they were fishing and that the man attempted her rescue, but was dragged down by the hold the child secured on him.

FUNERAL NOTICES

BIGLON.—The funeral of Augusta Biglone will take place Friday morning at 10 o'clock from his home, Lowell street, North Billerica. A funeral high mass will be celebrated at 8:30 o'clock at St. Andrew's church, North Billerica. Friends are invited to attend. Burial will be in St. Joseph's cemetery. The funeral arrangements are in charge of Undertakers Amadee Archambault and Sons.

FOUND DEAD IN WOODS WENTWORTH, N. H., May 17.—George Ellis, sought since an attempt to shoot his mother-in-law, Mrs. G. L. Ramdell, yesterday was found dead in the woods here today. He had apparently committed suicide by shooting. It was reported that his wife and brother-in-law had interfered to save the life of their mother when he attacked her.

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Everett, Washington.—"For several years I have had trouble with the lowest part of my back and my legs would ache with that tired ache. I could hardly stand on my feet at times. I was always able to do my work although I did not feel good. I saw Lydia E. Pinkham's Vegetable Compound advertised and having heard several praise it I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to others who are sick and ailing."—Mrs. J. M. Sturtevant, 4032 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of the trouble and then these annoying pains, aches and "no good" feelings disappear.

It has done this for many, many women: why not give it a fair trial—now.

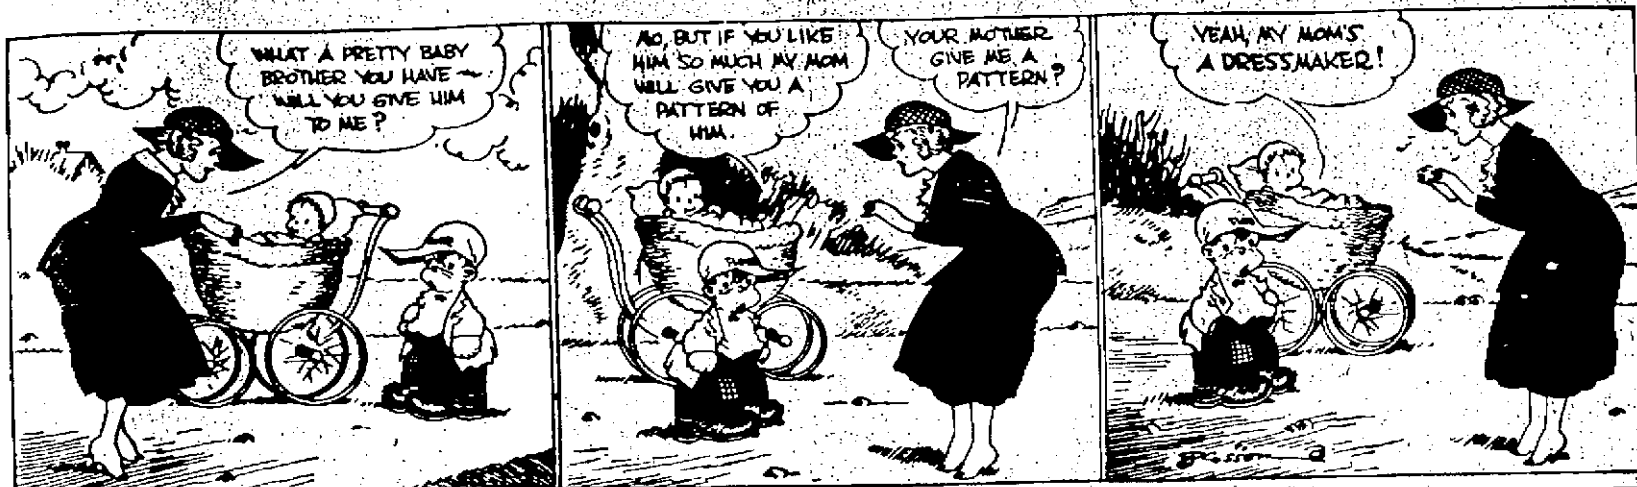

Her Opinion Does Not Change

Mrs. John R. Bicknell of No. 10 Grant St., Portland, has used the tonic "L.F." Atwood Medicine for several years, and she still feels that it can hardly be excelled as a household medicine. She has found it invaluable in warding off biliousness and would not be without it.

You are not experimenting when you use "L.F." Atwood's Medicine. It has hosts of friends who are never without a bottle in the house.

L.F. MEDICINE CO., Portland, Me.

FRECKLES AND HIS FRIENDS

THE BICKER FAMILY

BUDGET SHORTAGE IS EXPLAINED

Letters explaining the shortage of 12000 which exists in the 1922 budget for local Y.W.C.A. camp and girls work are to be delivered throughout the city today by groups of high and grade school girls, who have resolved that their summer work shall not be handicapped through a mere lack of funds. The letters explain the situation fully, saying that on account of this shortage in funds the appropriations for camp and girls work were seriously decreased, and the ultimate

consequence will be that the camp will have to be abandoned this year because of lack of facilities, depriving a great many of the girls of the opportunity to spend their vacations there. No money will be taken when the letters are delivered, as a second call will be made on Saturday for contributions. As many of the girls unable to afford vacations at other resorts, spend their period of leisure at the Y.W.C.A. camp free of charge, the work is of considerable importance, and contributions fully as generous as in the past are expected. A list of the girls who have volunteered for the work today and Saturday follows: Mary Washburn, Ernestine Brigham, Mildred Gardner, Mary Dexter, Dorothy Adams, Eleanor Trull, Elizabeth Johnson, Dorothy Fleming, Myrtle Dyer, Helen Waugh, Gladys Fuller, Alice Buchner, Helen Chadwick, Margaret Olney, Ethel Armstrong, Ethel Sharf, Juanita Johnston and Eunice Dodge.

Lubricating oils for the railroads of those regions are being obtained by distilling the bituminous limestones that are found abundantly in Syria and Palestine.

CANADA HONORS COMMANDER OF A. E. F.

General John J. Pershing, chief of the American Expeditionary Forces, and General Sir Arthur Currie, chief of the Canadian Expeditionary Forces, meet at Windsor Station, Montreal, where Pershing went to receive an honorary degree from McGill University.

Commonwealth of Massachusetts

At a meeting of the County Commissioners for the County of Middlesex, at Cambridge, in said County, on the first Tuesday of January, in the year of our Lord one thousand nine hundred and twenty-two, to wit, by adjournment at said Cambridge on the twenty-fifth day of April, A. D. 1922.

On the foregoing petition, ordered, that the sheriff of said County or his Deputy give notice to all persons and corporations interested therein, that said commissioners will meet for the purpose of viewing the premises and hearing the parties to the Court House, in said County, on Monday the nineteenth day of June, A. D. 1922, at ten o'clock in the forenoon, by service of the clerk of the County of Chelmsford, with a copy of said petition and of this order thereon, thirty days at least before said view, and by publishing the same in the Lowell Sun, a newspaper printed at Lowell, three

BUILDING PERMITS REFUSED

U. S. Refuses to Yield

U. S. Insists Russia Withdraw Memorandum Before Joining in Any Discussion of Russian Problems

ATTITUDE IS UNCHANGED

U. S. Will Not Join Even in Scientific Discussion Until Russia Acts

Will Also Insist That No Political Questions Be Taken Up

Non-Aggression Pact Adopted—Genoa Conference Ends Tomorrow

WASHINGTON, May 18.—With respect to the statement made for the British delegation at Genoa, that it is doubtful that the United States can be induced to join in the discussions at the Hague until the scope of those discussions is more fully understood, it can be said on authority that the whole basis of those discussions, which rest upon the Russian memorandum of May 11 must be changed before the attitude of the American government will be altered.

In other words, the American government will not join even in a scientific discussion of economic problems in Russia unless the Russian memorandum of May 11 is withdrawn by the Russians as a condition precedent to Russian participation in such a commission. It is also clearly understood both here and at Genoa that the United States will not take part in any common commission deliberations on Russia unless it is understood specifically that no political questions are to be taken up.

Report New United States Note

GENOA, May 18 (by the Associated Press).—The new United States note has been received from the United States with reference to participation in the projected commission at the Hague on Russian affairs, saying the United States reserves its decision pending a further investigation and until the situation becomes clearer.

Non-Aggression Pact Adopted

GENOA, May 18 (by the Associated Press).—The non-aggression pact was adopted unanimously at a plenary meeting of the political sub-commission of the Genoa conference today. The pact was not signed, but was adopted in the form of a resolution, each state pledging itself to respect it. All delegations attended the session except those of France, Belgium and Germany.

The delegates made solemn affirmations that they would recommend the pact to their governments and it seems likely it will be ratified generally as adopted today.

The final plenary session was held for tomorrow morning, and the conference will probably be concluded at noon. The British have ordered a special train and other delegations are planning for a hasty departure.

Further Advice From United States

GENOA, May 18 (by the Associated Press).—Continued on Page 4

OPPOSITION TO TRANSFER ORDER EXPECTED AT COUNCIL MEETING

Order Transferring \$21,400 From Overlay Surplus to Care for Maintenance of Auditorium and Pay Salary of Registrar of City Employment Bureau Coming Up This Evening—City Solicitor Does Not Approve of White Way Extension

Opposition to an order transferring \$21,400 from overlay surplus to appropriations to care for the maintenance of the Memorial Auditorium and to pay the salary of the registrar of the city employment bureau, will develop at tonight's meeting of the city council to such an extent that it is believed it will not be adopted.

In connection with this order is an opinion from City Solicitor Edward J. Tierney, sent today to City Clerk Stephen Flynn, in which he approves of the \$21,400 order, but does not approve of another order for \$1200 for the extension of the White Way lighting system in Gorham street from Summer street to Thomas F. Mann square.

In this opinion Mr. Tierney states

MORE KILLINGS IN BELFAST

At Least Four Men Killed and Many Wounded in Firing Today

Police and Soldiers Battle Gunmen—Concerted Attack on Police Barracks

BELFAST, May 18. (By the Associated Press).—A wild night of firing in the Marrowbone district of Belfast, with police and soldiers battling gunmen, was followed by further shooting today as the working people were on their way to the shops. At least four men are dead as a result of these disorders, and several others wounded, some seriously.

A concerted attack was made upon the Musgrave street police barracks. Seven men in police uniforms knocked at the front gate. When the guard asked "Who's there?" the reply came "Police on duty." The gate was opened and the party entered. The invaders closed the door and ordered the guards to throw their hands up.

Two of the police showed fight and were wounded by members of the attacking party, who rushed upstairs to a room in which arms were stored, firing at the guard on duty. Help came at this juncture, however, and the raiders fled.

Constable Collins, who was wounded in the fighting, died this morning. The condition of Constable McKeown, the other defender wounded, is not serious.

Two on Train Car Killed

BELFAST, Ireland, May 18. (By the Associated Press).—Two men sitting on the top deck of a train car were shot dead from behind by two others as the car was nearing the center of the city today. The assassins escaped.

William McKnight was shot in the abdomen while on his way to work, and is in a critical condition. Robert Beattie was wounded in the arm.

SO. END Y.M.C.A. GAME POSTPONED

Tonight's South End Y.M.C.A. game has been postponed on account of the weather conditions prevailing throughout the day. The game will be played on the next open date after the Y.M.C.A. of C. C. has been disposed of.

Prisoners in English and Welsh prisons numbered about 11,800 in March, 1922, as compared with 17,400 in March, 1914.

TAKE 19 BODIES FROM RUINS

Fire Swept Historic Hospital of Santo Spirito on Banks of Tiber

One of the Most Ancient and Picturesque Charitable Institutions in Rome

Pavement Collapsed Burying 20 of the Chronic Patients Access Impossible

ROME, May 18. (By the Associated Press).—Fire swept the historic hospital of Santo Spirito, one of the most ancient and picturesque charitable institutions in Rome, early today. Collapse of the pavement isolated the chronic ward. Sixteen bodies had been extracted from the burning ruins at 7.30 o'clock. The institution accommodates nearly 500 inmates, and includes a hospital, lunatic asylum, foundling home and a refuge for aged and infirm persons.

The fire broke out shortly before

STATE PROBE OF TEXTILE STRIKE

Edwin Newdick Urges Passage of Order Before Legislative Committee

Say 20 P. C. Cut Would Make Wages in North Lower Than Those in South

BOSTON, May 18.—Urging passage of an order for a state investigation of the Lawrence textile strike, Edwin Newdick of the Labor Bureau, Inc., told a legislative committee today that the average cotton mill wage in the north would be lower than that in the south if the proposed 20 per cent cut were accepted.

Taking up the financial condition of the mills, Mr. Newdick said, there was a sufficient surplus in reserve in 15 representative textile mills in Massachusetts, Rhode Island and New Hampshire, to pay the wages of their operatives for four and one-half years.

The delegation in favor of the inquiry was headed by President Thomas F. McMahon of the United Textile Workers of America, Mayor Mahoney and other members of the Lawrence city council. Speaker H. Loring Young told the house that the committee that Representative Roland D. Sawyer of Ware had offered an order providing for the investigation to cover the entire state.

CONVICTION OF HOLMES AND WESTON STANDS

BOSTON, May 18.—The full bench of the supreme court today ratified a superior court decision declaring Robert D. Weston and Hector M. Holmes guilty of receiving papers stolen from the law office of Daniel H. Coakley.

Several weeks ago the court overruled exceptions of the defendants, and a rehearing has been requested. In a letter to Chief Justice Ruggs, Edward F. McEneaney, counsel for the defense, asserted that the court's opinion was in conflict with a decision of its own made in January, 1919.

The opinion, written by Judge Tenney, made no change in the verdict previously reached, but said that although Judge Fessenden erred in not instructing the jurors to cast aside their deliberation improper considerations that had been presented to them, the defendants nevertheless were not entitled to a new trial because no error in law had arisen.

Superintendent Public Buildings Refuses Permits for Erection of 10-Footers in Highlands

As the result of many complaints that now have crystallized into concerted opposition, Supt. Francis A. Connor of the buildings department has refused two permits for the erection of 10-footers, so called, in the Highlands residential district, one to be located at the corner of Wilder and Westford streets, and the other at the corner of Branch and Loring streets.

While there is no law under which the superintendent may act in refusing

such permits, he said today that he will fight against them until he is forced to give in, as he does not believe that the people of the Highlands are in favor of allowing that beautiful residential section to be marred by the erection of such buildings.

In the words of Supt. Connor there is an attempt being made to buy up all prominent vacant corner lots in the Highlands, no matter where situated and to erect thereon buildings entirely foreign to the present characteristics of the neighborhood.

"It is an attempt to 'Ghettosize' Lowell," said Supt. Connor, "and if I can stop it, I will."

It is now understood that a petition bearing hundreds of names of Highlands residents will be presented to the city council, asking that some drastic action be taken to stop this practice, that is rapidly becoming a nuisance.

LOWELL CASES IN THE SUPERIOR COURT

Several local men, charged with the violation of the liquor laws and who were found guilty in the first district court, but who appealed the findings, paid fines in the criminal session of superior court held in Cambridge today.

Included in the list of cases was the famous Demetrius Papacostas case and a finding of guilty by a jury gave local enforcement forces much satisfaction. The Papacostas case dates back to March. At that time it caused much discussion in legal circles. The case in question involved a raid on a near-beer saloon in 611 Market street. It is alleged that when

GOLD-STAR MOTHERS

Gold Medals for Lowell Mothers Who Gave Their Sons Over There

Lowell's 140 or more gold-star mothers, mothers who gave their sons that democracy might not fade from the earth, will receive from the city of Lowell a medal of solace and fittingly inscribed and emblematic of the supreme sacrifice made by them and paid for in full by their boys upon the battlefields of the world war.

Already a tentative design for the medal has been submitted to a local jeweler by Mayor George H. Brown, working in conjunction with Lowell post of the American Legion.

The design is said to be only tentative.

Shark skin has the toughness of vulcanized rubber.

LOWELL FAMILIES TAKE UP FARMS IN VERMONT AND CANADA

Textile Strike Drives Many Mill Operatives Back to the Soil—One Expressman Has Already Moved Twenty-five Families

The depression of business in local textile mills has been responsible for at least 100 families leaving Lowell during the past three months, according to information given out today by Leon Gagne, an expressman with a place of business in Mill street. Mr. Gagne states that during the past three months he has moved to the railroad station the furniture and other personal effects of about 25 families and he says several other local furniture movers have also been kept busy going to the railroad station with loads of furniture.

Mr. Gagne stated that most of the families are going back to Canada, their native land, while others are settling on farms in Vermont. Three local families have responded to the call of the colonization agents and have settled down on farms in western Canada. During the past week or so, however, says Mr. Gagne, there has been a let up and numerous families who had engaged him to move their furniture to the railroad station have cancelled their order as they feel that activities in the cotton mills will be resumed before long. From Manchester, N. H., comes the information that hundreds of families have left the Queen city during the past few months and have returned to Canada, the reason for the exodus being the textile strike.

Justice Pierce Is Exonerated

BOSTON, May 18.—Petitioners for the removal from the supreme court bench of Justice Edward P. Pierce were given leave to withdraw today by a special legislative committee which investigated the charges. The committee's action was unanimous. It was alleged that Judge Pierce conspired to obstruct justice and accepted gratuities.

The committee found that Judge Pierce from October, 1919, to April, 1920, and from October, 1920, to February, 1921, "continuously received gifts of flowers from an attorney (W. Edwin Ulmer) whose interests as counsel or party were before the supreme judicial court." It was held, however, that the judge was informed by the attorney and believed that the flowers were for his wife and that some were surplus stock. The fact that the respondent had voiced objection to receiving the gifts was noted.

It was found also that Judge Pierce permitted the attorney to consult him upon questions of business management and policy touching the outcome of cases which were drawn into litigation before the supreme judicial court, and that to a minor extent he advised the attorney upon questions of law which might in some form come before the court.

The committee held, however, that no act or attitude of the respondent in his judicial capacity was by reason of the gifts different than it would have been had the gifts not been made, and that he was a party to no conspiracy, and did not exercise pressure or use the prestige of his office improperly.

"At most it may be said that in this matter the receipt of the gifts was indifferent under the circumstances the participation of the respondent in the conduct of the attorney, imprudent and in its public aspect the appearance of his relations unfortunate," the report concluded.

BOTH CANDIDATES CLAIM VICTORY

HARRISBURG, Pa., May 18.—Both candidates for the republican nomination for member of the congress in the 18th district today claimed victory at the primary Tuesday. Representative Benjamin K. Poch's supporters declared he had won by about 100 votes while his opponent, Edward M. Heers, claimed his nomination by about 50 votes.

The official count probably will be necessary.

Others at, pair **39¢, 50¢, 75¢ and 85¢**

GIRL TRIES SUICIDE IN COURTHOUSE

LAWRENCE, May 18.—Imposing a fine of \$50 upon Francis Landers of Haverhill after Landers had pleaded guilty to a charge of improper conduct with a 15-year-old girl, Judge L. B. Cox in the superior criminal court warned Landers that his next appearance before the court would mean a trip to jail and added: "In all cases such as this that I have ever tried, I have never believed that the girl was solely to blame. I believe that if all the women in the world were locked up in jail some of you men would break in to get at them."

The girl in the case, Marie Catana of Haverhill, was also before the court on a complaint charging her with being stubborn and disobedient and after the court had sentenced her to Lancaster she broke away from court officers while in the detention room and tried to throw herself from a second-story window of the court house. She was prevented, however, by Robert Otto, who caught her just as her legs were disappearing through the window.

CONCERT PROGRAM AT NORMAL SCHOOL

Students of the Lowell Normal school and many of their friends enjoyed a rarely excellent concert program yesterday afternoon. Miss Carmelo Ippolito, violinist, and Mr. Henry J. Clancy, tenor, were the principals, and rendered instrumental and vocal numbers in a delightful manner.

Miss Ippolito began with three excellent selections, "Allegretto," "Orlando," and "Serenade Espagnole," by Sammartini, Cesar Cui, and Charlnado-Kretsch, respectively, and interpreted the various movements therein charmingly. Her second offering was Mendelssohn's Concerto, Op. 61, and the third, an allegro molto vivace, also splendidly rendered. She closed with Saint-Saens' Rondo Capriccioso, Op. 28, and was accorded generous applause.

Mr. Clancy sang four folk songs, "Phyllis Hns Such Charming Graces," and "Oh! No John," from the English, "Mary of Arizle," from the Scotch, and "Molly Brannigan," from the Irish, much to the delight of his audience, and on his second appearance gave "Una Furtiva Lagrima," from Donizetti's "Elixir d'Amore," a very beautiful tenor solo. His last group was of three excellent numbers, offering striking contrasts, Austin's "I Have a Dream," McGillis' "Duna" and "Alvares's "La Partida."

Miss Ippolito was accompanied at the piano by Miss Ruth Boulger, and Mr. George Wellington acted as accompanist for Mr. Clancy.

MISERABLE FOR TWO YEARS

"Fruit-a-lives" Restored Her Strength and Vitality

MOUNTAINVILLE, CARROLL CO., N. H. "I was all run down and work was burdensome owing to indigestion, and gas on my stomach which caused me to belch a good deal. My heart seemed to be affected.

It was two years ago that I was in this condition and began the use of "Fruit-a-lives," which proved the very remedy I required. I was freed of the indigestion, which I attributed to my heart; and I can conscientiously recommend "Fruit-a-lives" the great Fruit Medicine."

Mrs. FRANK W. WALLACE.

GERMAN COMING TO U. S. ON MEXICAN DEBT

NEW YORK, May 18.—(By the Associated Press)—Paul von Schachbach, junior member of the famous German banking firm of S. Bleichroeder & Co., will represent German investment interests at the international conference here next month on the refunding of the Mexican national debt. It was learned here last night. This will be the first international financial meeting since the peace conference at which both Germans and American private investment interests have been represented.

The German banker will sail from England on the steamship Olympic May 21 with Thomas W. Lamont, who has been holding preliminary conferences with European bankers in London, and delegations from the British and French groups.

Mr. Lamont, the members of the British and French delegations and Mr. von Schachbach will begin conferences here about June 1 with Adolfo de la Huerta, Mexican secretary of the treasury, to devise plans for adjusting Mexico's national debt, which is estimated at approximately \$700,000,000.

This debt has been accumulating since 1911 when Mexico stopped interest payments on virtually all of its foreign-owned securities. It is estimated that more than one-half of this indebtedness was floated abroad and a large percentage of the original European offering was held in Germany. When the international committee was organized in February, 1919, it consisted of 10 American members, five British and five French. Since then one American has withdrawn, two have been added, and representation has been given on the French and British groups to Swiss, Belgian and Dutch interests. This combination, with the Germans, represents virtually all the foreign holders of Mexican securities.

It is known that Germany unloaded a large amount of its Mexican bonds in the Paris, London and New York markets in the few weeks preceding the war. Vast quantities also were disposed of during the war through neutral countries.

Despite its extensive pre-war and war liquidation of these securities, Germany's holding up of Mexican bonds still is believed to be quite large.

POSED AS MAN

Woman Deceived Another Into "Marriage"

DES MOINES, Iowa, May 18.—After living a year and a half with a woman posing as a "husband," afraid to reveal the deception, Mrs. Janette Simmons yesterday caused the arrest of Mrs. Irene Gaul. Mrs. Simmons said Mrs. Gaul, dressed as a man and employed as a restaurant cook, courted her and continued the deception after their marriage.

She said she learned three weeks later her "husband" was a woman.

TICKER IMPROVEMENTS

New Service Expected to Bring Record of Transactions on Floor

NEW YORK, May 18.—(By the Associated Press)—An almost instantaneous record of transactions on the floor of the New York stock exchange is expected to result from improvements in the official ticker. The new service will start soon.

Pimples, blackheads and boils—fresh yeast rids you of them

It is well known that pimples and blackheads (acne) and boils are often caused by errors of diet.

Fleischmann's Yeast is now being recommended for these embarrassing and painful skin troubles because fresh yeast corrects the errors of diet which cause them.

The surgeon of one important New York hospital states: "I have used yeast extensively and found it invaluable in curing boils." When 17 cases of pimples were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia, the results were remarkable. A typical case was a young man who had suffered from pimples for three years. He ate three cakes of Fleischmann's Yeast daily. In five weeks the eruption had cleared completely.

If you are troubled with pimples or boils, begin at once to correct them by using 3 cakes of Fleischmann's fresh yeast daily before or between meals. Secure it at Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer for Fleischmann's Yeast.

Says Rheumatism Leaves You Forever

James H. Allen, of Congress avenue, Rochester, N. Y., once a rheumatic cripple, who discovered ALLENRIU and with it banished every trace of uric acid and every sign of rheumatism from his body, says that every drug-gist guarantees a full pint bottle of ALLENRIU to show the way to complete recovery or money back. It relieves at once and immediately after you start to take ALLENRIU the good work begins. It searches out uric acid deposits, dissolves the acids, and drives rheumatic poison out of the body through the kidneys and bowels. Even in cases where suffering has been intense and painful all traces of this dread disease disappear in a few days. Dows, Druggist, can supply you—Adv.

officials to do away with 80 per cent of the complaints now received against brokers unjustly suspected of exacting exorbitant profits.

A customer buys in an order to buy or sell at a broker's office, believing the stock on the ticker will indicate his purchase or selling price. In an active market two or three transactions may have occurred in the same stock between the placing and recording of the order, often accounting for a substantial difference in price.

These complaints originate, largely from purchasers of odd lots. While no official record of these transactions is made on the ticker, it is estimated that they total one-third as many shares as are included in regularly recorded transactions. Brokers generally charge on these small transactions 1/4 of a point away from the market. In addition to the regular commission.

At present four sending operators on the floor send their quotations to the four receiving operators on one of the upper floors in the building, who turn them over to a master operator who transmits them on the official ticker. Under the new arrangements, the four sending operators will send directly to the master instrument, the mechanism being so arranged that the quotations will be recorded almost as fast as they are received. The machine resembles telegraph printers.

AT THE FIRST BAPTIST CHURCH

Before an audience of 300 people, the Christian Endeavor society of the First Baptist church, last night presented the two-act comedy, "Line Bury," in the vestry of the church. The proceeds, which will be devoted towards defraying the expenses of the Northfield conference, to be held during the week of Aug. 14, were highly satisfactory.

In recognition of her work in making the presentation a success, the members of the cast gathered round Mrs. Ethel Stewart Johnson and presented her a beautiful bouquet of pink roses. Mrs. Johnson who is connected with a Boston school of expression, made a fitting response, expressing her appreciation and thanking the donors.

The cast of the play was as follows:

Janice Reese, an instructor. Ruby Harrison Snowball, a maid. Gladys Paige The Juniors: Marion.....Bernice Monilton Ada.....Dorothy Adams Stella.....Myrtle Walker Stella.....Dorothy O'Neill Agnes.....Mildred Coleman Phyllis.....Mabel Kenyon Jeremiah Stokes, the constable. Leonard Fish Lorraine Penwick.....Violet Hadden Mrs. Olive-Gleason Hamilton Ruth Logan Magnolia, her daughter. Mildred Adams Roscoe Linden.....Nathaniel Trull Parker Hamilton.....Cecil Gardner Jack Huntley.....Henry Adams

The Seniors: Jean Morris.....Ethel Brown Anita Shirley.....Rose Page Helen Burns.....Ruth Carr Muriel Collins.....Muriel Amadon Frances Ross.....Blanche Moulton Gladys Symons.....Gertrude Howes Richard Fenwick.....Norman Olson Fritz Tree.....Mabelia Hendon

The following had charge of the affair: Albert Ryan, chairman; Miss Ruth Logan and Norman Olson.

BRIDE LEAVES FOR N. Y.

Miss Hudnut Who Was Married to Valentino in Mexico Starts East

LOS ANGELES, Cal., May 18.—Winifred Hudnut, known professionally as Naidia Rambova, who was married last Saturday at Mexicali, lower California, to Rodolph Valentino, motion picture actor, has gone to New York.

A number of persons accompanied her to the railroad station last night. In the group, according to Pomona picture fans, was Valentino, who bade her farewell.

Thomas McClelland, deputy district attorney, who has been investigating the marriage of Valentino to Miss Hudnut, is quoted as stating he will present to Thomas Lee Woolwine, district attorney, a report that Valentino is liable to prosecution for bigamy "if he is in California or if he ever returns to this state."

Jean Ackers, motion picture actress, from whom Valentino obtained an interlocutory decree of divorce, last January, and who, according to judges of the superior court, remains his legal wife until a final decree is entered, is said to tell the district attorney what she knows of the matter today.

The report was current here today that the departure of Miss Hudnut for New York, where her father, Richard Hudnut, is a manufacturer of cosmetics, followed an agreement with Valentino that they would live apart and that his divorce had become final and then would be remarried.

PEACE IN HANDS OF RURAL COMMUNITIES

CLEVELAND, May 18.—Addressing the delegates of the American Branch of the World Alliance for International Friendship through the churches on "World Agriculture and Country Life," Kenyon L. Butterfield, president of the Massachusetts College of Agriculture at Amherst, yesterday said permanent world peace and the forging of the ties of friendship among nations rested largely in the hands of the people of rural communities and the tillers of the soil.

"Two-thirds of the world's population live in rural communities," he said, "yet, for the last 20 years, the farmer has been neglected or exploited and has had little or no representation in the great world movements. Today the American farmer is powerful and strongly organized and there is a sense of world solidarity creeping in among the farmers for the first time in the world's history."

THIEVES RIFLED METHUEN GARAGE

The local police have been notified by the Methuen police to be on the lookout for thieves who last night broke into and ransacked a garage in that town. Included in the loot is a batch of auto tires and inner tubes.

CONFERENCE A "CLINIC"

Vanderlip Sends Review of Genoa Meeting—European Banks Insolvent

WASHINGTON, May 18.—Most central banks in Europe are today "in varying degrees of insolvency," Frank A. Vanderlip, New York banker, declared in a review of the Genoa conference sent to the convention of the chamber of commerce of the United States. The plan for a conference at London of such banks therefore promised little of immediate result, he added, and their proposed co-operation in the solution of Europe's financial difficulties would be "difficult to realize."

Describing the Genoa conference as

RESINOL Soothing and Healing Promotes Skin Health FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

There is no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

ROUGH, PIMPLY SKIN Cleared Up in Few Days

No woman need have a repulsive, unsightly skin—ten chances to one it's caused by constipation and a lazy liver, which is easily and quickly remedied. For a good, safe, purely vegetable regulator which will keep your system clean, as nature intended.

TAKE SCHENCK'S MANDRAKE PILLS To-Night At all Druggists 25¢ a box Sugar coated or Uncoated Over 20 Years the Standard

"clinic" which was circumscribed in the type of "diseases" which it might discuss. Mr. Vanderlip recommended that the United States enter the proposed London financial meeting, but only with an understanding that "our Federal Reserve system be kept free from alien commitments."

"Owing to the prohibition of discussing more important subjects," he said, "the immediate economic significance of Russia has been absurdly emphasized. Under the most favorable agreement conceivable with Russia, that country would not be able to make any important contribution to Europe for several years. An agreement with Russia when obtained will for a long time only furnish an opportunity to send goods on credit. Little or no Russian production can be returned in exchange for several years."

PLAGUE OF LOCUSTS HITS SOUTH RUSSIA

MOSCOW, May 18.—(By the Associated Press)—A plague of locusts, promising greater destruction than that of last year, has developed in the Caucasus, Baku, Kuban and the Crimea. It is a serious blow to South Russia's hopes for successful crops and the peasants have mobilized to fight the pest, with gasoline. Airplanes have been used to drop poisonous bombs in the breeding areas.

Part of the equipment of the Cincinnati fire department is an immense coffee pot on an automobile from which hot coffee is constantly served to the firemen.

King Louis XIII of France adopted a title containing 13 letters, and always chose the 13th of the month for taking any important step.

Vermont Auditor Reports Shortage

BURLINGTON Vt., May 18.—A shortage in the appropriations for the department of administration and justice of the state of Vermont was made today by State Auditor Benjamin Gates, who, in a statement, declared that no salaries for the months of May and June of this year could be paid until July 1, when the appropriation for the next fiscal year would become available. About \$35,000 of next year's money will be necessary to make up the deficit. The cause of the shortage is ascribed to the large increase in state expenses.

The Store of Absolute Satisfaction

Warns Against Use of German Electric Irons

(Lowell Sun, May 16, 1922)

A warning was issued today by Chief Edward F. Saunders of the fire department against the use of electric irons of inferior grade recently received in this country from Germany.

These irons are of such flimsy and unsatisfactory construction that their use is hazardous in the extreme, according to the chief, and their use is a constant menace.

"Not long ago," Chief Saunders said today, "a shipment of 10,000 German-made electric irons was unloaded at New York, according to information I have received from the national board of fire underwriters. The irons were purchased abroad at a low price and are being retailed for \$1 apiece through stores handling cheap merchandise of various kinds."

"The irons are not accompanied by stands, which introduces an additional hazard. It is the irons themselves, however, that present the chief danger. They are flimsily constructed and since their period of service is extremely brief, they are expensive at any price. The flexible cord attached to them is sub-standard, being No. 32 gauge, whereas No. 18 is prescribed by underwriters as a minimum requirement. Furthermore, the insulation is inferior and will not stand much usage. The plug is of a wooden type, long ago discarded in the United States."

"An engineer who tested four of these irons found that not one lasted long enough to undergo the complete tests, which it was planned to carry out, the heating element breaking down in from three to 25 minutes. The nice insulation in the interior of the irons is in small pieces and insufficient to prevent contact with some parts of the appliance."

"In two of the irons there were short circuits due to the poor assembly, which resulted in the blowing of fuses on the circuit employed. Owing to the scant insulation, there is considerable likelihood of shock when the irons are employed in the neighborhood of plumbing fixtures."

"From this data it is evident that the irons not only introduce a serious danger into the homes where they have been brought, but that they also represent a complete waste of money. I want to warn the public the three German devices and irons to the approved makes of American iron."

We heartily approve Chief Saunders in his warning to the public of Lowell against a certain type of German-made electric flatiron, and we believe that the chief of the fire department could have gone a step farther by condemning other makes of electrical goods that are being manufactured in foreign countries and that are now flooding the American market.

We carry a full line of electrical appliances and supplies, but there is not one article on display at our store or in our immense stock in our store-rooms that does not bear the trade-mark of an American concern. That is one of the reasons our "satisfaction or money back" guarantee goes with every article that leaves our store. We believe in handling nothing but goods made in America, for our ambition is to serve the public and serve it right.

We carry an extensive line of electric flatirons that are up to the standard, having passed the test of expert engineers, and we guarantee every iron for quality, service and durability.

HOUSE WIRING IS OUR SPECIALTY

We have carried out our part of the 100 house-wiring contracts taken in during our last campaign, and we are soon to start another campaign that will open the eyes of the public of Lowell. Watch for our advertisements on HOUSE WIRING.

DENIAL BY MINISTER

Not Unfrosted, But Removed
Because of Campaign
Against Vice, He Says

DENVER, Colo., May 18.—The Rev. O. C. Richmond, former minister of the Episcopal church in this city, today denied the published statement that he had been unfrosted by Bishop Thomas of the Episcopal church in Wyoming.

In speaking of the happenings before he left Evanston, Wyo., Mr. Richmond said that he had been so active in reform work and in fighting the liquor and gambling interests that he had been assaulted and mobbed and that he had been requested to give up his parish by these interests and to leave Evanston. He also said that because of his work and bitter utterances against the violations of the law, Bishop Thomas finally had requested him to give up his church at Evanston.

"There is a great difference between being unfrosted and vacating a pastorate," he declared.

"I was removed from the pastorate because of the strength of the fight that I put into my campaign against vice. I know of no place where it has even been considered a sin for a minister to fight the vices of drinking and gambling."

Mr. Richmond said he had come to Denver with the intention of making his home here.

NATURALIZATION CLASS

There was a large attendance at the naturalization class conducted in St. Joseph's college hall in Merriam street last evening under the auspices of the naturalization committee of this city. David A. Parthenakis, president of the committee, was in charge of the class and after the regular instructions he informed his "pupils" that classes will be conducted once a week until after the examinations, which will determine whether or not the aspirants are fit to become full-fledged citizens of this country and this may be several weeks. The committee is doing excellent work in the naturalization movement and President Parthenakis stated that very few of those who attend the classes are refused citizenship by the court, for as a rule a candidate is not permitted to file his papers with the court unless he is well posted and ready to answer any and all questions when put through the final test. The committee is composed of representatives of the C.M.A.C., Cincinnati Social club, Pawtucketville Social club and Citizens-American club.

A Douglas fir tree cut in British Columbia was found to be 420 years old.

MUTILATION OF CARDS
ON MAIL BOXES

Acting Postmaster Xavier A. Dellis, in a written communication to Supl. Winfred C. Macfarlane, of the police department, has requested the co-operation of the local police in aiding the postal authorities in their drive against the reported mutilation and disturbance of time cards on mail boxes. This is evidently the work of children who do not realize the inconvenience resulting from their misdeed, as well as the embarrassment recorded by the postal officials from the repeated calls for replacement of the cards.

WHOLESALE PRICES

WASHINGTON, May 18.—The average level of wholesale commodity prices in April showed practically no change from March, according to a report today by the bureau of labor statistics of the department of labor.

Prices of foodstuffs and clothing showed a decrease of less than one per cent, from March, as did building materials, home furnishings goods and commodities of fuel and lighting materials. These were offset in the general level, however, by an increase of slightly more than 2 per cent in the wholesale prices of metal and metal products.

SALVATION ARMY DRIVE

The executive committee and prospective collectors of the coming Salvation Army drive will meet Friday evening in the rooms of the chamber of commerce, where final plans and details for the drive will be discussed.

BETTER CAR SERVICE

Commutors on the North Billerica division of the street railway will be pleased to learn of the additional cars that have been placed on this line. Extra cars will precede those on the regular schedule at 4.37, 5.07 and 5.37.

Take 16 Bodies From Ruins

Continued
midnight in the laundry. At first it seemed insignificant, but it spread rapidly to the neighboring wards, each containing 30 chronic sufferers or in-patients, who were seized with panic.

Nurses and doctors quickly cleared the bed-ridden from one ward and in the next ward, three of the patients crawled out. Neighboring firemen rushed to the scene, but at their arrival the electricity was extinguished, adding to the horror.

As the immense wooden beams of the hospital fell, there was a heavy grinding noise and the pavement collapsed, burying 20 of the chronic patients and making access to the wards impossible.

Carabinieri, royal guards, nurses and doctors made heroic efforts to save the unfortunates, rushing through the smoke and fire and bringing out 12, all of whom, however, were dead from suffocation. Several of the rescue parties were injured. The two wards were destroyed but the firemen succeeded in saving the rest of the buildings.

The mayor and the prefect hurried to the scene and assisted in calming the terror-stricken patients who were saved, and who lay on the floors waiting to be moved to the surrounding institutions.

Sixteen bodies already have been recovered. Four other patients were badly burned, and one dangerously injured.

The hospital of Santo Spirito is situated on the bank of the River Tiber, not far from the Vatican grounds. It was founded by Pope Innocent III. in the 12th century, enlarged by Innocent IV. in the next, and rebuilt under Sixtus IV. in the 15th century.

The altar in the hospital chapel was designed by Andrea Palladio, and is reputed to be the only work of this artist in Rome.

Flash make good "film performers" when properly trained.

OUR BOARDING HOUSE

THE MAJOR IS GOING TO BOTTLE THE LAWN.

Horatio Bottomley on Trial in London

LONDON, May 18.—(By the Associated Press)—The Old Bailey was packed today when the trial of Horatio Bottomley, member of parliament and former publisher of John Bull, was begun on charges of fraudulently converting funds of the Victory Bond club, a war-time organization of which he was the founder and president. Mr. Bottomley, who is his own attorney, pleaded not guilty. The jury included two women.

FOR A CONSTIPATED CHILD

A small dose of Dr. Caldwell's Syrup Pepsin will bring quick relief.

MOTHER, when one of the children is constipated are you going to give the first laxative within reach? It is dangerous to do so. Some have been known to rupture the intestines of little children. Don't be beguiled by the outside sugary appearance. Look into the formula. Calomel is seldom necessary; salts, minerals, coal tar, never!

Unlike these, Dr. Caldwell's Syrup Pepsin is admirable for children, as it is for grown people, too. Mothers have been giving it to children for 30 years. They know it does not gripe, and is free from narcotics. The formula is on every package, and you can see it is vegetable, just a combination of Egyptian Senna and other laxative herbs with pepsin. Use it yourself and you

will find it is not necessary to take it every day, nor to increase the dose, and that it is pleasant to the taste. Bottles can be had at all drug stores, and the cost is only about a cent a dose. Have no hesitancy giving it to a baby in arms. It is absolutely safe.

Half-Ounce Bottle Free

Few escape constipation, so even if you do not require a laxative at this moment, let me send you a Half-Ounce Trial Bottle of my Syrup Pepsin FREE OF CHARGE so that you will have it handy when needed. Simply send your name and address to Dr. W. B. Caldwell, 514 Washington St., Monticello, Ill. Write me today.

DON'T FORGET TO BRING

ROOM MEASURES

When you come to buy. To insure yourself against disappointment, we advise an early selection, then you take NO CHANCES.

59^c Sq. Yd.

Reg. Value 85c Yd.

100 PER CENT WATERPROOF

"Neponset" is not merely waterproof on top and bottom, but is guaranteed 100% waterproof all the way through. Water cannot fade the handsome "Neponset" colors—it will not dim the artistic "Neponset" patterns—neither will water soak in and injure it in any way. Once you put this famous floor covering down, it's bound to please and last for years.

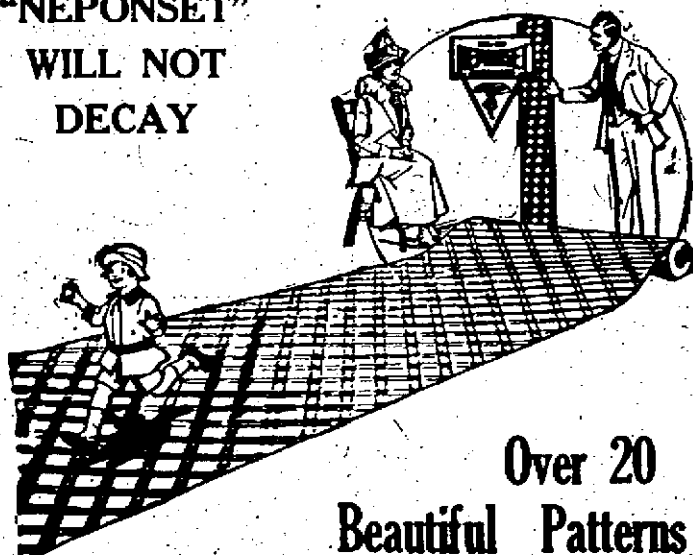

OVER TWENTY BEAUTIFUL PATTERNS

The newest and most desirable produced are in this immense quantity of 3000 yards we have purchased for this great sale. Many of them just off the press. There are Wood, Tile, Matting, Block, and Allover Designs, in strikingly clear color combinations. In fact a design and color suitable for every room in the house. Patterns that you will be proud to have on your floors.

"NEPONSET" WILL NOT DECAY

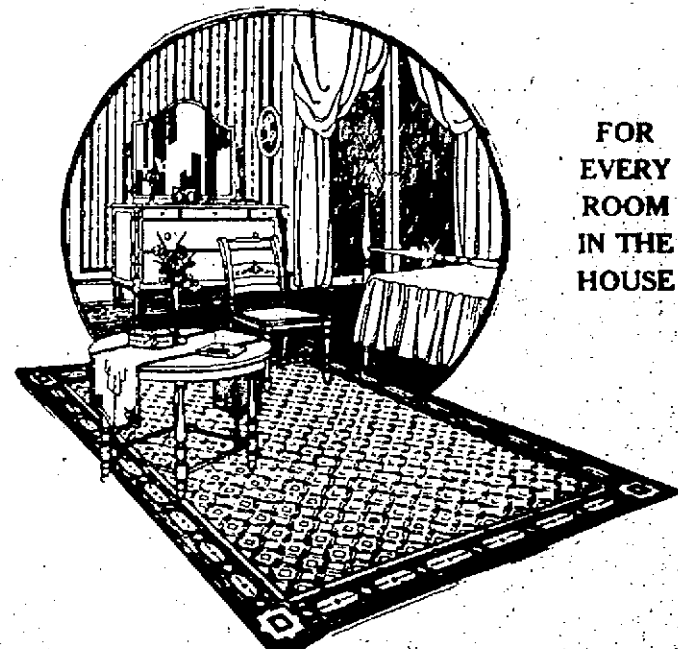

Because it is 100% waterproof there need be no fear of it rotting or decaying, as most moderate priced floor coverings do. This we positively guarantee. It is thick, durable and absolutely sanitary, easily kept clean, and can be mopped as often as desired without the slightest injury. In all respects it is the one great modern floor covering for your home.

STEADY INCREASE IN PINCHOT LEAD

Wife Says it Was the Women Who Brought About "Victory"

Declares Women Vote Entirely on Principle—Spare Nothing to Land Right Man

PHILADELPHIA, May 18.—A steady increase in his lead of Attorney General George H. Alter for the republican nomination for governor of Pennsylvania was maintained today by Gifford Pinchot, former state forester, who was prominent in the progressive party movements led by Theodore Roosevelt in 1912 and 1914. Pinchot jumped into the lead early last night. With 426 districts missing, Pinchot early today had a lead of 759, an unofficial vote in the 759 districts, reporting giving him a total of 455,412 against 437,593 for Alter.

Alter, according to the unofficial returns, carried only seven of the 67 counties in the state, in addition to Philadelphia and Allegheny, the latter his home county.

Supporters of the attorney general have conceded Pinchot's nomination and estimates of his margin of victory run from 10,000 to 20,000.

Pinchot women's committees were organized in nearly all the larger cities and many of them toured the state in his behalf. Mrs. Pinchot, in a statement today, said it was the women who had brought about the "victory."

"One thing has been very noticeable," she said. "The women work entirely on principle. If they think a certain candidate the right one and a man who stands for the proper ideals, they will spare nothing to make him successful. The men cling to party and ties of friendship, but the women have proved by their

whole-hearted support that they believe in clean and honest government."

United States Senator George Wharton Pepper had a walkover in the only other contest in the republican party, defeating Congressman-at-large William J. Burke for the nomination for the unexpired term of the late Senator Penrose by a big majority. Returns from 6230 districts out of 7534 gave Pepper a majority of more than 211,000.

Four of the 30 republican members of the Pennsylvania congressional delegation apparently were defeated. Several women were nominated for the state legislature, to be voted for next November, both by republicans and democrats. Two women were nominated by the democrats for representatives in congress.

Latest Returns

PHILADELPHIA, May 18.—Returns from 7443 districts out of 7834 election districts in Pennsylvania in Tuesday's primary so far tabulated show a majority of 8027 for Gifford Pinchot for the republican gubernatorial nomination over Attorney-General George H. Alter.

With 321 districts missing, Pinchot's total was 456,986, and Alter's 438,955.

Opposition to Order Continued

That he does not hold that street lighting is either extraordinary or unforeseen and therefore, money for such an extension cannot be taken from the overlay surplus account. He adds that lighting extensions should have been in the minds of the councilors when the budget was passed. The opinion does not commit or touch upon the \$21,400 order, other than to approve of it.

The opinion states further that if a supplemental budget is voted by the council, the expenditure of \$1200 for lighting extension may be provided for therein.

President Patrick J. Bagley of the council said today that he will vigorously oppose the \$21,400 order at tonight's meeting on the grounds that it is not sound finance.

The question is bound to arise at the meeting and it will be asked by Councilor Frederick Sadler of ward 4, why a street lighting extension is not as "extraordinary and unforeseen" as the salary of a labor bureau registrar, or

money for the maintenance of the auditorium.

The council tonight will have before it for acceptance an order to accept and lay out Brookings street. As it has remained in the office of the city clerk for seven days it is now ready for final action.

Representatives of the school department and the high school building commission will be present at the meeting to discuss ways and means of making necessary repairs in the old high school building. No repair work to speak of has been done in the school for some time and considerable renovation is needed before the entire plant is open next fall.

STREET WORK DELAYED

Holdup in Asphalt and Asphaltic Concrete Upsets Street Work Plans

That the delay occurring in relation to the award of a contract for supplying the street department with sheet asphalt and asphaltic concrete has upset street work planned for this summer in no little degree, was the substance of a statement made today by City Engineer Stephen Kearney, when asked as to the probable time asphalt paving might be begun.

Further discussion of the contract will occur at a meeting of the board of public service set for late this afternoon, but whether or not final action is taken and the contract awarded either to the Plant Engineering company or the Framingham Construction company, at least five or six additional weeks will elapse before a mixing plant is installed and the contracting company is ready to begin the work of actually laying asphalt.

The city engineer had hoped to be able to get an early start this summer on three or four much needed asphalt jobs, such as Westford street, but inasmuch as nothing definite in regard to the contract has transpired, he has been forced to mark time and the result may be that the program originally planned will have to be curtailed.

The ideal condition in asphalt jobs

is to do the excavating work and the foundation at least a month before the asphalt is laid, for once a mixing plant gets under way the surface is laid very rapidly and, therefore, it is necessary that considerable of a head start should be given the men who do the excavating and build the foundation.

Conference Ends Tomorrow

Press)—Sir Edward Griff announced on behalf of the British delegation this afternoon that further advice had been received from the United States government that it did not seem likely the United States would participate in the Hague meeting at least until the scope of the meeting was better understood.

Asked to explain the British delegation's statement, Richard Washburn Child, the American ambassador, told the correspondent he had conferred with Foreign Minister Schooner of Italy, Prime Minister Lloyd George being present and had amplified the American position concerning the Hague meeting already explained. The object, said the ambassador, was more fully to explain the attitude of the United States, in order to make it clear beyond the possibility of a doubt.

May Again Invite United States

GENOA, May 18 (By the Associated Press).—Final ratification of the plans for a meeting of experts at the Hague to consider Russian questions was expected today at a meeting of the full political committee, which includes delegates of all the countries represented here. A plenary session of the conference will be held tomorrow, after which adjournment probably will be taken.

The process verbal providing for dual commissions at the Hague after approval today will be sent to the United States government, probably with a letter again extending an invitation for American participation. Amendments would make the preliminary part of a meeting of the eight republics allied with Russia, thus extending the scope of the truce to Asia in that it would include the far eastern republics.

Those who predicted big immediate achievement here in the way of results.

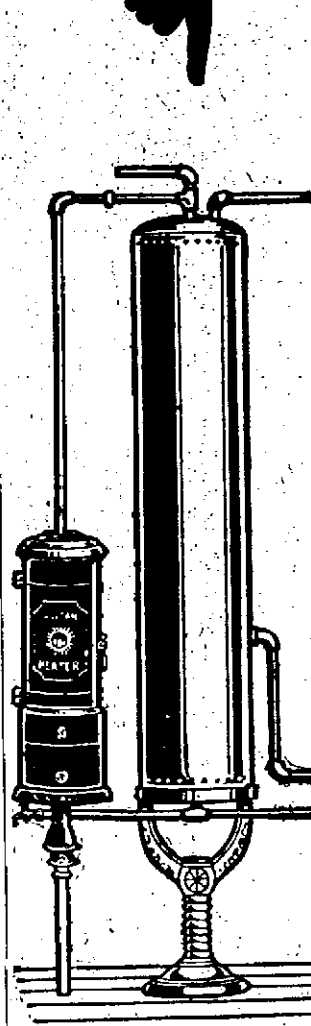

SEARCH FOR SLAYER OF AGED MANCHESTER MAN

MANCHESTER, N. H., May 18.—Abraham Ramadani, 78, died early this morning from the effects of two shots fired into his breast by Hassan Ibrahim, proprietor of a Turkish corset house in this city, while the aged man was sipping coffee in his establishment. Police are still conducting a search for Hardin, who walked out of the back door of the building immediately after the shooting.

No motive has been established for the shooting. According to the story Ramadani told his friends as he lay on his deathbed in a local hospital, he had always considered Hardin his friend. There had been no quarrel over money between them, he said. A police dragnet has been spread over all New Hampshire and into Lawrence and Haverhill, Mass., in order to prevent Hardin's escape.

You Can Do It Better With Gas

Lowell Gas Users Know a Real Bargain

Ten days ago, we announced a sale of Vulcan Water Heaters at a greatly reduced price. The response was immediate. Our appliance store has indeed been a busy place every day.

We are offering just 500 Heaters at the reduction and they are going rapidly.

VULCAN WATER HEATER SET
UP IN YOUR HOME FOR **75c**

(Balance in small monthly payments)

We furnish and install the Heater in your home, complete, ready for use—including gas piping, water piping, flue connection—and you enjoy its many conveniences while paying for it.

Delays are dangerous. Do not wait too long if you want real convenience in your home.

Act Now and Procure One of These Vulcans at a Price That Will Not Be Duplicated for Some Time to Come.

FULLER FOR GOVERNOR IF ALLEN RUNS

BOSTON, May 18.—When Attorney General J. Weston Allen makes formal announcement of his candidacy for the republican nomination for governor against Gov. Cox, probably within the next few weeks, Lieutenant Governor T. Fuller is expected to declare himself a candidate for the same office.

The unwillingness of Fuller to wait around in the office of Lieutenant Governor for four more years, until Allen would have completed his second term, if elected, is responsible for the decision which friends of Fuller say he has reached.

The only possibility of averting the Fuller candidacy, when Allen shies his hat formally into the ring, is that the attorney-general shall make a solemn public announcement that he will be a candidate for only one term.

Those who are supposed to be close to Atty. Gen. Allen are confident that he will make this announcement soon and that he will not consent to any limitations upon his style of campaign or the number of terms he will seek.

Handcuffing both Allen and Fuller, in their political campaigns, has received the nucleus of their strength from what political leaders are accustomed to call the "church vote," the entry of both men would complicate the already much-muddled situation to such an extent that no one would attempt to figure the result in advance.

Fuller's position to date has been that he will seek re-nomination and re-election as lieutenant-governor. He

has taken the ground that Gov. Cox is entitled to a second term and is ready to wait until two more years have elapsed before urging his own gubernatorial ambitions.

But the office of lieutenant-governor is not attractive to Fuller. He is not inclined to sit in the little office in the rear of the executive suite a few hours each week for four years while Atty. Gen. Allen or anybody else runs away with the highest political honors in the state.

Having taken the position that he will support Gov. Cox for re-election, Fuller is likely to be consistent and express his willingness to wait that length of time, which may happen in the republican primaries next September. Therefore, if Allen wants to try to be governor and is willing, before making the try, to declare in public his intention not to seek a re-nomination and re-election in 1924, Fuller will probably continue as a candidate for lieutenant-governor.

RECEPTION AND BALL BY MISS PERRIN

The annual reception and ball given by Miss L. B. Perrin to her pupils in the evening at the Association hall was one of the prettiest and most enjoyable parties of the season. Throughout the costumes were beautiful in design and colorings and the fancy dances were exceptionally well executed under Miss Perrin's direction.

A grand march was led by Raymond McKoon and Miss Harriet Flannery; Raymond Hieard and Miss Estelle Miller and Leslie Rawling and Miss Florence Chippondale. A long fancy dance program was followed by general dancing that continued until midnight. The evening was enjoyed by Mrs. E. W. Chippondale, Mrs. H. T. Hadley, Mrs. M. H. Eyrin, Mrs. J. W. McKoon, Mrs. P. Rawling, Mrs. E. J. Theray, Mrs. S. C. Brissett and Mrs. W. S. Bean. The ushers were Raymond McKoon, Paul Sullivan, Thomas McShane, Francis McFarlane, Raymond Hieard, Walter Murray, Earl Brissett and Milton Hadley. Master Eugene Saunders and Master Robert Murray were flower pages.

KING AND QUEEN AT DAUGHTER'S BEDSIDE

ATHENS, May 18.—King Ferdinand and Queen Marie of Rumania have arrived at the bedside of their daughter, Princess Elizabeth, wife of Crown Prince George, who is seriously ill. The princess is reported as slightly improved.

SPECIAL TOWN MEETING

A special town meeting for the voters of Chelmsford will be held this evening in the Centre town hall. The warrant contains 18 articles and the amount asked for in the various articles is about \$15,000. Some of the articles are as follows: \$2400 for the Vocational school; \$5000 for the Groton road work; the purchase of a truck for the highway department; \$1200 for gravel for raising the grade of car tracks at West Chelmsford; to take action on the erection of a granite monument on the common at North Chelmsford in memory of the men who gave their lives in the world war. Trucks will bring the voters to the Centre, leaving West Chelmsford and Woods Corner at 7.15, then via North Chelmsford to the Centre. A truck will also leave East and South Chelmsford at 7.45.

A PRETTY COMPLEXION

If the complexion is clear, soft and smooth, free from all skin discolorations such as freckles, tan and brown blotches, you possess the most valuable asset of beauty. You should, therefore, strive to retain this charm by giving the skin daily attention and care.

Beauty Bleach has been used successfully by those who wish to keep the skin in perfect condition. This cold cream skin beautifier will not injure the most delicate skin texture nor will it grow hair. At all toilet counters 50c the jar.

Clip and mail this to Plough, Memphis, Tenn., for complimentary Beauty and Dream Readings.

SUMMER CAMP FOR SUBNORMAL CHILDREN

Dr. Francis A. Finnegan, director of hygiene in the public schools, met with the Lowell Tuberculosis council this afternoon at chamber of commerce headquarters, at 4 o'clock, relative to the project of establishing a summer camp for physically subnormal children. The meeting was merely for the purpose of discussing the matter with no view of taking definite action.

It is felt by Dr. Finnegan and members of the tuberculosis council that such a camp would be very desirable, and would do the young unfortunate a world of good, probably restoring them to perfect health. The proposition must be thoroughly investigated however, before definite action can be taken.

Death Valley, Cal., now produces 20,000,000 pounds of talcum powder a year.

Long Distance Love Upsets V. V.'s Honeymoon with Heiress

MRS. LIOUBOFF MOUROMSKY, VONSIATSKY, WHO CLAIMS TO BE THE LEGAL WIFE OF ANASTASE VONSIATSKY-VONSIATSKOY (BELOW), WHO RECENTLY MARRIED THE FORMER MRS. MARION DEAM STEPHENS, CHICAGO HEIRESS (LOWER LEFT).

By N.E.A. Service
PHILADELPHIA, May 18.—Long distance love has stirred up a lot of trouble for "V. V."
A wife in Philadelphia and another in Paris—the says she's his wife—are just one too many to suit the Russian Orthodox church.
Burning love letters and a marriage license written in Russian have been turned over to the authorities to prove that Anastase Vonsiatzky-Vonsiatzky's legal wife isn't Mrs. Marion Deam Stephens V. V., the Chicago heiress to \$10,000,000 whom he married in New York a few months ago.
The claimant is Mrs. Liouboff Mouromsky Vonsiatzky, now in Paris.
She married V. V. when he was an anti-Bolshevik officer in Yalta, Crimea, in 1920, according to the docu-

ments she turned over to the American embassy in Paris.
"We have received a certified copy of the marriage license issued at Yalta," said Father Lisakovsky, secretary of the consistory of the Russian Orthodox church, New York.
It is intimated that V. V.'s marriage to Mrs. Stephens will be declared void by the church without waiting for a cablegram from Father Vladimirsky, the priest who is said to have married V. V. to the Russian girl.
The latter produced in Paris some passionate love letters beginning "My darling beloved wife," "My adored child," and "My little Liouboff." She claims V. V. wrote these letters to her from here last year.
V. V.'s wedding to Mrs. Stephens created a stir in society last winter. The Chicago widow in some years his senior and in spite of her great wealth went to live with him in a cottage at Ridley Park, driving him to and from his work in the Baldwin Locomotive Works.

Conference Ends Tomorrow

Continued
storing Russia and Europe, point, in addition to the Hague conference, to the forthcoming meetings of international bankers and banks of issue at Paris and London and the preliminary non-aggression pact as notable victories.

Moreover, they maintain that great moral good has been accomplished for Europe by the assembly and intercommunion here of representatives of 32 nations, the greatest reunion in its way in the history of Europe.

The real nature of Europe's problems has been determined and the first

contact has occurred between the upholders of the communistic doctrine of soviet Russia and the believers in the long-established economic system prevailing in the other countries.

A road has been 'cut,' it is believed, for further useful conferences of the European peoples, perhaps in conjunction with the Americans, whereby the economic reconstruction of the world may be achieved and international disputes settled by congresses instead of by cannon.

WASHINGTON, May 18.—Any question of the recognition by the United States of the Russian soviet government lies beyond the time when restoration of productivity in Russia shall have been set in motion by that coun-

try itself, according to an authoritative and plainly spoken outline of the attitude of the American government obtained yesterday. Refusal to participate both in the Genoa conference and in the proposed commission for consideration of Russian affairs at the Hague, it was added, was based on the conviction that such a restoration could not be hoped for under the terms outlined in the Russian memorandum of May 11 at Genoa.

In the meantime, it was explained, the United States is ready to embark with other powers on any purely scientific investigation of conditions in Russia with a view to recommendations as to steps necessary before the commercial, financial and industrial revival of that country; but it will have no part in any such deliberations which even imply a recognition of the soviet regime and would thus tend to

perpetuate delusions among the Russian people.

Agreement For Truce

GENOA, May 18 (by the Associated Press).—The agreement for a truce, or temporary pact on non-aggression, decided upon by the political sub-commission of the Genoa conference, subject to final ratification by the full conference, contains six clauses—summarized as follows:

Clause I—Provides for the appointment of a commission by the powers to examine again the divergences existing between the soviet government and other governments, and with a view to meeting a Russian commission having the same mandate.

Clause II—Not later than June 20 the names of the powers represented on the non-Russian commission, and the names of the members of this commission will be transmitted to the soviet government and reciprocally the names of the members of the Russian commission will be communicated to the other governments.

Clause III—The questions to be treated by these commissions will comprise debts, private properties and credits.

Clause IV—The members of the two commissions must be at the Hague on June 25.

Clause V—The two commissions will strive to reach joint resolutions on the questions mentioned in Clause III.

Clause VI—To permit the commissions to work peacefully, and also to re-establish mutual confidence, the soviet government and its allied republics, on the one side, and the other governments on the other, pledge themselves to abstain from any act of aggression and subversive propaganda. The pledge of abstaining from any act of aggression will be based upon the present status quo, and will remain in force for a period of four months after the conclusion of the work of the commissions.

The pledge concerning propaganda will obligate the governments not to interfere in any way in the internal affairs of other states, and not to assist financially or by any other means political organizations in other countries and will obligate them to suppress in their territory "any attempt to commit acts of violence in other states or aiming to disturb the territorial or political status quo."

GOVERNMENT WILL BUILD NO MORE SHIPS

WASHINGTON, May 18.—The government will build no more ships, Chairman Lasker of the Shipping board declared in an address today before the convention of the chamber of commerce of the United States. President Harding has placed before congress a program of legislation that does now facing private operation of ships, is added, and unless that legislation is enacted the act of shipbuilding "in America will wither and die."

Mr. Lasker said that the proposed ship subsidy legislation "admittedly consisted of 'artificial means to meet the situation but it is only through the temporary use of artificial means that the situation can be permanently saved, and this administration declares its belief that the adoption of the program it proposes will save the situation and make America potent in its own rights on the seas.' America must have a merchant marine; it is parable with that of Great Britain, he said, if it is to have a naval power potentially equal to that of Great Britain.

"If all the naval ships in the world were scrapped," he declared, "Great Britain, through her preponderant merchant marine, would be more supreme on the seas than she could ever hope to be otherwise." Certain types of merchant ships are as essential to the operation of a navy in times of war as the capital ships of the navy itself. In these types America is sadly deficient compared with Great Britain at a ratio of almost 5 to 1 in favor of the latter. And there can be no thought or hope of the United States keeping a naval parity with Great Britain unless we create merchant marine power to equalize this difference.

Mr. Lasker said his experience as chairman of the Shipping board had convinced him that government ownership or operation of ships "is a poison ivy in the garden of industry."

THE BOSTON GLOBE

Arrange to have the Boston Sunday Globe in your home regularly. Make sure of your copy of next Sunday's Globe by ordering the paper in advance from your newsdealer or newsboy.

The children want the invisible color pictures in the Sunday Globe comic supplement.

All the family will enjoy the stories in the Boston Sunday Globe magazine.

KILLS HIMSELF AFTER CHATS WITH REX BEACH FIRING AT TRIO ABOUT OUT-OF-DOORS

ASHLAND, N. H., May 18.—After having fired at his wife, his mother-in-law and his brother-in-law, George Ellis, a farmer who resided two miles from the village of Wentworth, near here, at his rifle on a stump with the muzzle at his heart and pulled the trigger. His body was found today by neighbors.

While suffering temporarily from insanity, it was said, Ellis Tuesday attempted to shoot his wife, his mother-in-law, Mrs. Edward Ramsdell, struck down the muzzle of the rifle and the bullet went wide. The angered man then fired at his mother-in-law, wounding her slightly in the hand. Kenneth Ramsdell, Mrs. Ellis' brother, fled from the house and Ellis fired at him, but missed.

Ellis then ran to the woods at the back of his farm and shot himself to death. He is survived by his widow and four children.

HOW TO GAIN STRENGTH

"I was always tired and nervous," says Mrs. Fred Lane, of No. 17 Ann street, Oneonta, N. Y., "and suffered from severe headaches and dizzy spells. I had no appetite and my digestion was so weak that what little I did eat caused me distress. I was very thin and pale and my hands were always cold. At times I would have spells when I seemed to be numb all over. I had no ambition and all my friends remarked how drawn and pale I looked.

"One day I read about Dr. Williams' Pink Pills and within two weeks after I began taking them I could see a decided improvement in my condition. I have gained greatly in weight and strength, my color is good and I have a good appetite and digestion. I am not nervous and the headaches are all gone. I know that Dr. Williams' Pink Pills did me lots of good and I am glad to recommend them."

Your own druggist sells Dr. Williams' Pink Pills. Price 50 cents.—Adv.

ENTERTAINMENT AT HIGHLAND CHURCH

The "One-Bellers," a group of young people of the Highland Congregational church, presented the three-act comedy, "A Regiment of Two," in the church vestry last evening. The performance, under the direction of Donald Cheney, was very creditably given, each member of the cast performing in a manner most pleasing to the large audience. The cast: Lena, a German maid, Pauline Angier, Arthur Sewall, a theatrical warrior, Karl Marshall, Grace Sewall, his wife, Helen Sawyer, Ira Wilson, his father-in-law, David Lamberston, Cornelius Murphy, a plumber, Harry Brentworth, Arthur's friend, Henry Ryder, Laura Wilcox, daughter of Ira, Eliza Wilson, Ira's sister-in-law, Virginia Sargent, Reginald Dudley, an English fortune hunter, James Moore, Jim Brown, known as the "Parson," Elliot MacLean.

Before the play and between the acts Mr. Karl Marshall and Mr. William Ellis, entertained with selections from the piano and violin, respectively, the latter being accompanied by Miss Clara Fenton.

URGES STRIKE OF AUTOISTS

DANIELSON, Conn., May 18.—John B. Bessett of this city has an idea that should appeal to thousands of automobilists, whether they have the courage to adopt it or no. The idea is a state-wide, nation-wide if possible, strike of motorists against the steady advancing retail price of gasoline.

It is all very simple. Put your car in the garage and leave it there for a month. If that does not bring results, leave it there for another month. If the upward of \$5,000,000 pleasure car owners in the United States would do this for 30 to 60 days, Bessett believes that a real cut would be made in the present retail price of gasoline, of which there is a record amount in reserve—upward of 85,000,000 gallons.

TEXTILE ABANDONS UPSTREAM DAY

"Upstream day," heretofore an annual event on the student calendar at the Lowell Textile school, has been abandoned this year by a vote of the student body taken this week. The observance, carried out for many years, was scheduled to be held today.

WHIST PARTY AND DANCE AT GIRLS' CITY CLUB

The Ladies of Charity of St. John's hospital, an organization which has conducted many beautiful and elaborate events for the institution's benefit for a number of years, held a very successful and enjoyable whist party and dance at the quarters of the Girls' City club last evening with about 400 in attendance.

About 100 tables of whist started play shortly after 8 o'clock with Patrick Kane assisting the whist committee and Dr. Joseph Jantzen was floor director of the dances which concluded the evening's entertainment.

The prize winners in the whist competition were as follows:

Women's first prize, a silk umbrella donated by the A. G. Pollard store, Miss Rose Gosselin; second, needlework donated by Alice Faneuf, won by Mrs. J. A. Foley; third, a vase donated by the Bon Marche, won by Miss Maria Markham; fourth, cut glass donated by Miss Harriett Hamblett, won by Miss Doris Handley; fifth, cuffs and collar set, donated by Miss Whiffred Haggerty, won by Mrs. J. J. Campbell; sixth, a picture donated by Miss Mary Sharkey, won by Mrs. J. J. Walsh, and consolation, Mrs. Hugh McCosker, Men's first, a smoking set donated by the Gagnon Co., Paul Foley; second, a box of cigars donated by the United Cigar Stores, Jeremiah Connors, and third, a box of cigars donated by Sister Mary Claire, won by V. T. McCarthy.

A drawing for three prizes followed the whist tournament, with the following result: First, a pocketbook donated by the Devine store, won by Miss M. Hanley, Girls' club; second prize, rosary beads donated by Arthur D. Prince, won by Miss M. Leonard, 181 Pleasant street, and third, a valuable pin donated by Henry P. Reaney, won by Miss Christine Lowney, 86 Sherman street.

General dancing followed the drawing. The committee on arrangements, to which all credit is due for the affair's success, follows: Chairman, Mrs. Gerald Cahill, Mrs. James H. Flood, Mrs. Richard S. Donoghue, Mrs. George Barrie, Mrs. Daniel Henry, Mrs. Hugh Mullon and Mrs. Martin Maher. The following also co-operated with the committee in making the affair a success: Lowell Aerle of Baglow, Lowell Knights of Columbus, League of Catholic Women, Mrs. Elias McQuade, Frank Ricard and James McKenna.

EASY TO WEAR IN RESTFUL HOURS

CORINNE GRIFFITH

For her restful hours Corinne Griffith, Vitagraph star, selects a Chinese suit of old blue, profusely decorated with Oriental embroidery in vivid colors. Chinese alippers, also embroidered, complete the costume.

Was Corinne ever more charming to behold?

The tune, "Marching Through Georgia" is the national anthem of Cambodia, the French protectorate lying west of Indo-China.

CHELMSPORD NEWS

Mrs. Eben T. Adams entertained the ladies of the Chelmsford Centre Congregational society at her home on the North road yesterday afternoon. A brief business meeting was held during which the name of the organization was changed to "The Women's Association of the Central Congrega-

tional Church." A social hour was enjoyed during which entertainment was given and luncheon was served, the hostess being assisted by Mrs. Ralph P. Adams, Mrs. Kirkely, Mrs. Walter Bullock and Mrs. William E. Adams.

Japan has 117 pencil factories.

GREENS DRUG STORE

Third Great Week-End Special

TODAY AND SATURDAY

To prove to you what they will do

For Women Who Are Too Thin

For Men Who Are Run-Down and Emaciated

For Everyone Who Desires to Gain Greater Strength, Energy and Endurance

A regular \$1.00 package of Genuine Yeast Vitamine Tablets Absolutely free with every package of Nuxated Iron Tablets

IMPORTANT NOTICE:—Don't take Vitamines unless you want to increase your weight. Vitamine Tablets (one of the most remarkable scientific discoveries of recent years) are simply wonderful for women who are scrawny and angular in appearance and men who are thin and emaciated and everyone who wants something to help increase weight and put on flesh.

Where it is simply desired to gain greater strength, energy, and endurance and increase the firmness of your flesh and tissues, we recommend that you take Nuxated Iron only. By helping to create millions of new red blood corpuscles, Nuxated Iron greatly helps weak, nervous and run-down people often in two weeks' time.

Call at once for your free \$1.00 package of Genuine Yeast Vitamine Tablets together with bottle of Nuxated Iron.

Here are the Prize Winners in the Orange-CRUSH Picture-naming Contest

BELOW are listed the names of those who sent in prize-winning titles for the Orange-Crush Picture, reproduced above. The prizes were awarded by a committee selected from well-known citizens of this community. The contest was a great success. Many splendid suggestions were received, and our only regret is that we could not give a prize to everybody who entered the Contest. It was a real task to carefully examine the great number of good titles submitted and then to decide which were entitled to prizes. To all who favored us with suggestions we express our hearty thanks and appreciation. We ask that you continue your interest in Orange-Crush, Lemon-Crush and Lime-Crush; and for our part we pledge that the quality, purity and deliciousness of these drinks will always be maintained. Following are the winners:

- | | |
|-----------------------------|---------------------------------|
| 1st—Mrs. Margaret Widlund | 63 South Whipple St., Lowell |
| 2nd—Mrs. D. J. Sullivan | 10 Lilley Ave., Lowell |
| 3rd—Mrs. George H. Keene | 736 Andover St., Lowell |
| 4th—Miss E. Florence Ross | 65 Lundberg St., Lowell |
| 5th—Miss Mabel E. Shaw | 34 O'Connell St., Lowell |
| 6th—Miss Fannie Howarth | 30 Mill St., Collinsville |
| 7th—Mrs. George Latham | 357 High St., Lowell |
| 8th—Miss Isabel Sargent | 224 First St., Lowell |

BRITISH MINISTRY THREATENED

Theoretically the Lloyd George administration stands defeated, because it lost a measure by a slight majority—161-148—on a division. As the matter under consideration was comparatively unimportant, the premier will probably not resign although it is usual for the government on meeting an adverse vote to resign and appeal to the country.

It is not at all likely that the present premier will resign. For this there are several reasons. In the first place, the issue was of minor importance, being a question as to whether teachers should contribute to the superannuation fund, a matter that did not come forward as a party issue. Next, the premier is bitterly opposed by the Northcliffe press, and for that reason he will not retire if he can overcome the opposition and hold on. Furthermore, he is still deeply involved in European politics with plans for restoring normalcy, and no other man in England could fill his place in this respect. When he returns from Geneva, he can appeal to parliament for a vote of confidence as he did on several occasions in the past, and with full assurance that he will be sustained.

The present premier has smashed many conventional rules since he came into power and if he were a less tactful man he might resign; but he is not in the habit of retiring under fire if he can stand his ground and defend his position. If he resigned, the king would probably form a new ministry, as a general election at this time would be a needless waste of money and a great injury to the country. But in such a case should the king refuse to form a ministry, then the issue would go to the people and a general election would result.

Despite the logging at the Genoa conference and our early decision not to take any part in the League proceedings, it is now quite likely that we shall take a hand in dealing with Russia. But it will be apart from anything like the Genoa conference and will not countenance any form of recognition.

CHILD SLAVERY

The decision of the supreme court of the United States overruling the child labor law will give the southern states an opportunity to utilize child labor to whatever extent they please. It is to be regretted that congress does not seem to have the power under the constitution to interfere in state affairs to the extent of preventing the form of child slavery that is carried on in most of the southern states.

Congress has tried to prevent child labor in two different ways, first by barring the products of such labor from admission to interstate commerce, and after that was declared illegal, a tax was imposed upon the products of child labor. This also having been declared unconstitutional, why is it not feasible for congress to come out without any equivocation and pass a law prohibiting the labor of children under fourteen years of age for more than eight hours a day in any part of the United States. It is in any part of this could be done under the constitution to prevent child slavery; and the manner in which children are exploited in the southern states would fully justify the charge that the children are subjected to a form of slavery which stunts their growth and thereby causes a form of deterioration in the future citizenship of those states.

One of the claims on which the mills of New England have the reputation of being that there is cheap labor and long working hours in the textile factories of the south. It does not seem reasonable that mills employing the skilled help of New England should fear such competition. Of course, there are cheap and unskilled operatives in New England available to any mill that wants to employ them.

ELECTING U. S. SENATORS

Senator Pomeroy of Ohio has introduced a bill in congress, the purpose of which is to limit the expenses of candidates for the United States senate; but objection has been raised that it is not the business of the senate to dictate how such elections shall be conducted; but merely to pass upon the legality of the elections after the result is announced. It will be remembered that the supreme court of the United States ruled that the Corrupt Practices act does not limit the expenses of senatorial candidates in the primaries for the reason that there were no primaries for senators when the law was passed. Nevertheless, several of the senators expressed the opinion that the law should be perfected so that it would apply to senators as well as other officials. That is the view of Senator Pomeroy and various others. Attorney General Daugherty has given out the opinion that there is no law to compel senators to make a report of their expenditures. The states have corrupt practices laws which apply to all candidates despite the contention of the attorney general that there is no law making it compulsory upon senators to report their election expenses.

There is not much probability of Senator Pomeroy's bill becoming law. The republicans would doubtless prefer to have these matters rest as they are, so that if any wealthy man puts out money as freely as did Newberry, he will be accorded equal immunity and success. If Newberry bought a seat in the senate, why not others?

RUINOUS CONFLICTS

As the coal strike has been in progress now for several weeks, and has thus far brought no serious trouble, it seems to be regarded as a matter of comparative unimportance. Already, however, we hear rumors of an increase in the price of coal and this

will be the ultimate effect of the strike despite any statements to the contrary. The fact that a strike of this kind affecting the entire country, can be carried on for months without government interference indicates to what an extent we are deficient in legal machinery to deal with such conflicts.

What is true of the coal strike is equally true in regard to the settlement of the textile strikers in New England, including that which has been in progress in Lowell for over three months. Despite the orderly conduct of the strikers, every appeal for a conference or for arbitration has been refused and the mills are seriously crippled or almost entirely idle while the operatives have to draw upon their own slender resources or else depend upon the weekly allowance contributed by their respective unions.

It would be difficult to conceive anything that would prove more beneficial to this country and all its industries than some equitable method of dealing with labor troubles and preserving industrial peace. These conflicts are ruinous to all concerned.

STREET WORK

Already, although the season is not far advanced, the work of the street department in repairing some of the main arteries of travel through our city, shows very satisfactory results. The repair gangs are kept busy where their presence is most needed. The boulevard, which was in wretched condition when the spring opened, has now been patched so that it presents a fairly even surface. Smith, Powell and Chelmsford streets were among the worst in Lowell but they are now fairly respectable. The department is working on outer Gorham street where breaks were numerous; and when that is finished the men will move to Andover and Rogers streets, on both of which extensive repairs are to be made. The first street job is moving gradually like some of the others; but judging from the progress made thus far, our public streets will be in fairly good shape by the end of the summer. The transformation by that time will stand in striking contrast with the dangerous condition of our leading streets in the early spring. Had the department in past years shown such activity and such visible results, there never would have been any talk of contract work.

COLOMBO

Some people in Spain now claim that "Colombo," the discoverer of America, was born on Spanish soil instead of Italy.

Ordóñez y Cardeñ (Spanish minister of justice, not a cigar) is investigating documents to this effect, recently found in Galicia.

It is a useless investigation. It doesn't make any difference where Colombo was born. What counts is that a Spanish queen had the intuitive sense to finance Colombo's trip westward over the Atlantic to prove that the earth was round, when long-bearded "scientists" thought it was flat.

When they asked her how she knew, she probably answered, "Because." She was so deeply impressed with Colombo's theory that she pawned her jewels to provide the necessary funds. After a few more centuries, perhaps some evidence will be dug up to show that Columbus never existed.

CRUELTY

A law, to curb trained animal acts and possibly prohibit them entirely, is being framed by the British parliament.

The idea back of the movement is a good one—that trained animal acts are based on cruelty and usually are without educational value.

As old circus men put it, "All that's necessary to train a wild animal is kindness and a red-hot iron."

If England passes the proposed law, she should hand a copy of it to the young prince of Wales, who recently butchered tigers and elephants in India. It may be sensible to kill man-eating tigers, but that was not his motive.

Purchasing Agent Foye raises the question of giving the asphalt contract to the Framingham company even now despite the litigation over the award. It is presumed that this would cause the litigation now before the courts to drop. It is a matter for the Public Service board to consider.

And now it is determined through a questionnaire that 75 per cent of the Tech senators have never kissed a girl. How the girls will rush to initiate those innocent boys in the osculatory art.

There is panic in the United States senate over the Pinchot victory in Pennsylvania. Even Lodge is alerted to proclaim that the tariff bill will not be put over.

It looks as if the republican machine in Pennsylvania has been smashed by a Pinchot truck and great is the consternation there among the administration cohorts.

Perhaps "Fussyfoot" Johnson in a brief campaign here could put a stop to the drinking of moonshine, something in which the police have failed.

Our Rotarians are a jolly bunch who devote their time largely to smoothing the path for their less fortunate fellow men.

There are men in Ireland, as in this country, who do not want the question settled even in Ireland's interests.

In the interests of economy all the collision insurance carried on the city autos should be cancelled.

We will have no soviet in ours.

SEEN AND HEARD

If you are one of those new Ad club members, get a motor hat. It is the only headgear allowed.

On second thought, however, perhaps it would be cheaper to pay the two-cent fine for a few days.

Real friendship is impossible without a great deal of overlooking on our part and on the part of the ones who unite their friendship with ours.

A Thought

The Lord is merciful and gracious, slow to anger and plenteous in mercy.

—Psalm 103:8

Fear the vengeance of God as much as thou mayest and this shall keep thee from sin; and when thou thinkest of His mercy, remember also His righteousness.—Lythgorn.

How Many Miles?

We overheard a bit of common sense handed out by a garage man. He was talking to a careless motorist who had complained that he wasn't getting good service from his car.

"Well," said the garage man, "there are only so many miles in a car. You can take 'em in a bunch or string 'em out. You're like a lot of people with their health. You're not wearing out your car; you're burning it up!"

No Doubt of It

A man called at a village postoffice for a registered letter which he knew would be awaiting him. The letter was there, but the clerk demurred at handing it over, as he had no means of identifying the caller. The caller took a photograph of himself from his pocket, remarking: "I think that ought to satisfy you as to whom I am." The clerk looked long and earnestly at the portrait and then said: "Yes, that's you, right enough. Here's your letter."

A Word a Day

Today's word is incongruous. It's pronounced in-con-groo-ous, with accent on the second syllable. It means—lacking in harmony, lacking in consistency, characterized by disagreement or lack of conformity. It comes from "Latin," in, not, and "congruous," similar. Companion word—Incongruity. It's used like this—"It seems incongruous for a father to chide his son for extravagance when the father himself is a spendthrift."

Hard to Hold

A stationmaster was suddenly alarmed by hearing a terrific crash on the platform.

Turning out of his office, he was just in time to see a train disappearing round the curve, while among a number of overturned milk cans at the extreme end of the platform there sprang a hatless and disheveled young man.

"What's the matter? Was he trying to catch the train?" asked the bewildered stationmaster of a small boy who was standing near by, gazing in wonderment.

"He did catch it," explained the boy, "but it got away again."

Excuse My Smoke

A travelling salesman had taken a large order in a certain Scottish town, and endeavored to press upon the local Scottish manager who had given him the order a box of Havana cigars.

"Now," said the manager, "Don't try to bribe a man. I canna tak' them."

"But will you not accept them as a present?"

"I canna," said the Scot.

"Well, then," said the salesman, "suppose I sell you the cigars for a nominal sum—say sixpence?"

"Well, in that case," replied the Scot, "since you press me, and not liking the refuse an offer well meant, I think I'll be taking two boxes!"

The Ruined Ocean

"Took in the end of the deep I lay me down in peace to sleep."

In peace to sleep? Alas, not so. For Science hring the radio, and the telegraph of oceanic cables, some messages from "friends" at home.

"Hello there, Bill! Been sensik yet? We phoned you to dinner at the office."

"Say, Bill, they've raised your office rent."

And swear they won't come down a cent.

"Hey, Bill, a storm is on the way! It's due to hit your ship today."

"Say, Bill, you thought you'd like to see your stocks have struck a record low."

"Say, Bill, we hear the plague is in Rome."

Your wife is worried; says come home."

"O, Bill, your house caught fire to-night."

Loss as yet unknown. Will write."

"And, Bill, they pinched your Scotch and eye."

Don't know. Perhaps the firemen did, Godby!"

Lay me down in peace to sleep. In peace to sleep? Alas, not so. For Science brings the radio.

ARTHUR H. FOLWELL.

ENJOYED SUPPER AND THE MOVIES

There was a large attendance at the supper and moving picture show conducted last evening in the vestry of the Unitarian church in Chelmsford Centre. The affair was given under the auspices of the Ladies' circle and in charge of the church; and was in honor of the following: Mrs. John Buckley, president of the Ladies' circle and alliance, had the general arrangements and the entertainment in charge. Mrs. H. D. MacDonald was in charge of the dining room, and Mrs. William E. Greig of the supper. Mrs. Karl M. Porham acted as cashier. Those in charge of the different dishes on the menu were as follows: Meats, Mrs. Catherine Smith, Mrs. Winslow; salads, Mrs. A. P. Gendle; the following ladies acted as waitresses: Mrs. P. W. Simpson, Miss Maud B. Parham, Mrs. C. A. Dane, Mrs. W. Emerson, Mrs. G. Leslie Putnam, Mrs. Frank E. McMaster, Miss Elizabeth F. Warren, Mrs. A. Louise Adams, Mrs. Fred A. McFarlane, Mrs. Leonard Nixford, Mrs. Victor L. Parkhurst, Mrs. William Baldwin, Mrs. Ross A. Hatch and Mrs. Frederic Tangley.

MAN ABOUT TOWN

Many who have been working about town for a while and dancing parties in the new Memorial auditorium must have been considerably enlightened by the recently published description of its interior. A story has been going the rounds throughout the past few months that all sets in the main auditorium were fixed, solidly to the floor, and that the only hall available for the dance would be Liberty hall. This hall itself, with a capacity of 300, would make a delightful setting for a small party such as the average small club undertakings, but the seats on the lower main floor of the lower auditorium are easily removable, and will afford a floor space of 48,000 square feet for the larger events of the season. I do not remember the exact size of the Liberty hall, but I do know that the hall used for balls and parties by the larger organizations at the present time is far smaller than the dancing space at the auditorium. The socials and fraternalities need worry no longer, therefore, as they need not be bothered with any further change will be made during the short time which will intervene before the formal opening.

Workmen engaged in repairing the roof of the postoffice have attracted much attention by the ease and unconcern with which they move about over the sloping inclines and even on the sides of the tower where a misstep would inevitably be fatal.

The new traffic officer in Merrimack square, John Kelly, has been named himself a worthy successor to the inflexible Ed. Connors, of whom it was often said that there was no finer traffic director in the United States. Officer McNulty has developed great skill in handling the long lines of automobiles, street cars and pedestrians who pass through the square during the rush hours, and a mishap occurring at that point would certainly be through failure to observe the officer's directions. Lowell is fortunate in that its great weight will have to be placed upon a substantial cement foundation, and the construction of these bases will take some time and labor. The lights, it is thought, will be a great improvement, as it is claimed they will flash 15 times a minute for six months without any adjustment, and at a very small cost. The locations chosen for these lights seem very appropriate, including High street, at the corner of East Merrimack, Merrimack square, Tower's corner and the junction of Lakeview and First and Bridge streets, and when they are installed ultimately there seems little doubt of their future value. One thing is certain, motorists who are in the habit of knocking down the red lamps used at the present time will have more care when these heavy beacons are in place.

In Maine, the operators of electric railway cars are adding kindness to courtesy for within one of her busy cities the other day a street car was partly dismantled to save a bull dog from death.

Operator Jabez Lano was running 313 when the small dog ran over the tracks and disappeared under the wire-fence, and between the motor, wheels, and the operator's legs, slipped the car. The dog could not move nor could the car, without killing him. For nearly an hour, a wrecking crew supervised by the city engineer worked to jack up the car while passengers and spectators cheered them on. It had to be lifted completely off the ground and its under parts dismantled. The dog was freed and trotted away unharmed after a brief but fervent bark of gratitude. The car, put out of commission for the day, was towed to a repair shop.

It was all for a dog, to be sure, but Operator Lano by his humanity, and the passengers by their acquiescence and encouragement, accomplished much in that one hour towards better relations between a public utility and the public.

Is the day close at hand when moving picture films will be broadcasted by wireless, enabling families to have the best movies right in their homes, on a steel pinned to the wall? Impossible, you say? Your ancestors said the same thing about the steam railroad, telephone, phonograph, movies, wireless and automobiles. The inventions were predicted by clairvoyant visionaries. C. Francis Jenkins has successfully made the first step toward radio movies. He exhibits photographs of images, which he transmitted by wireless during his experiments. This happens in the laboratory of the General Electric company, at Lynn, Mass., during the annual convention of the Society of Motion Picture Engineers.

Thirty-two years ago, Elisha Gray invented the teleautograph. This instrument reproduces handwriting and drawings at a distance, electricity doing the transmitting. Maybe you have seen telephone girls in big hotels use such a device, writing an order on a pad before them, while the writing is simultaneously duplicated by a machine in the kitchen.

This copying telegraph apparatus was expanded into a photograph-sender in 1906 by Carbondell, the Delatin, who had great success at telegraphing pictures by a system of reproducing dots of black, same as the tiny dots you see all over photographs in newspapers.

Telephotography is extremely complicated. But what its students have in mind has spread out among the people as a vague dream of an attachment by which you would look into a glass and see what the party was doing at the other end of the telephone wire.

An far back in 1910 Prof. A. Kern was lecturing in Vienna about the possibility of sending movies by wireless.

The complete returns of the census taken in England last year, will not be available until June, 1923.

SHIPLOAD OF JEWELS WORTH BUT \$1945

BOSTON, May 18.—The far-famed shipload of jewels brought over by Capt. Harry Waack of the steamer Muskegon, from starving Russia, where it is alleged they were bought for a small cargo of spoiled potatoes, have passed under the cold, critical eyes of the government appraisers, who now place the value of the entire lot, furniture included, at \$1945, and, with the customs duties added, the total amount is but \$1945.

The crucifix that was valued at many thousands is valued by the appraisers as being worth \$500, and with duty added, the appraiser places the total on that article at \$750.

The diamonds, originally estimated to be worth \$18,000, which were set with 25 diamonds, has been appraised at \$350; with the duty added it totals \$750.

There were many other grossly exaggerated estimates of articles of jewelry which struck disproportionately. In the opinion of the federal officials the Russians "put something over" on the captain in the trade, as potatoes at the price they sell for here would bring more money in the open market than the Russian jewels.

The popular opinion in the federal building is that the League of Nations and the Genoa conference may be able to tell the poor communists of soviet Russia how to run a government, but that when it comes down to a bargain exchange the Russian will show the world "has nothing on" the Russians.

Charles P. Curtis, assistant United States district attorney, upon receipt of the customs inventory, yesterday, filed a libel against the Muskegon in a motion of penalty, whereby he asks the court to impose upon the vessel a penalty equal to the value of the cargo. Capt. Waack failed to enter upon his manifest and enough additional to cover costs of the suit, in all about \$3500.

This A. P. Curtis stated, will cover the jewelry, clothing, rugs and furnishings, the duty due upon them and the cost of the court action.

The libel states that because Capt. Waack failed to enter the goods in his manifest, the vessel becomes liable to a penalty equal to its value, and asks that the steamer be condemned and sold to satisfy the government's claim. The feeling prevails that the owners will settle all claims with cash and thereby obviate the necessity of an auction.

DRACUT HAS SPECIAL TOWN MEETING

The result of the special town meeting for the residents of Dracut held in Grange hall, Centre village, was as follows: Unanimous acceptance of the gift of a public library by Mrs. Mary G. Morrison in memory of her brother, the late Dr. Moses Greeley Parker. The appropriation of \$500 to build a new catch basin and rebuild the drain on the northerly side of Arlington street near the site of the new library. An appropriation of \$600 was voted under article three for the installation of a siren at the Collinsville school and under the next article, the sum of \$500 was appropriated to grade and equip part of the Collinsville school grounds for playground purposes. The unexpended balance from the purchase of a motor fire truck for the Kenwood district, was applied with an appropriation of \$1000 voted under article five, for the purpose of erecting a building for the use of the fire company in Kenwood. It was voted under article six that the proposed Kenwood fire station be erected by the town, under the direction of the board of engineers, on a lot of land owned by the town on York street in that section.

Article seven was accepted and its provisions require that the unexpended balance of the appropriation made at the annual meeting for the purchase of a watering cart for the highway department be transferred and utilized in the purchase of a small, light and jack and also to repair the bins of the stone crusher for the highway department.

One room of the proposed addition to the Goodhue school will be equipped and to carry out this requirement, the sum of \$500 was voted under article eight of the warrant. A similar sum was appropriated under the next article to be used in the purchase of a Ford chassis for the fire department.

The horse-drawn wagon of the Navy Yard fire company was ordered transferred to the fire department by the vote on article 10, which requested that the vehicle be sold and the money be used for general fire department expenses.

An additional appropriation of \$500 was voted upon favorably under article 11 to be used with the regular police appropriation voted at the annual meeting.

Five street lights were voted to be maintained between Pleasant street and the Kremer residence on Hudson street and two others were also voted on the road leading from the Nashua road towards Lakeview park, under the last articles of the warrant.

CHIEF JUSTICE HALL TAKES OATH

BOSTON, May 18.—Chief Justice Walter Parley Hall of the superior court took the oath of office as chief justice in the council chamber at the state house yesterday afternoon. He was escorted from the courtroom in a procession escorted by an officer of the court and ushered into the presence of the governor and members of the executive council.

The ceremony was brief but formal. The oath was administered by Gov. Cox. Prior to the arrival of Justice Hall the council had confirmed his nomination, submitted a week ago by the governor. After he had been sworn in, Justice Hall was introduced to the members of the council, who extended their congratulations.

Justice Hall was introduced to the members of the council, who extended their congratulations. Justice Hall was introduced to the members of the council, who extended their congratulations.

NO STRIKES OR FAMINE

Sec. Hoover at Work on Plan
to Stabilize Coal Industry
of Country

Would Involve Huge Storage
System in Summer for
Winter Consumption

BY HARRY B. HUNT
WASHINGTON, May 18.—Elimination of seasonal activity in the coal industry, by providing storage facilities for industries and districts of large consumption and for territory far removed from sources of production, may be urged as a result of studies now being made under the direction of Secretary of Commerce Hoover.

These investigations are in the hands of F. R. Wadleigh, mining engineer and fuel expert, whom Hoover has placed at the head of the department's coal division.

"Not until a safe and practical method of coal storage is established, will the economic factors involved be taken up," says Wadleigh.

"A questionnaire has been sent to some 200 of the largest users of coal, who turn probably 76 per cent of the

industrial coal consumed in this country. Their individual experiments in storing coal and the economy and efficiency of the methods followed will furnish a starting point for our work."

Danger of Fire
"The problem involved in coal stor-

FRANCIS R. WADLEIGH

age is not so much the loss in fuel value in storage as the danger of

spontaneous combustion in large masses of coal piled above ground.

"Certain types of coal," Wadleigh says, "like lignite, for example, black very rapidly when exposed to the air. Others, as Pocahontas and the better grades of bituminous, lose very little in heating efficiency."

"Under-water storage as has been provided by the Duquesne Light Company of Pittsburgh; the Western Electric company, the Illinois Traction company, and a few other large users, is regarded as perhaps the best. The cost of this method, however, makes its general adoption difficult. The best method of storage available to the great majority of large users is the first question we have set ourselves to establish."

The theory is that a system of storage would enable large stocks of coal to be placed in reserve during the customary season of slack demand, thus serving three purposes:

One. It would stabilize production.

Two. It would offer year-round employment to miners.

Three. It would enable railroads to transport long-haul coal under favorable conditions, freeing them to handle short-haul coal during winter.

Industries which might most advantageously build up coal stocks during periods of low domestic consumption include electric utilities, coal gas plants, by-product and steel plants, and railroads.

Freight Differential

All of these already have facilities for limited storage. With an economical and safe method established, they might be induced to multiply the amount of their storage stocks.

Secretary Hoover suggests that storage, by large users, particularly the metallurgical industries, might be stimulated if a differential in freight

rates on coal were allowed during the months of normally low demand.

It is unlikely any recommendations will be made by Hoover in time to affect the volume of coal stored this year.

What Hoover is demanding of the many conducting the study is not a hasty report, but a report on the basis of which the government, coal operators, miners and users of coal may be able to pull together to solve conditions, such as have contributed to the present coal strike.

EXAMINATIONS FOR VARIOUS POSITIONS

The United States civil service commission announces a stenographer and typist examination for filling various positions in the local government of New England, such as in the

various custom houses, navy yards, internal revenue offices, etc. This examination will be held on June 16, 1922, and will probably be the last stenographer and typist examination held for a year. Persons who desire to obtain stenographic or typist positions in the local federal service should not fail to enter this examination.

Applications and full information concerning the examination may be obtained from the local secretary at any first or second class post office in New England or the secretary of the first civil service district, Boston, with whom application should be filed in time for him to arrange for the examination of the applicant.

At Chichen-Itza, in Yucatan, where there is a sacred sinking well, all sorts of beautiful sacrifices have been found embedded in the mud.

ADVERTISING IN THE SKY POSSIBLE

By N.E.A. Service
NEW YORK, May 18.—Elmer A. Sperry, inventor, says he can plaster posters and placards all over the sky.

And he'll do it, too, if he can find enough advertisers who want to boost their wares in that way.

The stunt can be accomplished, Sperry says, by the use of a powerful searchlight that will illuminate the sky with rays that can be seen 140 miles.

Sperry's held the secret for 80 years. "At the world's fair in 1893 I threw a picture of President Grover Cleveland on the sky," he says.

"One day while I was away an enterprising advertising agent, bribed one of my men to project the name of a popular soap in the same way. That was the start of sky advertising."

BICYCLIST IS SERIOUSLY INJURED

Alphonse Carrigan, a resident of this city, was painfully injured last evening at about 10 o'clock. While riding his bicycle on the Pawtucket boulevard, he was struck and knocked down by an automobile operated by Arthur Glouard of 478 Moody street. Glouard claims that he was blinded by the glare of a machine coming from the opposite direction and was unable to see the cyclist until it was too late to avoid the accident. Carrigan was taken to the Lowell General hospital, where it was stated his injuries are not considered serious.

This is No. 3 of a series of Rinso endorsements from the
leading washing machine manufacturers of this country.

Why the makers of the well-known Laun-Dry-Ette recommend Rinso

THE LAUNDRYETTE MANUFACTURING CO.
1120 EAST 152ND STREET
CLEVELAND

LAUN-DRY-ETTE

Lever Bros. Co.,
Cambridge, Mass.

Gentlemen:

Our washing experts have found Rinso so satisfactory that we are glad to recommend its use in the Laun-Dry-Ette.

A soap that does not dissolve completely often makes greasy deposits on the clothes. We found no little soapy particles floating around in the water in our tests with Rinso as we did with some of the other soaps.

Rinso dissolves to the last grain in boiling water, making a soap solution of even strength. This solution gives a quick, heavy suds that break down the dirt. This quality in a soap is appreciated by every washing machine manufacturer, for it prepares the way for the efficient operation of the machine.

Twelve minutes was the average operating period with Rinso and not a single article had to be hand-rubbed.

Our analysis of Rinso shows that it contains nothing harmful to the Laun-Dry-Ette. This indicated, of course, that it would not injure any of the pieces washed with it. Our practical washing tests proved this to our complete satisfaction.

Very truly yours,
THE LAUNDRYETTE
MANUFACTURING COMPANY

J. H. Harbinger
President

LONG before the first Laun-Dry-Ette was
put on the market seven years ago the
manufacturers of this famous machine
started making soap tests.

They knew that their machine could be
mechanically perfect—yet not give perfect
satisfaction if the wrong kind of soaps
were used.

Today after months of searching tests
with many soaps they are recommending
Rinso in the Laun-Dry-Ette.

Tests made by other great manufacturers

The same exhaustive tests have been made
by the leading washing machine makers
throughout the country. All are effor-
ding Rinso without qualification.

Rinso is made of pure cleansing materi-
als so perfectly balanced that it is taking
the place of bar soap at every step of the
family wash.

When you put your clothes to soak
Dissolve Rinso in boiling water—use
enough to get big lasting suds. Then,
let your clothes soak an hour or more—
overnight if you like—(colored clothes
only half an hour). Soaking in big, last-
ing lukewarm Rinso suds softens the dirt.

In any washing machine

Use enough Rinso solution to make a
heavy suds. Operate your machine from
10 to 15 minutes. Rinso is the ideal soap
for machine washing.

If you boil

Boiling isn't necessary, but if you like to
boil your white cottons, pour enough
Rinso solution in the boiler to give you
the suds you like.

Rinso is made by the largest soap makers
in the world. Sold everywhere. It comes
in two sizes—the regular size and the big
new package. Get Rinso today—at gro-
cery and department stores. Lever Bros.
Co., Cambridge, Mass.

So Easy to Serve!

WISE housewives serve Jersey
Ice Cream for dessert instead
of pastries, during the hot weather.
Served plain or in many delicious
combinations with fruits, it is far more
nourishing and appetizing. And so much
easier to get!

Remember! this pure cream is a nourish-
ing food in itself—and plan your meal
accordingly. Sold in bulk or in the con-
venient "Tripl-Seal" bricks.

"Look for the Jersey Sign"

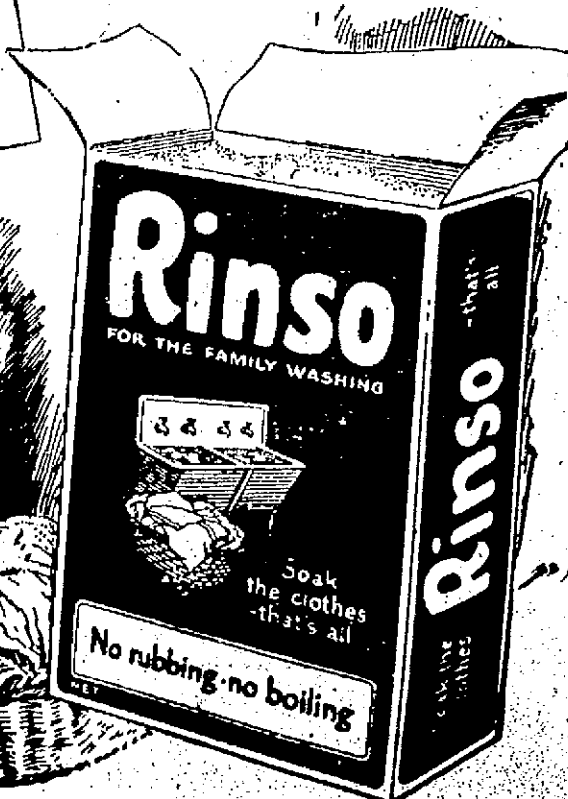

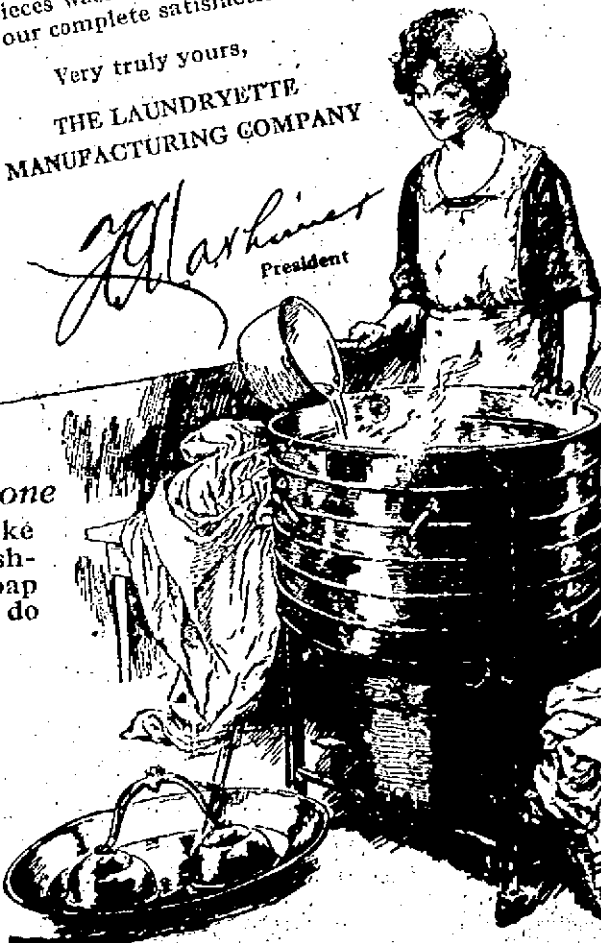

JERSEY Ice Cream
FACTORIES AT LAWRENCE & LYNN, MASS.

SOLD BY

Dealers in Every Section
in Lowell

However your washing is done

The same qualities that make
Rinso an ideal soap in any wash-
ing machine make it the best soap
you can use whatever way you do
the family wash.

Radio-graphs

Radio Fans May Enjoy the Memorial Day Racing Classic

By N.B.A. Service
INDIANAPOLIS, May 18.—Radio fans who delight in sports!

Get ready to tune in Memorial Day, on station WOH, broadcasting from Indianapolis on the 300-meter wave length.

If you do, you will enjoy the 10th annual 500-mile motor racing classic at the Indianapolis Speedway almost as well as the racing fans in the grandstand. You will hear all they hear—even the pop-pop of the motor exhausts as they speed around the track.

Arrangements Made

T. F. Myers, secretary and general manager of the Speedway, has made all arrangements for the radio service with the Hatfield Electric company of this city. The central location of station WOH makes it possible, if the day is clear, for radio enthusiasts the country over to hear its program.

Get your receiving set in tune with WOH early, for promptly at 9.30 the program will start. It will begin with a band concert, by perhaps the largest aggregation of players heard by radio-phones.

It will consist of 40 bands massed into one organization of 1000 pieces. For a half hour before the race, this band will play before the grandstand and its music will be broadcast to all the radio fans listening in.

From 10 o'clock on, when the race begins WOH will broadcast the progress of the contestants at half-hour intervals. Important incidents will be related.

Bombs by Radio

Bombs signaling progress in preparations to start the battle between 32 drivers for the \$100,000 prize money will also be heard by radio. The start of the race, even the cheering of the crowds as the cars get under way will be heard hundreds of miles from the track.

Throughout the day the bulletin radio service will continue until about 4 o'clock, when the finish of the event is expected. Following the race, a complete review of the classic and the winners will be broadcast.

names of the ten prize winners will be broadcast.

WIRELESS NEW? ASK THE CHIEF

Chief Sherman Charging Hawk wouldn't give the present generation credit for inventing the wireless method.

of communication. For he can recall the time when his ancestors used a wireless system of signaling. Only they broadcast signals from beacon fires. However, the Indian chief likes to listen in on modern radio.

RADIO PRIMER

Counterpoise—One or more wires stretched beneath the aerial and insulated from the earth. It is used in radio transmission and reception when a good connection is not available. Aircraft use a counterpoise because of their inability to ground their radio sets.

African natives work in pairs pulling passenger carts.

How To Get Best Results From Your Radio Set

BY R. L. DUNCAN,

Director, Radio Institute of America

If you want to get the most out of your receiving set, take this tip or two:

Never try to share your aerial with another fellow. It won't work. He will be detuning your set and you will be detuning his. This applies to both outdoor and indoor antennas.

If you have to share the aerial, divide the time of operation. Disconnect one set while the other is in use.

Don't expect too much of your indoor loop or frame aerial. As previously explained, this is only for use in case you have a good radio frequency amplifier or have a set near a broadcasting station.

Don't think because the aerial is inside the house, that you can shut out reception by closing the doors and windows. Either upon which the electromagnetic waves travel, permeates all substances, excepting possibly iron and steel, just as easily as it does air.

If you want to shut out reception, throw your switch and disconnect your set from the antenna circuit.

Source of Annoyance

We speak of the detector tube as oscillating when it is so regulated to receive signals at a maximum audibility. In this oscillating it throws off a small amount of energy which leaks through the receiving set into the aerial.

These signals, thrown off by the aerial, will be heard by those nearby who may be tuning in to the same wave length.

This is great source of annoyance and requires skill in tuning to avoid it.

Tuning In

The problem of tuning in to the best advantage is one that each fan will have to work out for himself by simply varying his dial until he discovers the selective spots.

You may see a set receiving very satisfactorily at a friend's home or in a store and note the position of its dials. But if you try to make exact-

ly the same arrangement on your own set, it may not work at all.

It all depends on the location of the receiving station, the height and length of the aerial, the length of the lead-in and the size of the wire used.

No rules can be laid down for specific tunings.

It is mostly up to the operator himself.

Tickler

The plate variometer or "tickler" is the one part of the set that requires the most attention and skill in handling on account of its regenerative principle.

But with a little practice one can soon learn just where each variation is needed, and a maximum of efficiency in reception is enjoyed.

CARD. O'CONNELL TO ATTEND DEDICATION

The dedication of the new chapel in St. Patrick's cemetery on Memorial day will, unless something unforeseen happens, be dignified by the presence of His Eminence Cardinal O'Connell, who will celebrate the mass at 10 o'clock that morning which will solemnly the dedication of the chapel and the vault beneath.

The work of building this chapel conceived and personally supervised by Monsignor O'Brien, P.R., of St. Patrick's church, has been under way for more than a year. The Rt. Rev. Monsignor also planned its dedication, and has also secured the promise of Cardinal O'Connell to attend.

The chapel is practically completed now, as a visit to the cemetery a few weeks ago showed. The interior in readiness for the ceremony of dedication, with a little grading and finishing work to be done on the grounds which surround it.

A prolonged spell of east winds means an increase in the cases of congestion, influenza, rheumatism, lumbago and swollen hands.

Berton Braley's Daily Poem

THE FLAPPER

She isn't afraid of the old Tabooes,
Of dead conventions and ancient views,
She faces the world with a perky grin
And a confident tilt to her dimpled chin;
And the old heads wag and the old tongues chatter,
But she doesn't care for the stuff they chatter,
She knows her actions are being flayed
But not for a minute is she afraid!

She isn't afraid of the shapes of wrath,
The frowning idols that line her path,
Her eyes are open, and though she makes
Mistakes enough—they are her mistakes
And not the blunders of "older heads"
Filled full of cautions and doubts and dreads;
Not always wisely her game is played
But never a moment is she afraid!

She shocks the elders with joyous verve
Until they quiver in every nerve,
But altogether I think the kid
Will do as well as her parents did;
Better perhaps, for we must confess,
Her elders bungled things, more or less;
Under the banners of youth arrayed
She faces the universe—unafraid!

AMUSEMENT NOTES

(By Theatrical Press Agent)

MERRIMACK SQUARE THEATRE

Large numbers of spectators will undoubtedly witness the excellent double-feature bill which Manager Nelson has arranged for Thursday, Friday and Saturday at the Merrimack Square theatre. The leading feature are Hube Daniels in "Nancy From Nowhere," a story presenting the petite star in an entirely new role, and "A Tale of Two Worlds," Gouverneur Morris' most noted story. Coming Monday: "Bought and Paid For," with Jack Holt and Agnes Ayres.

R. F. KEITH'S THEATRE

In the Wilton Square, Rose and Mae, who are featured specially at the R. F. Keith theatre, this week, are two of the best known entertainers on the American vaudeville stage. Their work is a constant delight throughout. Clean as a whistle, attractive in everything they do, and perfect in their work, it is small wonder that the slaters are the great attractions they have proved to be. A real novelty of

the week's bill is provided by the Chinese Singing and dancing troupe, jugglers and wonderworkers. They quess their act by swinging by their queues from ropes suspended in the air. It is a real novelty. James Mullen and Anna Francis provide comedy enough, for several acts, while Dewey and Rogers have one of the prettiest acts of the whole season. The remainder of the bill consists of: Lew and Paul Murdock, dancers; May Miller & Co., in a musical act and Cross & Santero, physical culturists.

THE STRAND

Priscilla Dean opens up in "Wild Honey" the Universal-Jewel special at The Strand today. It's a story adapted from Cynthia Stockley's popular novel of the same name and is classed as the most thrilling melodrama. Miss Dean has ever appeared in—and that is saying much in view of her recent successes. The biggest of the many thrills in "Wild Honey" is based on the destructive flood and a series of brilliant rescues. The flood scenes show a big up river unleashed to sweep down a narrow canyon and through a valley filled with settlers. The turbu-

lence of the water and the destruction power are shown with a realism and before-mentioned on the screen. Priscilla is shown in the midst of it, battling and struggling her way to safety with her young daughter, as well as a number of other people, as well as the excellence of the program.

HOUSE BURNED NEAR LAKEVIEW PARK

A seven-room house and its contents located on Totman road, near Lakeview park, and owned by Arthur Little, were destroyed by fire yesterday afternoon. When the fire was discovered an alarm was sent and the Navy Yard and Centre companies of the District department responded, but the efforts of the men saved the building was fruitless.

MISS ALICE D. GOODMAN

ARE YOU A SUFFERER

Young Women and Those of Middle Age Should Learn From This What is Best for Them

Irona, N. Y.—"It is with pleasure that I acknowledge the good I have derived from the use of Dr. Pierce's medicine. I suffered terribly for years, especially in my right side. I heard of Dr. Pierce's medicine, and took a few bottles each of the Favorite Prescription and the Golden Medical Discovery, also a few units of Pleasant Pellets, and I feel no more pain—am entirely cured."—Miss Alice D. Goodman, Box 35.

MAKES A PERFECT WALL FIN

American Cotton Exchange on Trial

NEW YORK, May 18.—The American Cotton Exchange went on trial in the supreme court today on an indictment charging bucketing of orders. Several officers and individual members of the exchange are under indictment but their trials are deferred until the case against the exchange is disposed of.

Mrs. Bowly, Despatch Bearer, Dead

ASBURY PARK, N. J., May 18.—Mrs. Jane Vanderhorst Bowly who served the Confederacy during the Civil war as a despatch bearer, died at her summer home here today in her 93rd year.

Collier Middlesex Runs Ashore

BOSTON, May 18.—The collier Middlesex, bound with coal from Lumber's Point for Portland, ran ashore at the entrance to that harbor today, it was reported by radio. The consignee cutter Ossipee was ordered to her assistance. The Middlesex registered 2780 tons.

Son of Von Falkenhayn Arrives in U. S.

NEW YORK, May 18.—Fritz Von Falkenhayn, only son of the late Field Marshal Von Falkenhayn, former chief of staff of the German army, arrived today on the Seydlitz to go to work. He served as technical chief of German air forces during the war. "No one in Germany is thinking of more war," he declared. "We are too busy otherwise."

Gold-Star Mothers

Continued

ative, for it is subject to alteration should some suggestion be made that would tend to add to its beauty and significance, but as it stands it embodies the heartfelt appreciation and sympathy of a grateful city.

At the top of the medal is a gold bar, on which will be inscribed the name of the boy. Hung from this bar will be a gold star, with the word "Gold Star Mother." A ribbon drops from the star to the lower part of the medal, which is round in shape and will have on its face the city seal and motto. On its reverse side will be the words:

"Presented to Mother by the City of Lowell, for Her Boy, Who Paid the Supreme Sacrifice to God and Country."

The mayor said today that he esti-

mated that the medals would cost not more than \$1500 and when finished and ready for presentation, a resolution would be passed by the city government, to be spread upon the records of the city clerk and that each medal would be accompanied by a letter, from the city to each mother.

Eventually, the mayor said, he hoped the city would take steps to prepare a suitable mark of appreciation and recognition for presentation to every Lowell man and woman who served in the war, but for the present, financial conditions would allow only the remembrance of the gold-star mothers.

Lubricating oils for the railroads of these regions are being obtained by distilling the bituminous limestones that are found abundantly in Syria and Palestine.

Cases in Superior Court

Continued

Papacostas saw the liquor squad swooping down on him, he dumped the contents of a bottle into a drain, in which were several gallons of water.

Regardless of this fact the jury filled a bottle with the contents of the drain. Examination of this liquid showed it to contain 1.31 per cent alcohol. When the case came up in lower court the defense offered the argument that the liquid in the drain contained alcohol as the result of rinsing beer glasses in it. Papacostas was found guilty and fined following the hearing in local court. Through counsel he appealed to the superior court.

The case has been scheduled for trial several times but each time it has been postponed for some reason or another. It finally came to trial before Judge Frederick Lawton and was found guilty. Papacostas was fined \$100 which he paid.

Three other liquor cases were tried this morning. George Blake, charged with illegal keeping of a saloon, today and was fined \$100 which he paid. He was tried in the local court on Mar. 23, pleaded not guilty, was found guilty by the court and fined \$100. During the same trial in lower court Archie Demers, connected with the raid on Blake's place pleaded guilty, was fined \$100 which he paid.

Peter Dumas, who was charged with an illegal sale pleaded guilty, was fined \$50 and sentenced to one month to the house of correction. He began serving the sentence today. The Dumas case was tried in the local court on April 10. At that time he pleaded not guilty to the charge but was found guilty, fined \$100 and sentenced to three months in the house of correction.

Costos Charles of 7 Bennett court today pleaded guilty to an illegal sale. He was fined \$50. When arraigned in lower court on the charge he was found guilty and fined \$100, which he appealed.

Capt. George Palmer, head of the liquor and vice squad and members of it appeared as government witnesses at all of the trials today.

RULES SWEET CHOCOLATE TO ESTABLISH RECORD MAY DECLARE STRIKE CANDY AND NOT FOOD

BOSTON, May 18.—Sweet chocolate is candy and not food, according to a decision given today by the United States circuit court of appeals.

The court reversed the finding of Judge Morton in the federal district court.

The suit was brought by the Walter Baker Co. of this city against John E. Malley, former internal revenue collector, to recover \$35,235, which the company had paid under protest, on the incomplete candy, which the company had shipped to England, and to prove the necessity for a fast package freight service from here to Europe.

By use of a special 44-hour freight train over the New York Central, a car boat loading arrangement in New York and the new steamship Maudslayi is hoped to make the shipment in exactly one week.

The shipment left here at 1:30 a. m. today and the trip across the ocean will be started Saturday morning.

A method of preserving newly mown grass without drying has recently been worked out in Switzerland.

Office of the Purchasing Agent

Sealed proposals will be received at the Office of the Purchasing Agent until 11 A. M., Monday, May 22, 1922, on the following material:

Lumber, as per specification which may be seen at the office of the Purchasing Agent.

Req. 2154, Chelmsford St. Hospital

20 bags rice.
50 bags coffee.
100 bushels potatoes.
10 bags Y. E. Beans.

All bids submitted to be in sealed envelopes, plainly marked on outside, list of material upon which bid is submitted.

EDWARD H. FOYE,
Purchasing Agent

Lowell, Mass., May 18, 1922.

CITY OF LOWELL

Notice is hereby given as required by section 42, chapter 333 of the Acts of 1921, the city charter, that the following order has been proposed in City Council, to wit:

CITY OF LOWELL

Commonwealth of Massachusetts

In City Council.

ORDER

To appropriate the sum of Twenty-five Thousand Dollars (\$25,000) for the purpose of construction of macadam pavement or other road material, under specifications approved by the Massachusetts Highway Commission, in the City of Lowell.

ORDERED,

By the City Council of the City of Lowell, as follows:

The sum of Twenty-five Thousand Dollars (\$25,000) be and is appropriated for the purpose of construction of macadam pavement or other road material, under specifications approved by the Massachusetts Highway Commission, in the City of Lowell, and to provide the amount necessary to meet said appropriation, the City Treasurer is hereby authorized and directed to issue therefor under authority of and in compliance with Chapter 47, General Laws, coupon bonds or certificates of indebtedness in such form as he may determine, denominated on the face of the City of Lowell Macadam Additional Loan, 1922, to the amount of Twenty-five Thousand Dollars (\$25,000) payable by such annual payments and bearing such rate of interest as may be fixed by the City Treasurer with the approval of the Mayor. Other particulars as to the form, issuance and sale of said bonds shall be determined by the City Treasurer.

FURTHER ORDERED: That the City Treasurer shall issue registered certificates in exchange for any of said coupon bonds at the request of the holder thereof, in compliance with Massachusetts General Laws, Chapter 107, and acts amendatory thereof and in addition thereto.

By order of the City Council,
STEPHEN FLYNN, Clerk.

May 18, 1922.

Commonwealth of Massachusetts—Middlesex, ss. Probate Court.

To the heirs-at-law, next of kin, creditors and all other persons interested in the estate of Matilda T. Murphy, late of Lowell, in said County, deceased, intestate.

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased to Elizabeth H. Murphy, of Lowell, in the County of Middlesex, without giving a surety on her bond.

You are hereby cited to appear at a Probate Court to be held at Cambridge, in said County of Middlesex, on the first day of June, A. D. 1922, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for the consecutive weeks in "The Lowell Sun," a newspaper published in Lowell, the last publication to be one day, at least before said Court.

Witness George E. Lawton, Esquire, First Judge of said Court, this seventeenth day of May, in the year one thousand nine hundred and twenty-two.

P. M. ESTY, Register.

mls-25-29

Commonwealth of Massachusetts—Middlesex, ss. Probate Court.

To all persons interested in the estate of Louis Toupin, late of Lowell, in said County, deceased.

Whereas, Edward Toupin, the administrator of the estate of said deceased, has presented for allowance, the account of his administration upon the estate of said deceased.

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County, on the first day of June, A. D. 1922, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be allowed.

And said administrator is ordered to serve this citation by delivering a copy thereof to all persons known to be interested in the estate seven days at least before said Court.

Witness George E. Lawton, Esquire, First Judge of said Court, this seventeenth day of May, in the year one thousand nine hundred and twenty-two.

P. M. ESTY, Register.

mls-24-31

PRODUCTS MADE IN CHICAGO MAY BE DELIVERED IN EUROPE IN SEVEN DAYS

CHICAGO, May 18.—Products manufactured in Chicago may be delivered in Europe in seven days if the race started today under the auspices of the Chicago Association of Commerce.

The association is hoping to establish a record for the fastest freight shipment from Chicago to Southampton, England, and to prove the necessity for a fast package freight service from here to Europe.

By use of a special 44-hour freight train over the New York Central, a car boat loading arrangement in New York and the new steamship Maudslayi is hoped to make the shipment in exactly one week.

The shipment left here at 1:30 a. m. today and the trip across the ocean will be started Saturday morning.

SEEK COPY OF STEEL MERGER AGREEMENT

NEW YORK, May 18.—The Lockwood legislative committee tried to obtain possession of a copy of the Bethlehem-Lackawanna Steel merger agreement today while Messrs. Taylor, chairman of the board of the Lackawanna Steel company, was testifying, but he told them that the papers, so far as he knew, had not been prepared.

His lawyer informed Samuel Untermyer, committee counsel, that there was only an uncompleted draft of the agreement.

Mr. Taylor, after argument, consented to try to get a copy of the draft for the committee.

Mr. Taylor said the directors only had approved the contract subject to change.

The committee beginning an inquiry into the steel business today first turned its attention to practices of pools which sell to foreign buyers.

NEW ATTEMPT TO REACH IRISH AGREEMENT

DUBLIN, May 18 (by the Associated Press).—When the Daily Mirror met today the speaker announced that matters arising from yesterday's discussions concerning an agreement between the two political factions were still under consideration and that therefore this question on the agenda would be dealt with later.

The announcement confirmed rumors of a renewed attempt to reach an agreement despite yesterday's announcement that the negotiations had broken down.

BEN LEGERE OF O. B. U. SENDS WARNING TO AGENT OF ARLINGTON MILLS

LAWRENCE, May 18.—Ben Legere of the One Big Union today sent a letter to Agent John T. Mercer of the Arlington Mills warning him that a strike may be declared against that plant. The Arlington, with 7000 employees, has been shut down for nearly eight weeks, but no wage cut has been announced there. The grievance against the mill, according to Legere, is that the Arlington is trying to break the strike in the Arcadia mill by having strikebreakers for the Arcadia go through the Arlington mill gates, thus avoiding the pickets.

Legere asks for a conference on the subject to see if the grievance can be satisfactorily adjusted.

MOB BLOCKS RAIDERS 5000 Bombard Dry Agents Who Swooped Down on Baltimore Saloon

BALTIMORE, May 18.—Several thousand persons crowded the streets around "Joe" Kelley's saloon in this city for six hours last night, bombarded dry officials with bricks and upset a large section of Baltimore before the saloon was cleared of two truckloads of liquor.

The crowd, which at one time numbered 5000 persons, persisted in harassing the dry raiders. Calls for the fire apparatus and numerous taxicabs were sent by persons determined to hinder the raid.

It was not until nearly midnight that the dry raiders succeeded in driving away with the two trucks of contraband.

POISON FROM BEE STINGS FATAL

BROOKLYN, Conn., May 18.—John M. Bennett, a farmer, stung while driving a swarm of wild bees, yesterday, collapsed and in an hour was dead. Physicians could attribute only poison from bee stings as the cause of death.

FUNERAL NOTICE

MASON—Died in this city, May 15, at 32 Lawrence street, Arthur F. Mason, aged 39 years 8 months and 27 days. Funeral services will be held at 22 Lawrence street on Friday afternoon at 2 o'clock. Friends are respectfully invited. Burial private. Undertaker William H. Saunders in charge.

BUDGET SHORTAGE IS EXPLAINED

Letters explaining the shortage of \$2000 which exists in the 1922 budget for local Y.W.C.A. camp and girls work are to be delivered throughout the city today by groups of high and grade school girls, who have resolved that their summer work shall not be handicapped through a mere lack of funds. The letters explain the situation fully, saying that on account of this shortage in funds the appropriations for camp and girls work were seriously decreased, and the ultimate consequence will be that the camp will have to be abandoned this year because of lack of facilities, depriving a great many of the girls of the opportunity to spend their vacations there.

No money will be taken when the letters are delivered, as a second call will be made on Saturday for contributions. As many of the girls, unable to afford vacations at other resorts, spend their period of leisure at the Y.W.C.A. camp free of charge, the work is of considerable importance, and contributions fully as generous as in the past are expected.

A list of the girls who have volunteered for the work today and Saturday follows: Mary Washburn, Ernestine Brigham, Mildred Gardner, Alice Dexter, Dorothy Adams, Eleanor Trull, Elizabeth Johnson, Dorothy Fleming, Myrtle Ayer, Helen Waugh, Gladys Fuller, Alice Buchner, Helen Chadwick, Margaret Olney, Ethel Armstrong, Ethel Shatt, Juanita Johnston and Eunice Dodge.

DIRECTORS OF ANACONDA CO.

ANACONDA, Mont., May 18.—John D. Ryan, Cornelius E. Kelley and Benjamin B. Theyer were re-elected to the directorate of the Anaconda Copper Mining Co., each for a term of three years. The annual stockholders' meeting here yesterday.

Other directors are A. H. Mellina, George H. Church, Andrew J. Miller, William Rockefeller, Nicholas F. Brady and Charles F. Brooker.

The company reports a loss of \$16,000,556.19 in 1921. This included \$5,243,669 charged to interest and depreciation, and \$6,650,608 to maintenance of properties during non-operating periods. The sum charged for adjustment of inventories was \$3,652,673. The remainder was in liquidation of stocks.

BUSHES ARE ROBBED OF THEIR BEAUTY

During the past three days the lilac bushes at Fort Hill park have been entirely stripped of their blossoms by irresponsible people and a great deal of other damage has been done to shrubs and flowers being cared for there by the park department.

Other such depredations have occurred in the past, but not in such wholesale form and today Sup't John W. Koran was authorized by the park commission to prosecute any persons found mutilating the flower beds at the park.

DAIL DEBATES BREAKDOWN

DUBLIN, May 18.—(By the Associated Press.)—The Dail Eireann debated throughout yesterday the breakdown of the peace negotiations and adjourned until today without coming to any decision. There is some hope of accommodation, and the interval will be utilized by the peace makers to bring the leaders together. The special peace committee failed to reach a settlement because, having agreed to uncontested elections, they could not agree on what proportion each side should have in the way of members. The supporters of the treaty, although they claim a great majority in the country, offered to be content with six members out of 10. Those opposed to the treaty wanted the existing proportion in the Dail Eireann to remain fixed. There was a further disagreement on the constitution of the coalition cabinet and more important still, on the principles of its operation. Those for the treaty wanted it to assist in the operation of the treaty, their opponents admitted they wanted to evade and destroy the treaty. The deadlock seemed complete. Dr. Patrick McCarten, in moving that the reports be inserted in the Dail records, said the country ought to know that the people were to have civil war and kill each other over a quarrel about a few seats in the Dail. "At the present time," he said, "any quarrel with a gun could pretend to be

Federal Investigation of Marriage

LOS ANGELES, May 18.—(By the Associated Press.)—Department of justice agents will investigate the marriage of Rodolph Valentino, screen actor to Miss Winifred Hudnut, of New York, at Mexicali, Mexico, it became known here today.

long to the Irish republican army and do what he liked. James Dwyer, who was a member of the peace conference, said it was not a question of seats merely, but of acceptance of the Anglo-Irish treaty. He said his idea of coalition was that the government should work for the treaty and utilize its advantages, but that the other side wanted coalition in order to evade the treaty. Liam Mellows said they were still prepared to enter into a genuine coalition which would take from England what England had no right to hold. He created a stir by declaring that they had not sunk to "Tammany methods of bargaining about seats."

BREAK WITH LAWRENCE HIGH
LAWRENCE, May 18.—Athletic relations between the Lawrence and Manchester, N. H., high schools has been broken, according to a statement issued today by the local athletic advisory board, which alleges dissatisfaction with the treatment accorded

Shave, Bathe and Shampoo with one Soap.—Cuticura
Cuticura Soap is the favorite remedy for all skin diseases.

local football and baseball teams playing in Manchester. A game scheduled to be played with Manchester here Saturday has been cancelled. Fatal airplane accidents in France have no apparent deterrent effect on passenger traffic.

Her Opinion Does Not Change

Mrs. John R. Bicknell of No. 10 Grant St., Portland, has used the tonic "L.F." Atwood Medicine for several years, and she still feels that it can hardly be excelled as a household medicine. She has found it invaluable in warding off biliousness and would not be without it.

You are not experimenting when you use "L.F." Atwood's Medicine. It has hosts of friends who are never without a bottle in the house.

S. K. HAMILTON, VETERAN ATTORNEY, DEAD

WAKEFIELD, May 18.—Samuel K. Hamilton, one of the oldest practicing attorneys in Massachusetts, died suddenly at his home, 33 Yale avenue at 6 o'clock last night from heart trouble. Mr. Hamilton had been at his office as usual yesterday and was reading the paper when he was stricken. He was complaining of being ill and died shortly afterward.

Mr. Hamilton had been president of the Middlesex Bar association and vice president of the Massachusetts Bar association. In 1893, when Wakefield created a handsome brick school it was unanimously voted that it be

named the Hamilton school in recognition of Mr. Hamilton's services in behalf of the public schools. He had served as selectman and school committee member here.

HOOVER ACTS TO HALT COAL PRICE BOOSTING

WASHINGTON, May 18.—Secretary Hoover asked and obtained today the approval of the leading operators of non-union bituminous coal fields for a government plan of getting the coal industry by voluntary action to put a stop point on increase of coal prices during the period of the existing coal strike.

The plan which was approved by about 40 operators who met with Mr. Hoover calls for the creation of a committee of operators with government and consumers' representatives serving on it in each district where coal is being produced, through which all orders for coal will be cleared. A similar general committee will be set up in Washington and Mr. Hoover assured the coal operators that he had Attorney General Daugherty's opinion that such co-operative action to reduce and hold down prices in the public interest, would be legal.

Practically all of the representatives of larger producing companies not affected by the strike in the territory east of the Mississippi, were present when Mr. Hoover, saying that the operators had been called for conference at the direction of President Harding announced his plan.

Daugherty to Meet Steel Heads

WASHINGTON, May 18.—Attorney General Daugherty today invited representatives of the eight steel companies named in the senate resolution directing an inquiry into a proposed merger of independent companies to meet him Saturday, to discuss their plans for the proposed merger.

The attorney general who with the federal trade commission was directed to take cognizance of the merger, yesterday addressed his invitations to the presidents of the Bethlehem Steel corporation, Inland Steel & Tube, Brierley Steel, Youngstown Sheet & Tube, Midvale Steel and Ordnance, Republic Iron & Steel, Lackawanna Steel, and the Steel & Tube company of America.

Seats of 27 Ohio Mayors Untenable

COLUMBUS, Ohio, May 18.—Seats of at least 27 Ohio mayors, including Mayor George L. Oles of Youngstown, who were elected on independent tickets last fall, are believed by most attorneys to have been made untenable by a recent decision of the state supreme court. In deciding a contested councilmanic election in Cincinnati the supreme court held that all independent tickets in municipalities of over 2000 population are void, the general assembly never having enacted laws to make the constitutional provision for independent candidates operative.

Negotiations For Funding War Debts

WASHINGTON, May 18.—Negotiations may be conducted simultaneously with France and Great Britain for the funding of the war debts of those nations to the United States, it was said today at the treasury.

High officials declared that the allied debt commission was still without official notification of the intention of France to send a special debt commission to this country but indicated a willingness to treat with the French mission if sent. With the Genoa conference adjourned treasury officials expressed the opinion that the British government soon would be in a position to give the attention of its financial experts to the question of funding negotiations with this country.

THE OLD HOME TOWN

CONFERENCE AT WHITE HOUSE

Transportation Matters Ex-
pected to Be Discussed at
Meeting

Steel Men to Be Guests of
Pres. Harding at Dinner
Tonight

WASHINGTON, May 18.—Trans-
portation matters, including pos-
sible rate reductions, head the list
of subjects which it is thought will
be discussed tonight at the White
House dinner conference, to which
President Harding has invited about
40 of the leading steel men of the
country.

Suggestion was made in certain
quarters that the president wanted
to get first hand information of the
steel industry from the producers
themselves so as to be able to give
to the railroad men invited to a
similar dinner conference Saturday
night, the views of the steel men as
to a voluntary reduction of freight
rates as a means of stimulating
business.

Other subjects it was considered
might come up for discussion in-
cluded the proposed merger in the
steel industry, the 12-hour day, and
phases of the coal strike.

000.27.

Mr. Patrick Larkin of 2 Fulton Ave.,
a popular employee of the D. H. Walker
Co., left today for a two weeks' trip
to New York.

Mrs. Edward C. Downey of Lowell,
wife of the pastor of the Grace Uni-
versalist church, yesterday was elected
a district vice president of the
Woman's Universalist Missionary So-
ciety of Massachusetts at a business
meeting held in connection with a
meeting of the society in Lawrence.

Beginning with a supper at 5.15,
the members of the sub-committee on
construction appointed from the gen-
eral committee on building code re-
vision will meet this evening in cham-
ber of commerce headquarters to
complete its part of the work. The
report will be submitted to the general
committee in a short time.

The civil service commission has
approved and allowed the transfer of
John Hickey as a carpenter from the
buildings department to the school de-
partment. The transfer previously was
held up, but now meets with the sanc-
tion of the civil service authorities. He
will begin his work in the school de-
partment next Monday.

John W. Burke, a former Westford
board member, has been appointed a member of
the board of education of Yonkers, N. Y.,
where he now lives. Mr. Burke was
born in Westford and after graduating
from Worcester Polytechnic Institute
was interested in various engineering
projects in this country, Canada, Mex-
ico, Europe, America and Cuba. He is
a brother of Ella M. Burke Gould and
a brother-in-law of James C. Donohue.

A miscellaneous show was tendered
Miss Lillian Welton, on Tuesday
evening at the home of Arthur Mes-
sier in Liberty street. The home was
beautifully decorated in pink and
white. Miss Welton was the recipient
of many useful gifts including
cut glass and linen. Among those
present were the choir from St. Mar-
garet's church of which Miss Welton
is a member. Many enjoyable games
were played after which a buffet
lunch was served. Miss Welton is to
become the bride of Mr. Omer Mes-
sier of 16 Osgood street.

BIDS OPEN ON AUTOMOBILE TRUCK

On a requisition for the purchase of
a one-ton automobile truck with dump
body for the park department, the fol-
lowing bids were opened today by the
purchasing agent:

Pitts Motor Sales, Ford, \$761; Low-
ell Anderson Motor Co., Anderson,
\$1850; George F. White, Red, \$1799;
Lowell Motor Sales Co., Ford, \$734 and
\$221; Ventuckot, Motors, Stewart,
\$1825; Lowell Motor Mart, Dodge,
\$1720; First Street Garage, Republic,
\$1375 plus \$250 for electric equipment;
Lowell Buick Co., C.M.C., \$1735, plus
\$100 for cab driver.

The following proposals were re-
ceived on supplying six dozen oil coats
and the same number of oil hats for
the ash collection department: J. J.
Sullivan—Coats, \$2.75 and \$1.75 each;
hats, 87 and 95 cents each. New Eng-
land Rubber Co.—Coats, \$2.75 per dozen;
hats, \$4.20 per dozen. W. E. & Bar-
lett—\$1.90 for the lot. George Hutch-
ins—Coats, \$2.80 and \$1.75 per dozen;
hats, \$5.50 and \$1.50 per dozen.

CHILD INJURED BY AUTOMOBILE

Christos Catraen, aged four years,
residing at 16 Linden street, was
struck by an automobile in Thorndike
street last evening. The automobile
that figured in the accident is owned
by Beatrice E. Kelly, of 2 Plymouth
street, and was being operated by Al-
bert J. Mincau, of 124 Gershom ave-
nue. The driver of the car took the
boy to St. John's hospital, where after
an examination, it was found that his
injuries were slight.

DISTRICT COURT CASES

Man Charged With Oper-
ating Auto While Drunk—
Liquor Cases

This morning's session of district
court, with Judge Thomas J. Enright
on the bench, was a repetition of those
of the past two days as far as length
was concerned. Although there were
12 cases listed on the docket, none of
them developed a trial, most of the
cases being continued to next week.

George Hall was charged with oper-
ating a motor vehicle without a license,
pleaded guilty and was fined \$10, which
he paid. It was alleged that Hall took
his employer's car without permission.

John J. Ahern of Cambridge was ar-
raigned on a charge of operating an
auto while under the influence of li-
quor. A drunkenness complaint was
also registered against him. He was
arrested by the Billerica police yester-
day. He pleaded not guilty to both
charges and was granted a continu-
ance of one week upon his own re-
quest.

Patrick Neary pleaded not guilty to
a charge of keeping liquor and had his
case continued. A charge of concealing
mortgaged property, lodged against Joseph
A. Maynard, was also continued to
May 25.

Rudolph Bekrendt, charged with
threatening, failed to appear for trial
and was defaulted.

DEATHS

MACKAY—Miss Isabel G. Mackay
died yesterday at the home of her sis-
ter, Mrs. F. D. Munn, 105 Eleventh
street, aged 66 years. She leaves three
sisters, Mrs. F. D. Munn of this city,
Mrs. Lindsay Barrett of Lynn and Miss
Mary Mackay of New York.

FUNERALS

MACKENNEY—The body of Frank J.
Mackenny, who died at Sandwich, N. H.,
May 14, arrived in this city yesterday
afternoon and burial took place in the
family lot in the Edison cemetery, where
services were conducted by
Alexander Danton, pastor of the Ed-
ison Union Methodist church. The
local arrangements were in charge of
Undertaker William H. Saunders.

HUGHES—The funeral of Rev.
Oliver Hughson, former pastor of
Highland Union Methodist church, took
place Tuesday afternoon at Grace M. E.
church, Cambridge. Bishop Edwin
Holt Hughes presided. From this city
were present: Rev. J. J. Kennedy, pas-
tor of Highland Union church; Rev. J.
E. Boakes, pastor of Central M. E.
church; Rev. J. J. Cullen, pastor of St.
Paul's M. E. church; and the follow-
ing named members of the Highland
Union M. E. church: Mrs. Walsh, Mrs.
Kendrick, Mrs. Henderson, Mrs. Yen,
Mrs. McCann, Miss Burgess, Milton
Washburn, Mr. and Mrs. Ruel and
Leonard Ruel, Miss Florence Nevins,
Mr. and Mrs. W. D. Large and Mrs.
Rosa Ruel.

PORTER—The funeral of Mrs. Rose
Rancho (Demers) Porter took place
this morning from her home, 53 Bar-
rett street, celebrated at 9 o'clock by
Rev. Fr. McQuaid, O.M.I., assisted by
Rev. Fr. McGinley, O.M.I., and deacon
Rev. Fr. Sullivan, O.M.I., as sub-
deacon. The choir, under the direction
of William L. Crokin, rendered the
Gloria and the organ. The bearers
were Charles LaFollette, Theophile and
Camille Porter, Angela and Frank O'Neill.
There were numerous floral and spiri-
tual offerings. Burial was in the fam-
ily lot in St. Patrick's cemetery. The
funeral services were read by
Rev. Fr. McQuaid, O.M.I. Funeral ar-
rangements were in charge of Und-
ertakers Amadeo Archambault & Sons.

FUNERAL NOTICE

KEENEAN—Died May 16, Mrs. Mar-
garet Keenan. Funeral will take place
on Friday morning at 9 o'clock at the
funeral parlors of Undertakers
St. H. McDonough Sons. Funeral
high mass of requiem will be said
at 8 o'clock at the Sacred
Heart church. Burial will take place in St. Pat-
rick's cemetery. The funeral ar-
rangements will be in charge of
Undertakers M. H. McDonough Sons.

REQUIEM MASSES

FALLON—There will be an anniver-
sary mass for Vincent J. Fallon at
8 o'clock Friday morning at the Sa-
cred Heart church.

FARRINGTON—There will be a
month's mind mass of requiem Sat-
urday morning at 8 o'clock at the
Immaculate Conception church for
the repose of the soul of Mrs. Mary
Farrington.

ROONEY—There will be a month's
high mass of requiem Friday
morning at 8 o'clock, at St. Peter's
church, for the late Mrs. Mary Ro-
oney, who died May 19, 1915.

DRONEY—There will be a month's
mind mass of requiem Saturday
morning at 8 o'clock at the Sacred
Heart church for the repose of the
soul of Mrs. Mary Dronney.

MCARTHUR—An anniversary high
mass at St. Mark's church on
Saturday morning at 8 o'clock for
the repose of the soul of Mrs. Brid-
get (Lacey) McArthur.
Gone but not forgotten.
By her son,
MATTHEW P. LACEY.

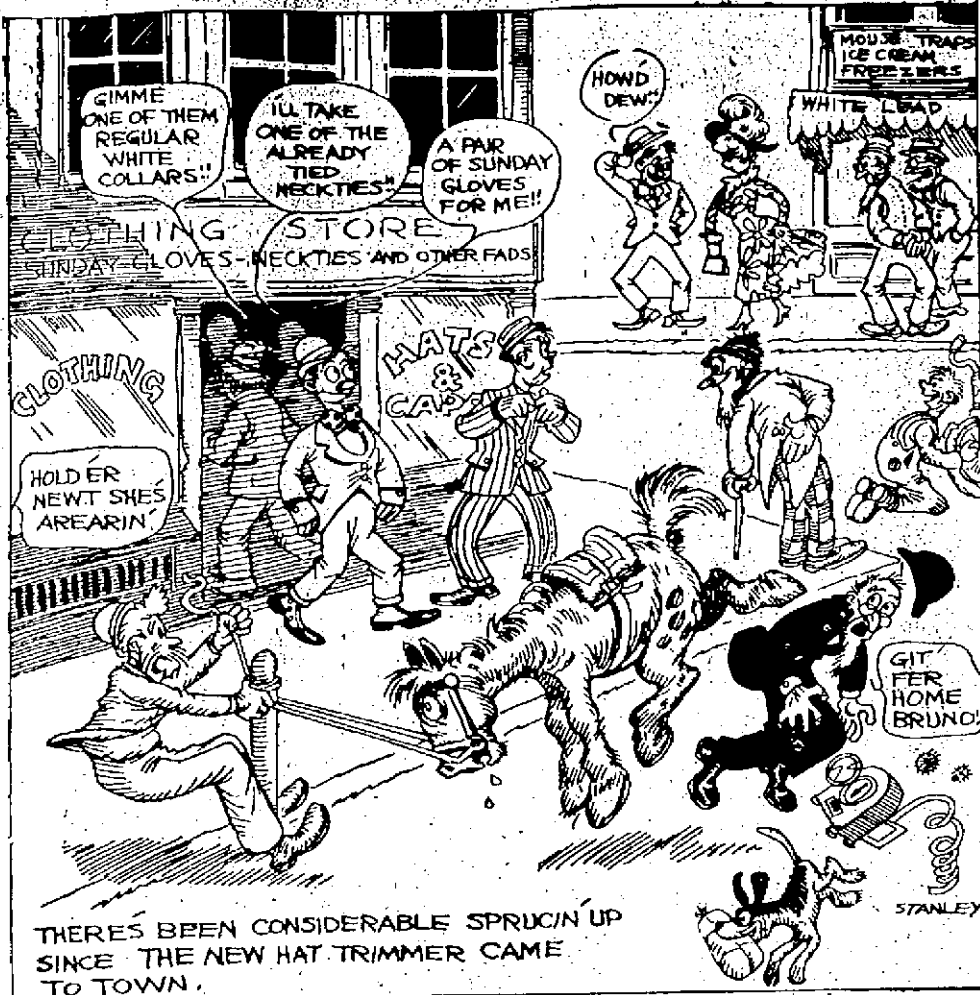

Mr. John J. Dawson, who for the
past two years has been confined to
the Corporation hospital, is now re-
superating at the home of his daugh-
ter, Mrs. James Hickey, 48 Methuen
street.

MAYOR HEARS FROM GAS LIGHT COMPANY

General Manager C. R. Pritchard
of the Lowell Gas Light company today
sent a letter to Mayor Geo. H. Brown
regarding the street signs that have
been reported as missing on the lamps
at street corners.

Mr. Pritchard has notified the Wel-
bach company, whose contract with the
Lowell Gas Light company covers this
point, that the complaint has been re-
ceived and has asked that company to
take proper action.

In the meantime the distribution su-
perintendent of the gas company has
been instructed to make a thorough
investigation, as it is the desire of the
company that the contract with the
city shall be followed to its minutest
detail.

MATRIMONIAL

Mr. Samuel Thompson Wright, a
former resident of the gas company has
been instructed to make a thorough
investigation, as it is the desire of the
company that the contract with the
city shall be followed to its minutest
detail.

Billweeth—Dumphy, of the Boston
office of the American Express com-
pany, and Miss Mary Danahy, a popu-
lar clerk at the registry of deeds at
the court house, were united in mar-
riage at St. Peter's rectory this morn-
ing at 10 o'clock. Rev. Daniel Heffernan
officiated. The bride was attend-
ed by Miss Mary Regan and Mr.
Charles A. Horan was the best man.
Following the ceremony a reception
was held at the home of the bride's
mother, 238 Hale street. Later the
happy couple left on a wedding tour.

INDICTMENTS IN LABOR WAR

Chicago Police Seek Indict-
ment of Four, Including
One Woman

Confession of Driver of
"Death Car" Made Public
By Authorities Today

CHICAGO, May 18.—Police today
made public a confession obtained
today said, from John Miller, alleged
driver of the car from which shots
were fired killing two Chicago police-
men May 9, in the so-called labor
war. With Miller in the car, according
to his confession, were Charles
Daudzauskis, alias "Fidneck" and
"Floater" Stanley. Search for the
men was started today.

Indictment of at least four more
persons, one a woman, will be asked
of the grand jury today in connection
with the police hunt for terrorists,
who police say are operating in pro-
test against the Landis building
trades wage award.

Miller's confession was obtained,
police say, when he was confronted
with evidence connecting him with
the slaying of Terrence Lyons, acting
lieutenant and Thomas Clark, patrol-
man on guard over a building being
erected under the Landis award.

Describes Shooting
"Daudzauskis and Stanley asked me
to drive them around as they had a
job on hand, and wanted to look the

DOG BIT REPORTED
Another dog bite was brought to the
attention of the board of health to-
day, when it was reported that Walter
Carney, aged 11 years, of 11 Jut-
terfield street, had been bitten on the
leg by a dog owned by Peter Sarris of
18 Butterfield street. Dr. Sherman
will investigate the case.

WOMAN ENDS LIFE
BURLINGTON, Vt., May 18.—Barbara
Peopore, aged 57, of St. Albans, an
inmate of a local sanitarium, commit-
ted suicide here this morning by drown-
ing in Lake Champlain. The woman
was being treated for nervous trouble.
She was unmarried.

ground over," police say Miller's con-
fession reads.

"They told me to drive them down
to 22nd and Dumber streets. When
we got there a policeman came up
and stopped us. Daudzauskis drew a
gun and fired when he was being
searched. We drove away but a po-
lice car later drove up and ordered
us to halt. Again Daudzauskis fired.
"We deserted the car and I reported
it stolen to the police."

Miller denies any connection with
bombings and other disorders. Both
police and state's attorneys are in-
clined to believe that Miller has not
told them the entire truth.

Move to Indict Woman
"He has only told us of the shoot-
ing," one officer said, "and has
tried to conceal his part in the whole
affair. The names of Daudzauskis and
Stanley sound fictitious."

Miller is being kept incommunicado
in an outlying police station.

The woman against whom police
say an indictment will be asked, is
believed to be Mrs. Margaret Miller,
wife of John Miller. Police say she
admitted seeing bombing parties set
out from the Miller home.

Charles B. Fitzmorris, chief of po-
lice, said today that he was highly
pleased with the results of the in-
vestigation.

Nearly one-third of the population
of the world are Christians.

TO HOLD "ROSEBUD" DAY

Pittsfield Central Labor Union
to Assist the Lowell Tex-
tile Strikers

A "Rosebud" day for the benefit of
the textile strikers of this city will
be held in Pittsfield next Saturday.
The affair will be conducted under the
auspices of the Central Labor union
of that city, which received permis-
sion from the mayor to sell the
buds on the streets of the city.

The arrangements for the event are
being made by President John Hanley
of the Lowell Textile Council, who is
acting in conjunction with the officers
of the Pittsfield Central Labor union.
According to present arrangements
about 10 young women connected with
the Lowell strike will spend the day
in Pittsfield and they will be assisted
by a corps of young women of that
city. It is expected that the receipts
of the day will be very substantial.

In order to have accurate figures in
connection with the number of opera-
tives at the Hamilton Mfg. Co., the
strike committee has secured auto-
matic tabulators and the little ma-
chines are being used at the three
places of the morning, noon, and
night. According to reports made at
headquarters this forenoon the figures
on the three tabulators showed that
over 700 people entered the mill be-
tween the hours of 6.45 and 6.15 and
that between 7.30 and 8.15 o'clock
the strikers feel that not more than
400 men and women are employed at
the mill. It is also stated that there is a great
many idle looms in the plant, for one
weaver is now operating two and
three looms as against eight in normal
times.

It is expected that Merrimack and
Grafton halls in Merrimack street will
be inadequate to hold the large gath-
ering that will assemble there this
evening. The cause of the big gather-
ing will be an entertainment and
dances under the auspices of the Low-
ell Textile Council for the benefit of
the textile strikers. It was stated
that the headquarters this forenoon that
close to 2000 tickets have already
been sold, which means that there will
be a bumper attendance.

GEORGE W. CARTWRIGHT

California Ex-Senator Will
Visit Lowell and Discuss
the Industrial Situation

With Colonial hall tentatively en-
gaged June 8 and 9, the chamber of
commerce is rapidly completing ar-
rangements for the reception of ex-U. S.
Senator George Wilder Cartwright
of California, who will be in Lowell
as the chamber's guest on these two
days.

On the evening of June 8, ex-Senator
Cartwright will address an open meet-
ing on the business and industrial sit-
uation, and the methods he would sug-
gest for its improvement. This meet-
ing will be open to the public, with
no charge attached.

The following day will be spent in
conferences on the same matters with
members of the chamber or any other
business men who wish to arrange for
same.

RIFLES FOR HIGH SCHOOL REGIMENT

Three hundred new rifles for the
high school regiment, ordered three
weeks ago, today were delivered to
the regimental quartermaster at the
annex drill shed. They are lighter in
weight than the ones now in use.

Miss Leitch to Play Miss Wethered

SANDWICH, England, May 18.—(By the Associated Press)—Miss
Cecil Leitch, British women's open golf champion, and Miss Joyce
Wethered, English close champion, will compete for the open champion-
ship over the Princes course here both having won their matches in the
semi-finals today. In the semi-finals, Miss Leitch defeated Miss Gladys
Bustin of the Grosborough Beacon club, five and four, and Miss Wethered
defeated Miss Joan Stoker of Sheringham, by the same score.

To Inspect Big Marine Corps Camp

WASHINGTON, May 18.—Nearly half the membership of the house,
Secretary Denby and Assistant Secretary Roosevelt of the navy depart-
ment, along with navy and marine officers, went to Quantico, Va., on the
presidential yacht Mayflower today, to look over the big marine corps.
An elaborate inspection and entertainment program had been arranged
and the party expected to return tonight.
